## CHAPTER I—PROCLAMATIONS

### PROCLAMATION 2161

#### CONTRIBUTIONS TO AMERICAN RED CROSS FOR FLOOD RELIEF

Flood waters raging throughout eleven states have driven 200,000 people from their homes, with every indication that this number may be materially increased within the next twenty-four hours. In this grave emergency the homeless are turning to our great national relief agency, the American Red Cross, for food, clothing, shelter and medical care.

To enable the Red Cross to meet this immediate obligation and to continue to carry the burden of caring for these unfortunate men, women and children until their homes are restored and they can return to normal living conditions, it is necessary that a minimum relief fund of three million dollars be raised as promptly as possible.

As President of the United States and as President of the American Red Cross, I am, therefore, urging our people to contribute promptly and most generously so that sufficient funds may be available for the relief of these thousands of our homeless fellow citizens. I am confident that in the face of this great need your response will be as immediate and as generous as has always been the case when the Red Cross has acted as your agent in the relief of human suffering.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 19th day of March, in the year of our Lord nineteen hundred and [SEAL] thirty-six and of the Independence of the United States of America the one hundred and sixtieth.

FRANKLIN D. ROOSEVELT

By the President:

WILLIAM PHILLIPS,  
*Acting Secretary of State.*

Regulation 8, "Permits to Propagate and Sell Migratory Waterfowl", is amended to read as follows:

*Regulation 8.—Permits to Propagate and Sell Migratory Waterfowl*

1. A person in possession of a valid, subsisting permit issued to him by a State, on its part, authorizing him to take therein migratory waterfowl or their eggs for propagating purposes, may take such birds or their eggs in such State for such purposes when authorized by a permit issued to him by the Secretary, which permit may limit the species and numbers of birds or eggs that may be taken and the period during which and the locality where they may be taken. Both permits shall be carried on the person of the permittee when he is taking migratory waterfowl or their eggs and shall be exhibited to any person requesting to see them. Waterfowl and their eggs so taken may be possessed by the permittee and may be sold and transported by him for propagating purposes to any person holding a permit issued by the Secretary in accordance with the provisions of this regulation.

2. A person in possession of a valid, subsisting permit issued to him by a State, on its part, authorizing him to possess, buy, sell, and transport migratory waterfowl and their increase and eggs for propagating purposes, may possess, buy, sell, and transport such waterfowl and their increase and eggs for such purposes when authorized by a permit issued to him by the Secretary; and migratory waterfowl, except the birds taken under paragraph 1 of this regulation, so possessed may be killed by him at any time and in any manner (except that they may be killed by shooting only during the open season for waterfowl in the State where killed), and the carcasses, with heads and feet attached thereto, may be sold and transported by him to any person for actual consumption, or to the keeper of a hotel, restau-

rant, or boarding house, a retail dealer in meat or game, or a club, for sale or service to their patrons, who may possess such carcasses for actual consumption without a permit, but no such birds that have been killed shall be bartered, sold, or bought unless each bird before attaining the age of 4 weeks shall have had removed from the web of one foot a portion thereof in the form of a V large enough to make a permanent, well-defined mark, which shall be sufficient to identify it as a bird raised in domestication under a permit.

3. Applications for permits shall be addressed to the Secretary of Agriculture, Washington, D.C., and must state the name and address of the applicant; the place where the propagating project is to be carried on; the area to be used in the project; the facilities the applicant has for properly caring for the waterfowl; the number of each species of waterfowl in his possession, and how, when, and where they were acquired; and, if the application is for a permit to take migratory waterfowl or their eggs, the species and number of each species or eggs of each species proposed to be taken, and the specific locality where it is proposed to take them.

4. Every permittee shall keep books and records that shall correctly set forth the number of each species of waterfowl and their eggs taken by him, if he holds a permit to take waterfowl, the number of each species of waterfowl and their eggs possessed on the date of application for a permit to possess, sell, purchase, or transport such waterfowl, and on the 1st day of each September next following, and for each 12-month period thereafter during the life of the permit, the number of each species reared and killed, the number of each species and their eggs sold and transported, the manner in which such waterfowl and eggs were transported, the name and address of each person from or to whom waterfowl and eggs were purchased or sold, the number and species so purchased or otherwise acquired or sold and whether sold alive or dead, and the date of each transaction. A report correctly setting forth this information for the preceding 12-month period shall be filed annually with the Secretary on or before September 1.

5. A permittee shall at all reasonable hours allow any authorized employee of the United States Department of Agriculture to enter and inspect the premises

where operations are being carried on under this regulation and to inspect the books and records relating thereto.

6. No permit issued by the Secretary authorizes the taking, possession, sale, purchase, exchange, or transportation of migratory waterfowl unless the permittee has in his possession while exercising any such privilege a valid, subsisting permit of equivalent tenor issued to him by the State in which he proposes to operate. Permits are not transferable and are revocable at any time in the discretion of the Secretary. A permit revoked by the Secretary shall be surrendered to him by the person to whom it was issued on demand of any employee of the United States Department of Agriculture authorized to enforce the provisions of the Migratory Bird Treaty Act.

7. A person may possess and transport, subject to the provisions of paragraph 8 of this regulation, for his own use, without a permit, live migratory waterfowl now lawfully possessed or hereafter lawfully acquired by him, but he may not purchase or sell such waterfowl without a permit. A State or municipal game farm or city park may possess, purchase, sell, and transport live migratory waterfowl without a permit, but no such waterfowl shall be purchased from or sold to a person (other than such State or municipal game farm or city park) unless he has a permit. Feathers of wild ducks and wild geese lawfully killed, and feathers of such birds seized and condemned by Federal or State game authorities, may be possessed, bought, sold and transported for use in making fishing flies, bed pillows, and mattresses, and for similar commercial purposes, but not for millinery or ornamental purposes.

8. Every package in which migratory waterfowl or parts or eggs thereof are transported by any means whatever from one State, Territory, or the District of Columbia to, into, or through another State, Territory, or the District of Columbia or to or from a foreign country shall be plainly and clearly marked or labeled on the outside thereof to show the name and address of the consignor and consignee, the contents of the package by number and kind, the number of the permit under authority of which it is transported, and the purpose for which the waterfowl or eggs are being transported. Every package in which migratory waterfowl or their eggs are shipped wholly within a State or Terri-

tory for propagating purposes shall be plainly and clearly marked or labeled on the outside thereof in the manner above prescribed.

Regulation 9, "Permits to Collect Migratory Birds for Scientific Purposes", is amended to read as follows:

*Regulation 9.—Permits to Collect Migratory Birds for Scientific Purposes*

A person in possession of a valid, subsisting permit issued to him by a State, on its part, authorizing him to take therein migratory birds or their nests or eggs for scientific purposes may take such birds or their nests or eggs in such State for such purposes when authorized by a permit issued to him by the Secretary. Both permits shall be carried on his person when he is collecting migratory birds thereunder and shall be exhibited to any person requesting to see them; but nothing herein shall be deemed to permit the taking of any migratory game bird during the open season therefor in any manner or by any means or at any time of day not permitted by regulations 3 and 4 of these regulations.

Application for a permit shall be addressed to the Secretary of Agriculture, Washington, D.C., and must state the name and address of the applicant, his age, the State or Territory in which specimens are proposed to be taken, the purpose for which they are intended, information sufficient to show that specimens permitted to be taken will be devoted to scientific purposes, and the names and addresses of at least two well-known ornithologists, principals or superintendents of educational or zoological institutions, officials or members of zoological or natural history organizations, or instructors in zoology in high schools, colleges, or universities, from whom may be obtained information respecting the applicant's status as a scientific investigator. The applicant must furnish such other information touching his fitness to be entrusted with a permit as may be called for by the Secretary.

A permit may limit the number and species of migratory birds or their nests or eggs that may be taken thereunder, and the places where, time when, and means by which they may be taken, and may authorize the holder thereof, when possessed of an equivalent State permit, to possess, buy, sell, exchange, and transport migratory birds and their nests and eggs for scientific purposes; or it may limit the holder to one or more of these

privileges. Public museums, zoological parks and societies, and public scientific and educational institutions may possess, buy, sell, exchange, and transport migratory birds and their nests and eggs for scientific purposes, without a permit, but no specimens shall be taken without a permit or purchased from or exchanged with a person not authorized by a permit to sell or exchange them. The plumage and skins of migratory game birds legally taken may be possessed and transported by a person without a permit.

A taxidermist, when authorized by a permit issued by the Secretary, may possess any migratory bird delivered to him for mounting or like preparation by any person who has lawfully taken or lawfully possesses such bird, and may transport such specimen in consummation of such purpose when likewise authorized by the State in which such permittee is operating. Every such permittee shall keep books and records correctly setting forth the name and address of each person delivering each specimen of migratory bird to him, together with the name of each species, the date of delivery, the disposition of each specimen, and the date thereof, and such books and records shall be available for inspection at all reasonable hours on request of any authorized representative of the Department of Agriculture.

No permit issued by the Secretary authorizes the taking, possession, sale, purchase, exchange, or transportation of any migratory bird unless the permittee has in his possession while exercising any such privilege a valid, subsisting permit of equivalent tenor issued to him by the State in which he proposes to operate. Permits are not transferable and are revocable at any time in the discretion of the Secretary. A permit revoked by the Secretary shall be surrendered to him by the person to whom issued, on demand of any employee of the United States Department of Agriculture authorized to enforce the provisions of the Migratory Bird Treaty Act. A person holding a permit under this regulation shall report annually to the Secretary, on or before the 10th day of January, the number of birds or nests or eggs of each species taken, bought, sold, received, possessed, mounted, exchanged, or transported during the preceding 12 months, and failure to make such report will be cause for revocation of the permit.

Every package in which migratory birds or their nests or eggs are transported by any means whatever for scientific purposes, from one State, Territory, or the District of Columbia, to, into, or through another State, Territory, or the District of Columbia, or to or from a foreign country shall be plainly and clearly marked or labeled on the outside thereof to show the name and address of consignor and consignee, the contents of the package by number and kind, the number of the permit under authority of which it is transported, and that the specimens contained therein are for scientific purposes. Every package in which migratory birds or their nests or eggs are shipped wholly within a State or Territory, for scientific purposes, shall be plainly and clearly marked or labeled on the outside thereof in the manner above prescribed.

AND WHEREAS upon consideration it appears that approval of the foregoing amendatory regulations will tend to effectuate the purposes of the aforesaid Migratory Bird Treaty Act and result in reducing the annual kill of migratory game birds:

##### AMERICAN EDUCATION WEEK

An opportunity for all of our people to obtain the education that will best fit them for their life work and their responsibilities as citizens is the ideal of American education. It is an ideal which has been a vital factor in our national development since 1647 when the General Court of Massachusetts enacted the historic measure providing for an elementary school in every township of fifty householders and a grammar school in every town of one hundred families "to instruct youth so farr as they may be fitted for ye university". In the expansion of the nation the school has moved with the frontier, and time and experience have demonstrated that universal education is essential to national progress.

It is accordingly with a feeling of earnest gratification that we note the improvement which has taken place with respect to the educational situation in the United States. Teaching positions which were eliminated during the depression years are being restored and teachers' salaries have returned to pre-

depression levels in an encouraging number of school systems, colleges, and universities. There has been a steady increase in the attendance of students at elementary schools, high schools, and colleges.

It is particularly appropriate, therefore, that a time be set apart this year for a widespread and understanding observance of the benefits that flow from a continuing advancement of the standards of American education.

NOW, THEREFORE, I, FRANKLIN DELANO ROOSEVELT, President of the United States, do by this proclamation designate the week beginning Monday, November 9, 1936, as American Education Week and urge that it be observed throughout the United States.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington this 30th day of September, in the year of our Lord nineteen hundred [SEAL] and thirty-six, and of the Independence of the United States of America the one hundred and sixty-first.

##### THANKSGIVING DAY—1936

I, FRANKLIN D. ROOSEVELT, President of the United States of America, hereby designate Thursday, the twenty-sixth day of November 1936, as a day of national thanksgiving.

The observance of a day of general thanksgiving by all the people is a prac-

tice peculiarly our own, hallowed by usage in the days before we were a nation and sanctioned through succeeding years.

Having safely passed through troubled waters, it is our right to express our gratitude that Divine Providence has vouchsafed us wisdom and courage to overcome adversity. Our free institutions have been maintained with no abatement of our faith in them. In our relations with other peoples we stand not aloof but make resolute effort to promote international friendship and, by the avoidance of discord, to further world peace, prosperity, and happiness.

Coupled with our grateful acknowledgment of the blessings it has been our high privilege to enjoy, we have a deepening sense of our solemn responsibility to assure for ourselves and our descendants a future more abundant in faith and in security.

Let us, therefore, on the day appointed, each in his own way, but together as a whole people, make due expression of our thanksgiving and humbly endeavor to follow in the footsteps of Almighty God.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

## PROCLAMATION 2222

CONTRIBUTIONS TO AMERICAN RED CROSS  
FOR FLOOD RELIEF

Disastrous floods in the Ohio and Mississippi River valleys already have driven 270,000 men, women and children from their homes. There is every likelihood that until the crest of the flood waters is reached, this number of homeless refugees will be largely increased. Snow, sleet and freezing weather have added to the suffering and made more hazardous the work of rescue.

The victims of this grave disaster are dependent upon the American Red Cross for food, shelter, fuel, medical care and warm clothing. I have instructed the various agencies of the Federal Government to cooperate to the fullest extent with the Red Cross authorities.

In order that the Red Cross may meet these immediate emergency needs and continue to care for these unfortunates until the waters have receded and they can be returned to their homes, it is imperative that a minimum relief fund of two million dollars be raised as speedily as possible. We are looking to this great national relief agency to act as our representative in this emergency.

As President of the United States and as President of the American Red Cross, I am, therefore, urging all of our people to contribute promptly and most generously to this relief fund so that adequate relief may be made instantly available for these thousands of our homeless and suffering fellow citizens.

I am confident the response everywhere will be immediate and generous.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 23d day of January in the year of our Lord nineteen hundred and [SEAL] thirty-seven and of the Independence of the United States of America the one hundred and sixty-first.

##### ONE HUNDRED AND FIFTIETH ANNIVERSARY OF THE CONSTITUTION

WHEREAS the Constitution of the United States was signed on September 17, 1787, and had by June 21, 1788, been ratified by the necessary number of States; and

WHEREAS George Washington was inaugurated as the first President of the United States on April 30, 1789:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, hereby designate the period from September 17, 1937, to April 30, 1939, as one of commemoration of the one hundred and fiftieth anniversary of the signing and the ratification of the Constitution and of the inauguration of the first President under that Constitution.

In commemorating this period we shall affirm our debt to those who ordained and established the Constitution "in Order to form a more perfect Union, establish Justice, insure domestic Tranquility, provide for the common defence, promote the general Welfare, and secure the Blessings of Liberty to ourselves and our Posterity".

We shall recognize that the Constitution is an enduring instrument fit for the governing of a far-flung population of more than one hundred and thirty million engaged in diverse and varied pursuits, even as it was fit for the governing of a small agrarian nation of less than four million.

It is therefore appropriate that in the period herein set apart we shall think afresh of the founding of our Government under the Constitution, how it has served us in the past and how in the days to come its principles will guide the nation ever forward.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of

the United States of America to be affixed.

*Regulation 8.—Permits to Propagate Migratory Waterfowl*

1. A person in possession of a valid, subsisting permit issued to him by a State, on its part, authorizing him to take therein migratory waterfowl or their eggs for propagating purposes, may take such birds or their eggs in such State for such purposes when authorized by a permit issued to him by the Secretary, which permit may limit the species and numbers of birds or eggs that may be taken and the period during which and the locality where they may be taken. Both permits shall be carried on the person of the permittee when he is taking migratory waterfowl or their eggs and shall be exhibited to any person requesting to see them. Waterfowl and their eggs so taken may be possessed by the permittee and may be sold and transported by him for propagating purposes to any person holding a permit issued by the Secretary in accordance with the provisions of this regulation.

2. A person in possession of a valid, subsisting permit issued to him by a State, on its part, authorizing him to possess, purchase, sell, and transport migratory waterfowl and their increase and eggs for propagating purposes, may possess, purchase, sell, and transport such waterfowl and their increase and eggs for such purposes when authorized by a permit issued to him by the Secretary; but may not purchase or sell to any person not authorized by these regulations or by a permit issued thereunder to sell or purchase such waterfowl and their eggs; and migratory waterfowl, except the birds taken under paragraph 1 of this regulation, so possessed may be killed by him at any time and in any manner (except that they may be killed by shooting only during the open season for waterfowl in the State where killed), and the carcasses, with heads and feet attached thereto, may be sold and transported by him to any person for actual consumption, or to the keeper of a hotel, restaurant, or boarding house, a retail dealer in meat or game, or a club, for sale or service to their patrons, who may possess such carcasses for actual consumption without a permit, but no such birds that have been killed shall be bartered, sold, or purchased unless each bird before attaining the age of 4 weeks shall have had removed from the web of one foot a portion thereof in the form of a V large enough to make a permanent, well-defined mark, which shall be sufficient to identify it as a bird raised in domestication under a permit.

3. Applications for permits shall be addressed to the Secretary of Agriculture, Washington, D.C., and must state the name and address of the applicant; the place where the propagating project is to be carried on; the area to be used in the project; the facilities the applicant has for properly caring for the waterfowl; the number of each species of waterfowl in his possession, and how, when, and where they were acquired; and, if the application is for a permit to take migratory waterfowl or their eggs, the species and number of each species or eggs of each species proposed to be taken, and the specific locality where it is proposed to take them.

4. Every permittee shall keep books and records that shall correctly set forth the number of each species of waterfowl and their eggs taken by him, if he holds a permit to take waterfowl, the

number of each species of waterfowl and their eggs possessed on the date of application for a permit, the number of each species reared and killed, the number of each species and their eggs sold and transported, the manner in which they were transported, the name and address of each person from or to whom waterfowl and eggs were purchased or sold, the number and species so purchased or otherwise acquired or sold and whether sold alive or dead, and the date of each transaction. Whenever requested by the Chief of the Bureau, the permittee shall submit to him such report of his operations under the permit as may be called for, and in any event shall file with the Secretary, on a form provided therefor, on or before January 10, a full report of his operations during the preceding calendar year. Failure to make the reports therein provided for will be cause for revocation of the permit.

5. A permittee shall at all reasonable hours allow any authorized employee of the United States Department of Agriculture to enter and inspect the premises where operations are being carried on under this regulation and to inspect the books and records relating thereto.

6. No permit issued by the Secretary authorizes the taking, possession, sale, purchase, exchange, or transportation of migratory waterfowl or their eggs unless the permittee has in his possession while exercising any such privilege a valid, subsisting permit of equivalent tenor issued to him by the State in which he proposes to operate. No permit issued by the Secretary authorizes the transportation of migratory waterfowl or their eggs from Mexico into the United States unless such waterfowl or eggs are accompanied by a Mexican export permit. Permits are not transferable and are revocable at any time in the discretion of the Secretary. A permit revoked by the Secretary shall be surrendered to him by the person to whom it was issued on demand of any employee of the United States Department of Agriculture authorized to enforce the Migratory Bird Treaty Act.

7. A person may possess and transport, subject to the provisions of paragraph 8 of this regulation, for his own use, without a permit, live migratory waterfowl now legally possessed or hereafter legally acquired by him, but he may not purchase or sell such waterfowl without a permit. A state or municipal game farm or city park may possess, purchase, sell, and transport live migratory water-

fowl without a permit, but no such waterfowl shall be purchased from or sold to a person (other than such State or municipal game farm or city park) unless he has a permit. Feathers of wild ducks and wild geese legally killed, and feathers of such birds seized and condemned by Federal or State game authorities, may be possessed, purchased, sold, and transported for use in making fishing flies, bed pillows, and mattresses, and for such similar commercial purposes, but not for millinery or ornamental purposes.

8. Every package in which migratory waterfowl or parts or eggs thereof are shipped wholly within a State or Territory, or the District of Columbia, or in which such waterfowl, parts, or eggs are transported by any means whatever from one State, Territory, or the District of Columbia to, into, or through another State, Territory, or the District of Columbia, or to a foreign country, shall be plainly and clearly marked, labeled, or tagged on the outside thereof to show the name and address of the consignor and consignee, the contents of the package, the number of the permit under authority of which it is shipped or transported and the purpose for which the waterfowl or eggs are being shipped or transported.

*Regulation 9.—Permits To Collect Migratory Birds for Scientific Purposes*

1. A person in possession of a valid, subsisting permit issued to him by a State, on its part, authorizing him to take therein migratory birds or their nests or eggs for scientific purposes may take such birds or their nests or eggs in such State for such purposes when authorized by a permit issued to him by the Secretary. Both permits shall be carried on his person when he is collecting migratory birds thereunder, and shall be exhibited to any person requesting to see them; but nothing herein shall be deemed to permit the taking of any migratory game bird during the open season therefor in any manner or by any means or at any time of the day not permitted by regulations 3 and 4 of these regulations.

2. Applications for permits shall be addressed to the Secretary of Agriculture, Washington, D.C., and must state the name and address of the applicant, his age, the State or Territory in which migratory birds or their nests or eggs are proposed to be taken, the purpose for which they are intended, informa-

tion sufficient to show that such birds, nest or eggs permitted to be taken will be devoted to scientific purposes, and the names and addresses of at least two well-known ornithologists, principals or superintendents of educational or zoological institutions, officials or members of zoological or natural history organizations, or instructors in zoology in high schools, colleges, or universities, from whom may be obtained information respecting the applicant's status as a scientific investigator. The applicant must furnish such other information touching his fitness to be entrusted with a permit as may be called for by the Secretary.

3. A permit may limit the number and species of migratory birds or their nests or eggs that may be taken thereunder, and the places where, time when, and means by which they may be taken, and may authorize the holder thereof, when possessed of an equivalent State permit, to possess, purchase, sell, exchange, and transport migratory birds and their nests and eggs for scientific purposes but not to purchase or sell to any person not authorized by these regulations or by a permit issued thereunder to sell or purchase such birds, nests or eggs, or it may limit the holder to one or more of these privileges. Public museums, zoological parks and societies, and public scientific and educational institutions may possess, purchase, sell, exchange, and transport migratory birds and their nests and eggs for scientific purposes, without a permit, but no such birds, nests, or eggs shall be taken without a permit or purchased from, sold to, or exchanged with a person not authorized by these regulations or by a permit issued thereunder to sell, purchase or exchange them. The plumage and skins of migratory game birds legally taken may be possessed and transported by a person without a permit.

4. A taxidermist, when authorized by a permit issued by the Secretary, may possess any migratory bird, or nest or egg thereof delivered to him for mounting or other preparation by any person who has legally taken or legally possesses it and may transport such bird, nest or egg in consummation of such purpose when likewise authorized by the State in which such permittee is operating. Every such permittee shall keep books and records correctly setting forth the name and address of each person delivering each migratory bird or nest or egg thereof to him, together with the name of each

species, the date of delivery, the disposition of each such bird, nest or egg and the date thereof, and such books and records shall be available for inspection at all reasonable hours on request of any authorized representative of the Department of Agriculture.

5. No permit issued by the Secretary authorizes the taking, possession, sale, purchase, exchange, or transportation of any migratory bird, or nest or egg thereof, unless the permittee has in his possession while exercising any such privilege a valid, subsisting permit of equivalent tenor issued to him by the State in which he proposes to operate. No permit issued by the Secretary authorizes the transportation of any migratory bird, or part, nest or egg thereof from Mexico into the United States unless such bird, or part, nest, or egg is accompanied by a Mexican export permit. Permits are not transferable and are revocable at any time in the discretion of the Secretary. A permit revoked by the Secretary shall be surrendered to him by the person to whom it was issued on demand of any employee of the United States Department of Agriculture authorized to enforce the Migratory Bird Treaty Act. Whenever requested by the Chief of the Bureau, the permittee shall submit to him such report of his operations under the permit as may be called for, and in any event shall file with the Secretary, on a form provided therefor, on or before January 10, a full report of his operations during the preceding calendar year. Failure to make the reports herein provided for will be cause for revocation of the permit.

6. Every package in which migratory birds or parts, nests or eggs thereof are shipped wholly within a State or Territory or the District of Columbia, or in which such birds, parts, nests, or eggs are transported by any means whatever from one State, Territory, or the District of Columbia to, into, or through another State, Territory, or the District of Columbia, or to a foreign country, for scientific purposes shall be plainly and clearly marked, labeled, or tagged on the outside thereof to show the name and address of the consignor and consignee, the contents of the package, the number of the permit under authority of which it is transported, and that the specimens contained therein are for scientific purposes.

*Regulation 10.—Permits To Kill Migratory Birds Injurious to Property*

Community injury.—When information is furnished the Secretary that any species of migratory bird has become, under extraordinary conditions, seriously injurious to agriculture or other interests in any particular community, an investigation will be made to determine the nature and extent of the injury, whether the birds alleged to be doing the damage should be killed, and, if so, during what times and by what means. Upon his determination an appropriate order will be made.

Specific injury.—Upon receipt by the Chief of the Bureau, or the Regional Director of the Bureau of Biological Survey in the region where the injury occurs, of information from the owner, tenant, or share cropper that migratory birds are injuring his crops or other property on the land on which he resides, together with a statement of the location of the land, the nature of the crops or property being injured, the extent of such injury, and the particular species of birds committing the injury, an investigation will be made and if it is determined from such investigation that the injury complained of is substantial and can be abated only by killing the birds, or so many thereof as may be necessary, a permit to kill the birds will be issued by said Chief of the Bureau or Director, in which permit will be specified the time during which, the means and methods by which, and the person or persons by whom the birds may be killed, and the disposition to be made of the birds so killed, and such other restrictions as may be deemed necessary and appropriate in the circumstances of the particular case: *Provided, however,* That in every permit issued as aforesaid it shall be specified that no such birds shall be shot at or killed at any time or in any manner not authorized by the laws of the State in which such permit is effective; and as to migratory waterfowl, that they shall not be shot at or killed (1) from any blind, sink, pit, or any other device or means of concealment, whether natural or artificial, movable or stationary, or on land or water; (2) by means of any gun larger than no. 10 gage, or of any gun to which a silencer has been attached or otherwise affixed; and (3) by the use of decoys of any description, or of traps or nets of any kind.

Every person exercising any privilege hereinbefore in this regulation provided for shall keep an accurate record of all migratory birds killed by him and whenever requested by the Chief of the Bureau or by the Regional Director shall submit promptly, on a form provided by the Bureau for the purpose, a report correctly stating the species and number of each species of migratory birds killed by him and in any event shall submit such report to the Regional Director on or before January 10 of each year. Failure to submit a report as required by this regulation will be sufficient cause for revocation of any permit or withdrawal of any privilege accorded any person failing to make the report.

*Regulation 11.—State Laws for the Protection of Migratory Birds*

Nothing in these regulations or in any permit issued thereunder shall be construed to permit the taking, possession, sale, purchase, or transportation of migratory birds, or parts, nests, or eggs thereof contrary to the laws and regulations of any State or Territory, or the District of Columbia, made for the purpose of giving further protection to migratory birds, their nests, and eggs when such laws and regulations are not inconsistent with the conventions between the United States and any other country for the protection of migratory birds or with the Migratory Bird Treaty Act and do not extend the open seasons for such birds beyond the dates prescribed by these regulations.

*Regulation 12.—Transportation of Game Mammals To and From Mexico*

Game mammals, parts or products thereof, taken in and transported from a State, Territory, or the District of Columbia may be transported to Mexico, if the importation thereof is not prohibited by law or regulation of that country, upon presentation to the Collector of customs at the port of exit of the certificate of an official, warden, or other officer of the game department of such State, Territory, or District, that such game mammals, or parts or products thereof, which must be listed in the certificate, were taken or acquired and are being transported in compliance with the laws and regulations of such State, Territory, or District.

Live game mammals authorized by a special permit issued by the Secretary of Agriculture, pursuant to Section 241 of the Penal Code, to be imported, and the dead bodies, parts or products of game mammals, proceeding from Mexico, if accompanied by a Mexican export permit, may be transported into the United States, but their possession in any State, Territory, or the District of Columbia will be subject to the laws of such State, Territory, or District.

The Migratory Bird Treaty Act Regulations approved July 31, 1918 (40 Stat. 1912) and all amendments thereof are hereby revoked, but all regulations heretofore adopted and approved pursuant to said Act closing areas of land and water or of land or water adjacent to migratory bird sanctuaries, refuges, reservations, and breeding and feeding grounds to the taking of migratory birds, and all orders and permits of the Secretary of Agriculture heretofore made or issued pursuant to said Act and now in force authorizing the killing or other disposition of certain species of migratory birds when injurious to crops and other property and interests and the taking, possession, sale, purchase, exchange, or transportation of migratory birds and their nests and eggs for scientific purposes, and migratory waterfowl for propagating purposes, are hereby continued and extended in full force and effect as regulations, orders, and permits adopted and approved or made or issued hereunder.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States Department of Agriculture to be affixed.

DONE at the City of Washington this 26th day of July, 1937.

shall be levied by the Government of the United States for the use of the Panama Canal, and provides that no tolls when so prescribed shall be changed unless six months' notice thereof is given by the President by proclamation; and

WHEREAS section 412 of title 2 of the said Code requires the President to determine the tonnage of vessels on which toll charges for the use of the Panama Canal shall be based, and fixes maximum and minimum rates of tolls; and

WHEREAS the act entitled "An Act to provide for the measurement of vessels using the Panama Canal, and for other purposes", approved August 24, 1937, which amends the said section 412 and which by its terms becomes effective March 1, 1938, provides, in part, that the tonnage on which tolls shall be based shall be determined in accordance with the Rules for the Measurement of Vessels for the Panama Canal prescribed by the President, and fixes maximum and minimum rates of toll:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, acting under and by virtue of the authority vested in me by the aforesaid section 411 of title 2 of the Canal Zone Code, approved June 19, 1934, do hereby prescribe and proclaim the following rates of toll to be paid by vessels using the Panama Canal:

1. On merchant vessels, yachts, army and navy transports, colliers, hospital ships, and supply ships, when carrying passengers and cargo, ninety (90) cents per net-vessel ton of 100 cubic feet each of actual earning capacity—that is, the net tonnage determined in accordance with the Rules for the Measurement of Vessels for the Panama Canal.

2. On vessels in ballast without passengers or cargo, seventy-two (72) cents per net-vessel ton.

3. On other floating craft, including warships, other than transports, colliers, hospital ships, and supply ships, fifty (50) cents per ton of displacement.

The tolls prescribed by this Proclamation shall become effective on March 1, 1938, and on that date shall supersede the tolls prescribed by Proclamation No. 1225 of November 13, 1912.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 25th day of August, in the year of our Lord nineteen hundred and [SEAL] thirty-seven and of the Independence of the United States of America the one hundred and sixty-second.

#### PROCLAMATION 2248

##### RULES FOR THE MEASUREMENT OF VESSELS FOR THE PANAMA CANAL

WHEREAS section 412 of title 2 of the Canal Zone Code approved June 19, 1934, requires the President to determine the tonnage of vessels upon which toll charges for the use of the Panama Canal shall be based; and

WHEREAS the act entitled "An Act to provide for the measurement of vessels using the Panama Canal, and for other purposes", approved August 24, 1937, which amends the said section 412 and which by its terms becomes effective March 1, 1938, provides, in part, that tolls on merchant vessels, army and navy transports, colliers, hospital ships, supply ships, and yachts shall be based on net-vessel tons of 100 cubic feet each of actual earning capacity determined in accordance with the Rules for the Measurement of Vessels for the Panama Canal prescribed by the President and as may be modified by him from time to time by proclamation after public hearings and six month's public notice:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, acting under and by virtue of the authority vested in me by the aforesaid section 412 of title 2 of the Canal Zone Code, approved June 19, 1934, do hereby prescribe and proclaim the Rules for the Measurement of Vessels for the Panama Canal which are annexed hereto and made a part of this proclamation.

The Rules for the Measurement of Vessels for the Panama Canal prescribed by this proclamation shall become effective on March 1, 1938, and shall on that date supersede the Rules prescribed by Proclamation No. 1258 of November 21, 1913.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 25th day of August, in the year of our Lord nineteen hundred and [SEAL] thirty-seven and of the Independence of the United States of America the one hundred and sixty-second.

FRANKLIN D ROOSEVELT

CORDELL HULL,  
*Secretary of State.*

**RULES FOR THE MEASUREMENT OF VESSELS  
FOR THE PANAMA CANAL**

EFFECTIVE MARCH 1, 1938

*All Vessels to Present Tonnage Document  
at Canal*

1. ARTICLE I. All vessels, American and foreign, except warships, floating dry-docks, and dredges, including vessels of commerce and Army and Navy transports, colliers, supply ships, and hospital ships, applying for passage through the Panama Canal shall present a duly authenticated certificate stating the vessel's gross and net tonnage as determined by these rules. Vessels of commerce, Army and Navy transports, colliers, supply ships, and hospital ships without such certificate shall, before passing through the Canal, or before being allowed to clear therefrom, be measured, and shall have their gross and net tonnage determined in accordance with these rules.

2. All warships, American and foreign, other than transports, colliers, supply and hospital ships, shall present duly authenticated displacement scale and curves stating accurately the tonnage of displacement at each possible mean draft.

*Vessels Designated as "Supply Ships", "Colliers", and "Warships"*

3. It is to be understood that "supply ships" shall include Army and Navy ammunition ships, refrigerator ships, distilling ships, repair ships and tenders, as well as Army and Navy vessels used to transport general Army and Navy supplies; and that "colliers" shall include Army and Navy vessels used to transport coal or fuel oil; and that "warships" shall include armed coast guard vessels and vessels devoted to naval training purposes.

**GROSS TONNAGE**

*Spaces To Be Included in Gross Tonnage*

4. ART. II. Gross tonnage as determined by these rules shall express the total capacity of vessels, i.e., the exact cubical contents of all spaces below the upper deck and of all permanently covered and closed-in spaces on or above that deck, excepting such spaces as may be hereinafter permitted as exemptions from measurement. Gross tonnage shall include not only all permanently covered and closed-in spaces which are or may be used for stowing cargo and stores or for providing shelter and other comfort for passengers or crew, but also such spaces as are used, or are intended to be used, in navigating and serving the vessel.

5. Only such spaces as are specifically mentioned in article IV, below, shall be exempted from measurement. All other spaces shall be considered as closed in and shall be included in gross tonnage.

*Spaces Considered Permanently Covered  
and Closed-In*

6. ART. III. By permanently covered and closed-in spaces on or above the upper deck are to be understood all those which are separated off by decks or coverings, or fixed partitions, and which, therefore, represent an increase of capacity that is or may be used for the stowage of cargo, or for the berthing and accommodation of the passengers, the officers, or the crew. No break in a deck, nor any opening or openings in a deck or the covering of a space or in the partitions or walls of a space, nor the absence of a partition shall prevent a space from being measured and comprised in gross tonnage if means are provided for closing such a break, opening or openings, so that the spaces thus closed in be thereby better fitted for the transport of goods or passengers. The upper deck is the uppermost full length deck extending from stem to stern.

7. In the case of a vessel having a "trunk" or "turret", the deck forming the covering of the trunk or turret shall be considered the upper deck, and all spaces below that deck within the trunk or turret shall be considered as covered and closed in. The space within the turret or trunk shall be measured as are other between-deck spaces.

8. Spaces considered as "permanently closed in" and spaces permitted to be exempted from measurement shall be

determined solely by the provisions contained in these rules, and not by any definitions or provisions contained in the measurement rules or regulations of any country.

*Spaces Exempted From Measurement and Gross Tonnage*

9. ART. IV. The following spaces shall be exempted from measurement and shall not be included in the gross tonnage, and no other spaces shall be exempted:

10. SECTION 1. Spaces on or above the upper deck not permanently covered or closed in, or which may not be readily covered or closed in. In the application of this rule it will be understood that—

(a) Spaces under decks or coverings having no other connection with the body of the ship than the stanchions necessary for their support are not spaces separated off, but are spaces permanently exposed to the weather and the sea and are not to be included in the gross tonnage.

(b) A space within a poop, forecastle, bridge house, or other "permanently covered and closed-in" superstructure or erection may be considered as not permanently covered or closed-in, and may consequently be excluded from tonnage, if the space is opposite an end opening which is not provided with means of closing, and which opening has a breadth equal to or greater than half the breadth of the deck at the line of the opening, and if the space opposite the opening cannot be used to shelter other merchandise than cargo or stores that do not require protection from the sea. If the opening is fitted with a coaming, the space within it is to be included in the gross tonnage if the coaming is more than 2 feet in height. This provision shall be so applied as to exempt from measurement only the space between the actual end opening and a line drawn parallel to the line or face of the opening at a distance from the opening equal to one-half the width of the deck at the line of the opening; provided, that any closed-in space between the open face and the line drawn parallel to it shall be measured. The remainder of the space within a poop, forecastle, bridge house, or other superstructure or erection shall be considered as available for the accommodation of cargo or stores, of passengers or of the ship's personnel, and shall be measured and included in the gross tonnage. (See figs. 1, 2, and 3.)

Should the open space within a poop, forecastle, bridge house, superstructure, or erection between the end opening and a parallel line distant from the opening by half the breadth of the deck become, because of any arrangement, except by convergence of fore and aft bulkheads,

of less width than half the breadth of the deck, then only the space between the line of the end opening and a parallel line drawn through the point where the athwartship width of the open space within the poop, forecastle, bridge house, superstructure, or erection becomes equal to, or less than, half the breadth of the deck shall be exempted from measurement. (See figs. 4, 5, 6, and 7.) The remainder of the space within the poop,

forecastle, bridge house, superstructure, or erection is to be included in the gross tonnage.

When two erections extending from side to side of the ship are separated by an interval the fore-and-aft length of which is less than the least half breadth of the deck in way of such interval, then whatever be the breadth of the permanent end openings of the erections, the entire erections, less the interval separating them, shall be measured and included in the gross tonnage. (See fig. 8.)

(c) In a poop, forecastle, side-to-side bridge house, or other "permanently covered and closed-in" superstructure or side-to-side erection the space directly in way of opposite openings, the height of which is at least 3 feet, in the side walls of the ship not provided with means of closing and corresponding to each other in the opposite walls of the ship shall be exempted. (See figs. 9 and 10.) Passages running fore-and-aft abreast the engine-room casing and open at both ends shall not be exempted. The deck erection including same shall be considered a side-to-side erection provided its outboard sides are flush with the hull of the vessel.

11. SEC. 2. Spaces in way of opposite side openings at least 3 feet in height not provided with means of closing shall be exempted. In the case of a continuous deck with one or more deck openings (usually designated as tonnage openings) that may be so closed as to permit cargo or stores to be carried in the space under the deck, or under portions thereof, only the spaces under such a deck that are exactly in way of opposite

openings at least 3 feet in height in the side walls of the ship not provided with means of closing and corresponding to each other in the opposite walls of the ship shall be exempted; and the remaining spaces under such a deck shall be measured and included in gross tonnage. In case the openings in the side walls of the ship are provided with means of closing no portion of the space under such a deck shall be exempted. (Fig. 11.)

12. SEC. 3. The spaces framed in round the funnels and the spaces required for the admission of light and air into the engine rooms shall be exempted from measurement to the extent that such spaces are above the deck or covering of the first or lowest tier of side-to-side erections, if any, on the upper deck as defined in Art. III. A deck with one or more deck openings (usually designated as tonnage openings) that may be so closed as to permit cargo or stores to be carried in the space under the deck or portions thereof would be considered as the upper deck. There shall, however, be measured and included within gross tonnage the spaces situated within closed-in side-to-side erections on the upper deck, spaces framed in round the funnels and those required for the admission of light and air to the extent that such light and air and funnel spaces are below the deck or covering of the first or lowest tier of side-to-side erections on the upper deck. There shall be exempted from the measurement of any superstructure or erection situated above the first or lowest tier of side-to-side erections on the upper deck such portion or portions thereof as are occupied by the spaces framed in round the funnels or by the spaces required for the admission of light and air into the engine rooms. Such exempted spaces must not be used for any other

than their designated purpose and must be reasonable in extent.

13. SEC. 4. Space or spaces between the inner and outer plating of the double bottom of a vessel shall be exempted from measurement, except when used, designated or intended for carrying cargo; but the tonnage of such spaces within the double bottom as are or may be used for carrying cargo, shall be determined and included in the gross tonnage. The tonnage of double bottom tanks available for cargo may be obtained by multiplying the liquid-capacity weight by the proper conversion factor to get tons of 100 cubic feet.

14. SEC. 5. The cubical contents of hatchways shall be obtained by multiplying the length and breadth together and the product by the mean depth taken from the top of beam to the underside of the hatch cover. From the aggregate tonnage of the hatchways there shall be deducted one-half of 1 percent of the vessel's gross tonnage, exclusive of hatchways, and only the remainder shall be added to the gross tonnage of the ship, exclusive of the tonnage of the hatchways.

15. SEC. 6. Companion houses shall be exempted when used solely to protect stairways and ladders leading to spaces below. When used as smoking rooms or for any other purposes than companion houses, the parts so used shall be measured and included in gross tonnage.

16. SEC. 7. Domes, skylights, and airshafts shall be exempt from measurement. When there is an opening in the floor of a superstructure immediately below a skylight, the exemption shall include the space between the skylight and the opening in the floor of the superstructure immediately under the sky-

light. The remainder of the superstructure shall be included in the measurement. The space, in addition to the skylight, that may be exempted by this rule is that indicated by A, B, C, D in the following drawings:

FIG. 12.—Open spaces between skylight and opening.

17. ART. V. (This section was eliminated on recommendation of Special Committee on Panama Canal Tolls and Vessel Measurement Rules, 1936.)

*Spaces Available for Passengers Not To Be Exempted*

18. ART. VI. Spaces for the use or possible use of passengers shall not be exempted from measurement except as stated in ARTICLE IV, SECTION 1, paragraph (a).

19. In case of Army and Navy transports, colliers, supply ships, and hospital ships as defined in article I, the term "passengers" shall include all officers, enlisted men, and other persons who are not assigned to duty and who are not duly inscribed on the ship's rolls.

20. ART. VII. (This section was eliminated on recommendation of Special Committee on Panama Canal Tolls and Vessel Measurement Rules, 1936.)

*Measurement of the Cubical Contents of Spaces May Be by the Moorsom System in Each Country, or by the Moorsom System as Prescribed in These Rules*

21. ART. VIII. The cubical contents of the spaces included, by these rules, in gross tonnage may, in any country where the Moorsom system of measurement has been adopted, be ascertained under that system as applied in measuring vessels for national registry, provided that system is substantially similar to the Moorsom system of measurement as set forth in Article IX of these rules.

*Rules for the Measurement of Contents of Spaces*

22. ART. IX. In countries that have not adopted the Moorsom system of measuring spaces within vessels, the cubical contents of any of the spaces included in gross tonnage shall be ascertained according to the Moorsom system as set forth in the following rules: Rule I for

the measurement of empty vessels; rule II for laden vessels; rule III for open vessels.

*Rule I. For Measuring the Gross Tonnage of Empty Vessels*

23. SEC. 1. The length for the admeasurement of ships having one or more decks is taken on the tonnage deck, which is—

(a) The upper deck for vessels having one or two decks.

(b) The second deck from below for vessels having more than two decks.

24. Measure the length of ship in a straight line along the upper side of the tonnage deck from the inside of the inner plank (average thickness) at the side of the stem to the inside of the mid-ship stern timber or plank there, as the case may be (average thickness), deducting from this length what is due to the rake of the bow in the thickness of the deck and what is due to the rake of the stern timber in the thickness of the deck, and also what is due to the rake of the stern timber in one-third of the round of the beam; divide the length so taken into the number of equal parts required by the following table, according to the class in such table to which the ship belongs:

Class 1: Ships of which the tonnage deck is, according to the above measurement, 50 feet long or under, into four equal parts.

Class 2: Ships of which the tonnage deck is, according to the above measurement, above 50 feet long and not exceeding 120 feet, into six equal parts.

Class 3: Ships of which the tonnage deck is, according to the above measurement, above 120 feet long and not exceeding 180 feet, into eight equal parts.

Class 4: Ships of which the tonnage deck is, according to the above measurement, above 180 feet long and not exceeding 225 feet, into 10 equal parts.

Class 5: Ships of which the tonnage deck is, according to the above measurement, above 225 feet long, into 12 equal parts. (NOTE: A greater number of divisions is permissible provided there be an even number of divisions.)

25. In the case of a break or breaks in a double-bottom, the length of the vessel is to be taken in parts according to the number of breaks, and each part divided into a number of equal parts according to the class in the above table to which such length belongs.

26. SEC. 2. Then the hold being first sufficiently cleared to admit of the required depths and breadths being properly taken, find the transverse area of the ship at each point of division of the length or each point of division of the parts of the length, as the case may require as follows: Measure the depth at each point of division, from a point at a distance of one-third of the round of the beam below the tonnage deck, or, in the case of a break, below a line stretched in continuation thereof, to the upper side of the floor timber (upper side of the inner plating of the double bottom) at the inside of the limber strake, after deducting the average thickness of the ceiling which is between the bilge planks and the limber strake.

27. In the case of a vessel constructed with longitudinal framing, the depths are to be taken to the upper edge or inner surface of the longitudinal frames, where no double bottoms exist. In the case of a ship constructed with a double bottom, the depth shall be taken to the upper side of the inner plating of the double bottom, and that upper side shall, for the purposes of measurement, be deemed to represent the floor timber of the vessel. This rule for measuring the depth of the hold applies to double-bottom ships having top of double bottom not horizontal. Subject to the provisions of article IV, section 4 of these rules regarding the exemption of double-bottom spaces, if any tank or compartment between the inner and outer plating of the double bottom is used or fitted for the carrying of cargo, the tonnage of the whole of such tank or compartment shall be determined and included in the gross tonnage of the vessel.

28. If the depth at the midship division of the length does not exceed 16 feet, divide each depth into five equal parts; then measure the inside horizontal breadth at each of the four points of division, and also at the upper point of

the depth, extending each measurement to the average thickness in that part of the ceiling which is between the points of measurement. Number these breadths from above (i.e., numbering the upper breadth 1, and so on down to the fifth breadth); multiply the second and fourth by 4, and the third by 2; add these products together, and to the sum add the first breadth and the fifth. Multiply the quantity thus obtained by one-third of the common interval between the breadths, and the product shall be deemed the transverse area of the upper part of the section; then find the area between the fifth and lower point of the depth by dividing the depth between such points into four equal parts, and measure the horizontal breadths at the three points of division and also at the upper and lower points, and proceed as before, and the sum of two parts shall be deemed to be the transverse area; but if the midship depth exceed 16 feet, divide each depth into seven equal parts instead of five, and measure, as before directed, the horizontal breadths at the six points of division, and also at the upper point of the depth; number them from above, as before; multiply the second, fourth, and sixth by 4, and the third and fifth by 2; add these products together, and to the sum add the first breadth and the seventh. Multiply the quantity thus obtained by one-third of the common interval between the breadths, and the product shall be deemed to be the transverse area of the upper part of the section; then find the lower part of the area as before directed, and add the two parts together, and the sum shall be deemed to be the transverse area.

29. This section applies to vessels with double bottoms, the tops of which have a rise from the middle line to each side. In vessels in which the top of the double bottom is horizontal, or in which there is no double bottom, the depths are to be divided by 4 or 6 (instead of 5 or 7), according to their midship depths do not or do exceed 16 feet respectively. In such cases no subdivision of the lower part is to be made.

30. In the case of ships built on the Isherwood system the depths are to be taken to the upper edge of the longitudinal frames, where no double bottom exists. In vessels built of concrete the depths and breadths shall be taken to the inner edge of the main frames. It is to be noted that section 2, paragraph 29, provides that in vessels without double bot-

toms no subdivision of the lower part of the transverse area is to be made. On ships built with transverse frames without double bottoms the depths are to be taken to the top of the transverse frames, and no subdivision of the lower section is necessary.

31. SEC. 3. Number the transverse sections or areas respectively 1, 2, 3, etc., No. 1 being at the extreme limit of the length at the bow, or of each part of the length, and the last number at the extreme limit of the length at the stern or the extreme limit at the after end of each part of the length; then, whether the length be divided according to the table into 4 or 12 parts, as in classes 1 and 5, or any intermediate number, as in classes 2, 3, and 4, multiply the second and every even-numbered area by 4, and the third and every odd-numbered area (except the first and last) by 2; add these products together, and to the sum add the first and last, if they yield anything; multiply the quantity thus obtained by one-third of the common interval between the areas, and the product will be the cubical contents of the space, or cubical contents of each part if the ship is measured in parts under the tonnage deck. The tonnage of this volume is obtained by dividing it by 100, if the measurements are taken in English feet, and by 2.83 if the measurements are taken in meters. The multiplier 0.353 may be used instead of the divisor 2.83.

32. SEC. 4. If the ship has a third deck the tonnage of the space between it and the tonnage deck shall be ascertained as follows: Measure in feet the inside length of the space at the middle of its height from the plank at the side of the stem to the lining on the timbers at the stern, and divide the length into the same number of equal parts into which the length of the tonnage deck is divided, as above directed; measure (also at the middle of its height) the inside breadth of the space at each of the points of division, also the breadth at the stem and the breadth at the stern; number them successively 1, 2, 3, etc., commencing at the stem; multiply the second and all the other even-numbered breadths by 4, and the third and all the other odd-numbered breadths (except the first and last) by 2; to the sum of these products add the first and last breadths; multiply the whole sum by one-third of the common interval between the breadths, and the result will give in superficial feet the mean horizontal area

of the space; measure the mean height of the space, and multiply by it the mean horizontal area, and the product will be the cubical contents of the space; divide this product by 100 (or by 2.83 if the measurements are taken in meters) and the quotient shall be deemed to be the tonnage of the space, and shall be added to the tonnage of the ship ascertained as aforesaid; and if the ship has more than three decks, the tonnage of each space between decks above the tonnage deck shall be severally ascertained in the manner above described, and shall be added to the tonnage of the ship ascertained as aforesaid.

33. SEC. 5. If there be a break, a poop, or any other permanently covered or closed-in space on or above the upper deck (as defined above in article III) the tonnage of such space shall be ascertained as follows: Measure the internal mean length of the space in feet, and divide it into two equal parts; measure at the middle of its height three inside breadths, namely, one at each end and the other at the middle of the length; then to the sum of the end breadths add four times the middle breadth, and multiply the whole sum by one-third of the common interval between the breadths; the product will give the mean horizontal area of the space; then measure the mean height and multiply by it the mean horizontal area; divide the product by 100 (or by 2.83 if the measurements are taken in meters) and the quotient shall be deemed to be the tonnage of the space.

34. SEC. 6. In measuring the length, breadth, and height of the general volume of the ship or that of the other spaces, reduce to the mean thickness the parts of the ceiling which exceed the mean thickness. When the ceiling is absent, or when it is not permanently fixed, the length and breadth shall be reckoned from the main frames of the ship, not from the web or belt frames. The same principle is to hold in the case of deck erections; that is, the breadth is to be reckoned from the main framing or stiffeners of the same, when ceiling is not fitted. When the main framing of the ship is curved or carried upward and inboard so as to permit the building of topside tanks or compartments outboard of the main framing, the breadth of the ship shall be reckoned from the outboard framing of such outboard tanks, thus including these tanks in the measurement.

**Rule II. For Measuring the Gross Tonnage of Laden Ships**

35. SEC. 7. When ships have cargo on board, or when for any other reason their tonnage cannot be ascertained by means of rule I, proceed in the following manner:

36. Measure the length on the uppermost full-length deck from the outside of the outer plank at the stem to the aft side of the sternpost, deducting therefrom the distance between the aft side of the sternpost and the rabbet of the sternpost at the point where the counter-plank crosses it. Measure also the greatest breadth of the ship to the outside of the outer planking or wales at the middle perpendicular. Then, having first marked on the outside of the ship on both sides thereof the height of the uppermost full-length deck at the ship's sides, girt the ship at the middle perpendicular in a direction perpendicular to the keel from the height so marked on the outside of the ship, on the one side, to the height so marked on the other side, by passing a chain under the keel; to half the girth thus taken add half the main breadth; square the sum, multiply the result by the length of the ship taken as aforesaid, then multiply this product by the factor 0.17 in the case of ships built of wood, and by the factor 0.18 in the case of ships built of iron or steel. The product will give approximately the cubical contents of the ship, and the tonnage can be ascertained by dividing by 100 or by 2.83, according as the measurements are taken in English feet or in meters.

37. SEC. 8. If there be a break, a poop, or other permanently covered and closed-in spaces (as defined above in article III) on or above the uppermost full-length deck, the tonnage of such spaces shall be ascertained by multiplying together the mean inside length, breadth, and depth of such spaces and dividing the product by 100, or 2.83, according as the measurements are taken in English feet or meters, and the quotient so obtained shall be deemed to be the tonnage of the spaces, and shall be added to the other tonnage in order to determine the gross tonnage or total capacity of the ship.

**Rule III. For Measurement of Open Vessels**

38. SEC. 9. In ascertaining the tonnage of open ships, the upper edge of the upper strake of the shell plating is to form the boundary line of measurement, and the

depths shall be taken from an athwart-ship line, extended from upper edge to upper edge of the said strake at each division of the length.

**DEDUCTIONS FROM THE GROSS TONNAGE TO ASCERTAIN THE NET TONNAGE**

**(A) Deductions Allowed for All Vessels**

39. ART. X. The following spaces (enumerated below in secs. 1 to 11 of this article) shall be deducted from the gross tonnage in order to ascertain the net tonnage of vessels not propelled by engines, and no other spaces shall be deducted. These deductions will also be allowed for vessels propelled by engines, with additional deductions for vessels propelled by engines, listed under (B) article XII. Unless otherwise expressly stipulated, these spaces shall be deducted whether located above or below the upper deck.

40. The volume or cubical contents of deducted spaces shall be ascertained in the manner specified in article VIII or article IX of these rules. The remainder, resulting from deducting from the total space included in gross tonnage the sum of the cubical contents of the spaces whose deduction from gross tonnage is permitted by these rules, shall be the Panama Canal net tonnage of vessels upon which tolls and other charges based upon net tonnage shall be paid by vessels of commerce, Army and Navy transports, colliers, supply ships, and hospital ships (as defined in art. I) for passage through the Panama Canal. One hundred cubic feet, or 2.83 cubic meters, shall constitute 1 gross or net ton.

41. Spaces for the use, or possible use, of passengers (as defined in art. VI) shall not be deducted from the gross tonnage, except in so far as their deduction may be specifically provided for in the following sections (1 to 11) of this article of these rules.

**Definition of Stores and Cargo Carried on Army and Navy Transports, Colliers, Supply Ships, and Hospital Ships**

42. Spaces available for the stowage of stores (other than boatswain's stores) or cargo shall not be deducted from gross tonnage. In case of Army and Navy transports, colliers, supply ships, and hospital ships, as defined in article I, the term "stores (other than boatswain's stores) or cargo" shall include, in addition to goods or cargo ordinarily carried as freight on vessels of commerce, the following articles:

(a) On transports, food, stores, luggage, accouterments, and equipment for passengers.

(b) On colliers, coal, coaling gear, and fuel oil not for the use of the colliers.

(c) On supply ships, stores, supplies of all kinds, distilling machinery and distilled water (other than fresh water stored in peak tanks for the vessel's own use), machines, tools and material for repair work, mines and mining material, torpedoes, arms, and ammunition.

(d) On hospital ships, food stores for passengers, medical stores, and hospital equipment.

(e) Guns mounted on transports and supply ships, for defense of the ships, and ammunition required for use in such guns shall not be classed as cargo.

*Deductions From Gross Tonnage Allowed Vessels in Determining Net Tonnage*

43. SECTION 1. The tonnage of the spaces or compartments occupied by, or appropriated to the use of, the officers and crew of the vessel shall be deducted. The term "officers and crew" shall include the personnel inscribed on the ship's rolls, i.e., the ship's officers, engineers, doctors, apothecary, sick attendants, sailors, apprentices, firemen, mechanics, and wireless operators including clerks, pursers, stewards and other members of the personnel provided by the ship for the care of the passengers as well as armed guards on vessels of commerce. The spaces or compartments occupied by the officers and crew shall include their berthing accommodations, spaces provided for medical attention, including the medicine locker and dispensary, mess rooms, ward and dressing rooms, bath and washrooms, water closets, latrines, lavatories, or privies for their exclusive use, and passageways designed primarily for serving these spaces. Room provided for a pilot and so designated, shall be deducted, but spare rooms and linen lockers are not to be deducted.

44. SEC. 2. On hospital ships the spaces or compartments occupied by doctors, apothecary, and sick attendants duly inscribed on the ship's rolls, shall form part of the deduction under section 1 of this article. Spaces provided for the medical attention of the officers and crew of a hospital ship shall likewise be deducted; but spaces fitted for the transportation, or for the medical attention, of other persons than those duly listed in the ship's rolls shall not be deducted.

45. SEC. 3. The spaces appropriated to the use of the master shall be deducted.

46. SEC. 4. Cook houses, galleys, bakeries, laundries, and rooms for ice machines, when used exclusively to serve the officers and crew, and the condenser space, and distilling rooms, when used exclusively for condensing and distilling the water for the officers and crew, shall be deducted.

47. SEC. 5. Spaces used for anchor gear, including the chain locker; steering gear; capstan; the wheel house; the dynamo; the chart room used exclusively for keeping charts, signals, and other instruments of navigation; offices for the master, chief officer, and chief engineer; lookout houses; spaces for keeping electric searchlights, radio appliances, and wireless telephone apparatus; carpenter shop; fumigating and fire-fighting machinery; and other spaces actually used in the navigation of the ship, shall be deducted. Such spaces upon vessels of commerce as may be devoted to the mounting of guns and to the stowage of ammunition for the guns thus mounted shall be deducted. The deduction of all spaces, enumerated in this section, must be reasonable in extent and be subject to the limitations stipulated below in Article XI.

48. SEC. 6. In case of a ship propelled wholly by sails, any space, not exceeding 2½ percent of the gross tonnage, used exclusively for storage of sails shall be deducted.

49. SEC. 7. Spaces used exclusively for boatswain's stores, including paint and lamp rooms, shall be deducted. The deduction is not, however, to exceed 1 percent of the gross tonnage in ships of 1,000 tons gross and upwards, nor more than 75 tons in any ship however large. In vessels from 500 to 1,000 tons gross the limit is fixed at 10 tons and in vessels from 150 to 500 tons at not more than 2 percent of the gross tonnage. In vessels under 150 tons at not more than 3 tons.

50. Spaces used exclusively for engineer's shops shall be deducted. This deduction is in no case to exceed 5 percent of the actual propelling machinery space nor be more than 50 tons for any vessel.

51. SEC. 8. The space occupied by donkey engine and boiler shall be deducted even though not connected with the main pumps of the ship. The space occupied by the pumps used exclusively for handling feed water, ballast, bunker fuel, or for freeing the ship of water shall also be deducted, but the space occupied

by the pumps used for handling cargo shall not be deducted.

52. SEC. 9. Passages and passageways designed primarily for serving deducted spaces shall be deducted.

53. SEC. 10. Water ballast spaces, other than spaces in the vessel's double bottom, shall be deducted if they are adapted only for water ballast, have for entrance only ordinary circular or oval manholes whose greatest diameter does not exceed 30 inches, and are not available for the carriage of cargo, stores, or fuel. Peak tanks shall also be deducted when adapted only for carrying fresh water for the vessel's own use, can be entered only as above stated, and are not available for the carriage of cargo or fuel. If used to carry oil or other fuel these spaces shall be regarded as part of the vessel's fuel space and shall not be subject to separate deduction.

Tonnage of tanks may be obtained by using liquid capacity times the conversion factor with one-sixth off for frames in case of peak tanks and one-twelfth off in case of wings or deep tanks when they cannot be readily measured.

54. SEC. 11. Spaces appropriated to the use of the passengers solely as public rooms shall be deducted. These shall include such spaces as social halls, smoking rooms, music rooms, libraries, lounges, dining saloons, gymnasiums, children's play rooms, elevators, foyers, promenades, veranda cafes, bar rooms, barber shops, novelty shops, and passageways designed primarily for serving such spaces. Water closets, toilets, lavatories and wash rooms designed primarily to serve public spaces will be considered as part of the public spaces and be deducted accordingly. Water closets, toilets, lavatories, baths and wash rooms designed primarily to serve nearby staterooms in the same tier will be considered as part of the staterooms they serve and not subject to deduction.

*The Marking and Use of Deducted Spaces Shall Be According to National Laws*

55. ART. XI. Each of the spaces enumerated in article X, SECTIONS 1 to 11, unless otherwise specifically stated, shall be subject to such conditions and requirements as to marking or designation and use or purpose as are contained in the navigation or registry laws of the several countries, but no space, other than fuel spaces deducted under article XIII of these rules, shall be deducted un-

less the use to which it is to be exclusively devoted has been appropriately designated by official marking. In no case, however, shall an arbitrary maximum limit be fixed to the aggregate deduction made under article X.

*(B) Additional Deductions Allowed for Vessels Propelled by Engines*

56. ART. XII. The Panama Canal net tonnage upon which tolls and other charges based upon tonnage shall be paid by vessels of commerce, Army and Navy transports, colliers, supply ships, and hospital ships, as defined in article I, propelled by engines, for passage through the Panama Canal, shall be the tonnage remaining after the following deductions have been made from the gross tonnage. One hundred cubic feet, or 2.83 cubic meters, shall constitute 1 gross or net ton. Vessels propelled partly by sails and partly by engines shall be classed as "vessels propelled by engines."

*Additional Deductions From Gross Tonnage Allowed Vessels Propelled by Engines*

57. SECTION 1. The spaces specified above in article X shall be deducted from the space included in gross tonnage to ascertain net tonnage in the case of vessels propelled by engines as in the case of vessels not propelled by engines.

58. SEC. 2. The space occupied by the engines, boilers, coal bunkers, fuel oil tanks, including settling tanks, lubricating oil tanks, and shaft trunks of vessels with screw propellers; spaces within a closed-in side-to-side erection that are framed in around the funnels or that are required for the introduction of light and air to the engine room to the extent that the framed-in spaces around the funnels and the light and air casings are located below the deck or covering of the first or lowest tier of such erections, if any, on the upper deck, as defined in article III, and are contained in closed-in side-to-side erections; spaces necessary for the proper working of the engines, and spaces occupied by the donkey engine and boiler when situated within the boundary of the engine room or within the light and air casing above the engine room and when used in connection with the main machinery for propelling the vessel, shall be deducted. When the

shafts of screw propellers pass through open spaces not inclosed within tunnels, the spaces allowed in lieu of the tunnels must be of reasonable dimensions suitable for the vessel in question. When any portion of the engine or boiler rooms is occupied by a tank for fresh water, the space thus taken up shall not be deducted.

59. Donkey-engine and boiler spaces, when deducted according to article XIV below, shall not be made a separate deduction.

60. The portion of the framed-in spaces around the funnels and of the light and air casings that extend above the deck or covering of the first or lowest tier of side-to-side erections, if any, on the upper deck, as defined in article IV, section 3, and surrounding the said space or spaces are exempted from measurement and form no part of the space deducted under this section.

61. SEC. 3. The deductions made for propelling power, including all those provided for in section 2 of this article, shall in no case exceed 50 percent of the gross tonnage. In other respects the spaces enumerated in section 2 shall, except as otherwise specifically stated, be subject to the requirements as to designation or marking and use or purpose contained in the navigation or registry laws of the several countries.

62. SEC. 4. The deductions made for propelling power provided for in section 2 of this article shall be made according to the provisions of article XIII or of article XIV, as the owner of the vessel may elect.

63. SEC. 5. This section was eliminated by recommendation of Special Committee on Panama Canal Tolls and Vessel Measurement Rules, 1936.

*Propelling Power Deduction for Vessels With Bunkers Having Movable Partitions, or Having Fuel-Oil Compartments That May Be Used To Stow Cargo or Stores*

64. ART. XIII. In ships that do not have fixed bunkers, but transverse bunkers with movable partitions, with or without lateral bunkers, and in ships with fuel tanks which may be used to stow cargo or stores, measure the space occupied by the engine rooms, and add to

it for vessels with screw propellers 75 percent and for vessels with paddle wheels 50 percent of such space.

65. By the space occupied by the engine rooms is to be understood that occupied by the engine room itself and the boiler room, together with the spaces strictly required for the working of the engines and boilers, with the addition of the spaces taken up by the shaft trunks in vessels with screw propellers, the spaces which enclose the funnels and the casings necessary for the admission of light and air into the engine room to the extent that such spaces are located below the upper deck (as defined in article III) or below a deck with openings, usually designated as tonnage openings, which may be so closed as to permit the carriage of cargo or stores under the deck or a portion thereof, and donkey-engine and boiler spaces when the donkey engine and boiler are situated within the boundary of the main engine room, or of the light and air casing above it and when they are used in connection with the main machinery for propelling the vessel. When the shafts of screw propellers pass through open spaces not enclosed within tunnels, the spaces allowed in lieu of tunnels must be of reasonable dimensions suitable for the vessel in question. When a portion of the space within the boundary of the engine or boiler rooms is occupied by a tank or tanks for the storage of fuel oil, lubricating oil, or fresh water, the space considered to be within the engine room shall be reduced by the space taken up by the tank or tanks for fuel oil, lubricating oil, or fresh water. Note that fuel-oil settling tanks are not to be included in the propelling-power space, no matter where situated. Storerooms, dynamos, ice machine, etc., situated in the confines of the engine room and not bulkheaded off, may be included in engine-room space. If bulkheaded off, they shall not be included in engine-room space but be given separate deductions when they qualify under article X and then listed under item 5 on page 2 of the Panama Canal Certificate.

66. The cubical contents of the above-named spaces occupied by the engine room shall be ascertained in the following manner: Measure the mean

depth of the space occupied by the engines and boilers from its crown to the ceiling at the limber strake; measure also three, or, if necessary, more than three, breadths of the space at the middle of its depth, taking one of such measurements at each end and another at the middle of the length; take the mean of such breadths; measure also the mean length of the space between the foremost and aftermost bulkheads or limits of its length, excluding such parts, if any, as are not actually occupied by, or required for, the proper working of the engines and boilers. Multiply together these three dimensions of length, breadth, and depth, and the product will be the cubical contents of the space below the crown. Then, by multiplying together the length, breadth, and depth, find the cubical contents of the space or spaces, if any, which are framed in for machinery, for enclosing the funnels, or for the admission of light and air, and which are located between the crown of the engine room and the uppermost deck or covering of the first or lowest tier of side-to-side erections, if any, on the upper deck, as defined in article III. Add such contents, as well as those of the space occupied by the shaft trunk and by any donkey engine and boiler located within the boundary of the engine room or of the light and air casing above the engine room and used in connection with the main machinery for propelling the ship, to the cubical contents of the space below the crown of the engine room; divide the sum by 100 or by 2.83, according as the measurements are taken in feet or meters, and the result shall be deemed to be the tonnage of the engine and boiler room and shall be the tonnage taken as the basis for calculating the deduction for propelling power.

67. If in any ship in which the space for propelling power is to be measured the engines and boilers are in separate compartments, the contents of each compartment shall be measured separately in like manner, according to the above method; and the sum of the tonnage of the spaces included in the several compartments shall be deemed to be the tonnage of the engine and boiler rooms, and shall be the tonnage taken as the basis for calculating the deduction for propelling power.

*Propelling Power Deduction for Vessels with Fixed Bunkers, or having Fuel-Oil Compartments that cannot be used to Stow Cargo or Stores*

68. ART. XIV. When vessels are fitted with fixed coal bunkers or with fuel-oil tanks which cannot be used to stow cargo or stores, and when such bunkers, tanks, and fuel compartments have been certified by official marking to be spaces for the vessel's fuel, the deduction for propelling power may either be in accordance with the provisions of article XIII above, or by deducting the actual tonnage of the spaces enumerated in article XII, section 2, as measured in accordance with the following provisions, as the owner of the vessel may elect: Measure the mean length of the engine and boiler room, including the coal bunkers. Ascertain the area of three transverse sections of the ship (as set forth in the rules given in articles VIII or IX for the calculation of the gross tonnage) to the deck which covers the engine. One of these three sections must pass through the middle of the aforesaid length, and the two others through the two extremities. Add to the sum of the two extreme sections four times the middle one, and multiply the sum thus obtained by the third of the distance between the sections. This product, divided by 100 if the measurements are taken in English feet, or by 2.83 if they are taken in meters, gives the tonnage of the space measured. If the engines, boilers, and bunkers are in separate compartments, measure each compartment, as above set forth, and add together the results of the several measurements. The bunkers measured for fuel deduction shall include only those bunkers that are absolutely permanent, from which the coal can be trimmed directly into the engine room or stoke-hole, and into which access can be obtained only through the ordinary coal chutes on deck and from doors opening into the engine room or stokehole. Thwartship bunkers that can be in any way extended are not to be included in the measurements for deductions. When any portion of the engine or boiler rooms is occupied by storage tanks for fresh water, the space considered to be within the engine and boiler rooms shall be reduced by the spaces taken up by the tanks for fresh water.

69. The contents of the shaft trunk shall be measured by ascertaining, and multiplying together, the mean length, breadth, and height. The product divided by 100, or 2.83, according as the measurements are taken in English feet or in meters, gives the tonnage of such space. When the shafts of screw propellers pass through open spaces not enclosed within tunnels, the spaces allowed in lieu of tunnels must be of reasonable dimensions suitable for the vessel in question.

70. The tonnage of the following spaces below the deck or covering of the first or lowest tier of side-to-side erections, if any, on the upper deck, as defined by article III, is ascertained by the same method, viz:

(a) The spaces framed in around the funnels.

(b) The spaces required for the admission of light and air into the engine room.

(c) The spaces, if any, necessary for the proper working of the engines.

(d) Spaces occupied by the donkey engine and boiler when used in connection with the main machinery for propelling the ship and when situated within the boundary of the engine room or of the casing above the engine room.

(e) Tanks (other than double-bottom compartments) fitted for the stowage of fuel oil and lubricating oil not already included by measurement under the provisions of paragraph 68.

*No Space May Be Deducted Unless Included in Gross Tonnage*

71. ART. XV. Under no circumstances shall any space which has not been included in the gross tonnage be deducted from gross tonnage.

*Deducted Spaces, If Used, Must Be Added to Net Tonnage*

72. The use of the whole or any portion of a deducted space, other than fuel spaces deducted under ARTICLE XIII, to stow cargo of any kind or stores other than boatswain's stores, or to provide passenger accommodations, shall be evidence that the entire space thus wholly or partially occupied is a part of the actual earning capacity of the ship, and the entire space shall be added to, and become a part of, the net tonnage upon

which Panama Canal tolls shall be collected.

*Officials Authorized To Measure Vessels and Issue Certificates*

73. ART. XVI. Only such officials as are authorized in the several foreign countries and in the United States to measure vessels and to issue tonnage certificates for purposes of national registry, and such other officials as are authorized by the President of the United States, or by those acting for him, to measure vessels and to issue Panama Canal tonnage certificates, shall have authority to measure vessels for Panama navigation or to issue Panama tonnage certificates.

*Tonnage Certificates Issued Under These Rules May Be Corrected by Officials at the Panama Canal*

74. ART. XVII. Tonnage certificates presented at the Panama Canal shall be subject to correction by the official or officials authorized by the President of the United States, or by those acting for him, to administer these measurement rules, insofar as may be necessary to make the certificates conform to these rules.

*Panama Canal Tonnage Certificates*

75. ART. XVIII. The Panama Canal tonnage certificates issued by the measurement authorities of the United States and the several foreign countries shall correspond in substance and form to the sample certificate appended to these rules. Blank certificates in English will be furnished by the Secretary of War or the Governor of the Panama Canal upon request of the measurement authorities of foreign countries. The measurement authorities of any foreign country may also provide themselves with Panama Canal measurement certificates printed in English or in the language of the foreign country, provided such certificates strictly correspond in substance and form to the sample certificate appended to these rules; and provided further, that if it is desired to have a certificate in the language of the foreign country, there must also be a corresponding certificate issued to the vessel in English.

**RULES APPLYING TO VESSELS OF WAR, OTHER THAN ARMY AND NAVY TRANSPORTS, COLLIERIES, SUPPLY SHIPS, AND HOSPITAL SHIPS**

***Tolls Upon Warships Shall Be Levied Upon Actual Displacement Upon Arrival at Canal***

76. ART. XIX. The toll on warships, other than Army and Navy transports, colliers, supply ships, and hospital ships, shall be based upon their tonnage of actual displacement at the time of their application for passage through the Canal. The displacement tonnage of such warships shall be their displacement before the vessels have taken on such coal, fuel oil, stores, or supplies as may be purchased and taken on board after arrival at the Canal for transit through the same.

***"Warships" Defined***

77. ART. XX. "Warships" in the meaning of articles XIX to XXIV shall be considered to be all vessels of war, other than Army and Navy transports, colliers, hospital ships, and supply ships, as defined in article I. Warships are vessels of Government ownership that are being employed by their owners for military or naval purposes.

78. ART. XXI. Every warship, other than Army and Navy transports, colliers, supply ships, and hospital ships (as defined in art. I) upon applying for passage through the Panama Canal shall, in order to facilitate the ascertainment of its mean draft, be anchored or placed at such station or location as shall be designated by the Governor of the Panama Canal or by the officials authorized to act for him.

***Commander of Each Warship To Exhibit Vessel's Displacement Scale and Curves***

79. ART. XXII. The commander of every warship, other than Army and Navy transports, colliers, supply ships, and hospital ships (as defined in art. I), applying for passage through the Panama Canal, shall exhibit for examination by the Governor of the Panama Canal, or by the officials authorized to act for the Governor of the Panama Canal, an official document containing the vessel's curve of displacement, its curves for addition to displacement for change of trim, and a scale so arranged that the displacement at any given mean draft is shown. Such document or docu-

ments shall be issued and be certified as correct by competent authorities of the government to which the vessel belongs.

***Actual Displacement To Be Determined, and To Be Expressed in Tons of 2,240 Pounds***

80. ART. XXIII. The actual displacement of warships shall be determined from their official displacement scale and curves, and shall be expressed in tons of 2,240 pounds. Should the displacement scale and curves of a warship show or state the vessel's displacement tonnage in metric tons of 2,204.62 pounds, the tonnage so expressed shall be multiplied by 0.9842 for the purpose of converting the tonnage into tons of 2,240 pounds.

***Rule for Determining Displacement of a Warship Not Supplied With Displacement Scale and Curves***

81. ART. XXIV. Should any warship, other than Army and Navy transports, colliers, supply ships, and hospital ships (as defined in art. I), apply for passage through the Panama Canal and, for reasons satisfactory to the Governor of the Panama Canal, not have on board the duly certified document or documents specified in article XXII, the Governor of the Panama Canal, or the officials authorized to act for him, shall then determine the displacement of the vessel, using such reliable data as may be available, or by taking such dimensions of the vessel and using such approximate methods as may be considered necessary and practicable. The displacement tonnage so determined shall be considered to be the displacement of the vessel.

***Application and Interpretation of Rules***

82. ART. XXV. The Board of Admeasurement of the Panama Canal is charged with the application of these rules and, subject to the approval of the Governor, all questions of interpretation arising thereunder shall be decided by the Board. In applying the rules the Board will be governed by the principle that there shall be no change in the present treatment of spaces except as herein provided, and with the approval of the Governor may provide for the treatment of any space for which provision has not herein been made.

**CORRECTING CERTAIN LANGUAGE IN PROCLAMATION No. 2247 OF AUGUST 25, 1937, PRESCRIBING PANAMA CANAL TOLL RATES**

WHEREAS the phrase "when carrying passengers and cargo" contained in paragraph numbered 1 in Proclamation No. 2247 of August 25, 1937, prescribing Panama Canal toll rates was intended to read "when carrying passengers or cargo"; and

WHEREAS it is desired to correct the said phrase so that it shall read as intended:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, acting under and by virtue of the authority vested in me by section 411 of title 2 of the Canal Zone Code, approved June 19, 1934, do hereby amend the aforesaid paragraph numbered 1 of Proclamation No. 2247 of August 25, 1937, to read as follows:

"1. On merchant vessels, yachts, army and navy transports, colliers, hospital ships, and supply ships, when carrying passengers or cargo, ninety (90) cents per net-vessel ton of 100 cubic feet each

of actual earning capacity—that is, the net tonnage determined in accordance with the Rules for the Measurement of Vessels for the Panama Canal."

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States to be affixed.

DONE at the City of Washington this 31th day of August in the year of our Lord nineteen hundred and [SEAL] thirty-seven, and of the Independence of the United States of America the one hundred and sixty-second.

## PROCLAMATION 2250

**ENLARGING THE STATUE OF LIBERTY NATIONAL MONUMENT NEW YORK**

WHEREAS certain government-owned lands known as Fort Wood and situated on Bedloe's Island in the harbor of New York, New York, are contiguous to the

Statue of Liberty National Monument, established by Proclamation of October 15, 1924 (43 Stat. 1968), and are necessary for the proper care, management, and protection of the colossal statue of "Liberty Enlightening the World"; and

WHEREAS it appears that it would be in the public interest to add such lands to the Statue of Liberty National Monument:

the pleasure of the President, so far as the jurisdiction of certain Egyptian tribunals embraced matters cognizable by the minister, consuls, or other functionaries of the United States in Egypt, except as to cases actually commenced before the date of the said proclamation;

WHEREAS at the time of the issuance of the said proclamation the jurisdiction of the said Egyptian tribunals did not extend to certain categories of cases within the jurisdiction of the minister, consuls, or other functionaries of the United States which were accordingly retained within the jurisdiction of, and have continued to the present time to be exercised by, those functionaries;

##### THANKSGIVING DAY—1937

I, FRANKLIN D. ROOSEVELT, President of the United States of America, hereby designate Thursday, the twenty-fifth day of November 1937 as a day of national thanksgiving.

The custom of observing a day of public thanksgiving began in Colonial times and has been given the sanction of national observance through many years. It is in keeping with all of our traditions that we, even as our fathers in olden days, give humble and hearty thanks for the bounty and the goodness of Divine Providence.

The harvests of our fields have been abundant and many men and women have been given the blessing of stable employment.

A period unhappily marked in many parts of the world by strife and threats of war finds our people enjoying the blessing of peace. We have no selfish designs against other nations.

We have been fortunate in devoting our energies and our resources to constructive purposes and useful works. We have sought to fulfill our obligation to use our national heritage by common effort for the common good.

Let us, therefore, on the day appointed forego our usual occupations and, in our accustomed places of worship, each in his own way, humbly acknowledge the mercy of God from whom comes every good and perfect gift.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

##### NATIONAL WILD LIFE WEEK—1938

WHEREAS one of the most important phases of the conservation of our natural resources is the protection and preservation of our wild life; and

WHEREAS this is a work in which virtually our entire citizenship can participate wholeheartedly and enthusiastically, whether resident in the large metropolitan centers, with limited access to the great out-doors, or permitted to enjoy at first hand the wonders of nature; and

WHEREAS the carrying into effect of any program for the conservation of our hereditary wild life—in the past seriously diminished and depleted by destructive exploitation and lack of proper understanding and sympathy—must enlist the support of all of our citizens if the mistakes of the past are to be avoided in the future in dealing with this important resource of incalculable social, economic, esthetic, and recreational value:

NOW, THEREFORE, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do hereby proclaim and designate the week beginning March 20, 1938, as National Wild Life Week and do earnestly appeal to all of our citizens first to recognize the importance of the problem of conservation of these assets in wild life, and then to work with one accord for their proper protection and preservation. To this end

I call upon all citizens in every community to give thought during this period to the needs of the denizens of field, forest, and water and intelligent consideration of the best means for translating good intentions into practical action in behalf of these invaluable but inarticulate friends. Only through the full cooperation of all can wild life be restored for the present generation and perpetuated for posterity.

By virtue of and pursuant to the authority vested in me by section 7 of the act of March 14, 1936, entitled "An Act to provide for vacations to Government employees and for other purposes" (Public No. 471, 74th Congress), I hereby prescribe the following regulations governing the granting of annual leave to civilian officers and employees of the United States, the District of Columbia, and all corporations included within the provisions of section 6 of the said act, except as provided in Part III hereof:

## PART I—DEFINITIONS

SEC. 1. As used in these regulations:

(a) "Employee" and "employees" include officer and officers, respectively.

(b) "Accumulated leave" means the unused annual leave not exceeding 60 days which has accrued during years prior to the current year.

(c) "Current annual leave" means the leave authorized by statute for the current year.

(d) "Current accrued leave" means that part of the current annual leave which bears the same ratio to the current annual leave that the expired part of the current year bears to the full year.

(e) "Unaccrued leave" means that part of the current annual leave which bears the same ratio to the current annual leave as the unexpired part of the current year bears to the full year.

## PART II—GENERAL PROVISIONS

SEC. 2. Permanent employees who have been employed continuously for one year or more and who do not contemplate leaving the service during the current calendar year shall be entitled to annual leave with pay at any time during such calendar year not in excess of 26 days, and in addition may be granted accumulated leave, provided that the total leave granted at any time during a calendar year shall not exceed the amount of the accumulated leave and the current accrued leave, except that in unusually meritorious cases employees may be granted both accumulated and current annual leave.

SEC. 3. Unaccrued leave shall be granted only with the express understanding that if such leave is not later earned during the calendar year, deductions will be made for the unearned portion from any salary due the employee, or any deductions in the retirement fund to the credit of the employee.

SEC. 4. Employees entering the service by original appointment or by reinstatement shall be entitled to annual leave with pay accruing at the rate of  $2\frac{1}{2}$  days for each month of service rendered until the completion of one year's service. Emergency employees and employees appointed for an indefinite period shall be entitled to annual leave with pay accruing at the rate of  $2\frac{1}{2}$  days per month for each month of service, and may in addition thereto be granted accumulated leave. Employees appointed for an indefinite period shall include those in the

field service employed at manufacturing and repair establishments, such as navy yards, gun factories, naval stations, arsenals, etc.

SEC. 5. Employees transferred or reappointed without break in service from one permanent position to another permanent position within the same or a different governmental agency shall at the time of the transfer be credited with accumulated leave and charged with unaccrued leave advanced.

SEC. 6. An employee voluntarily separated from the service without prejudice during any calendar year shall be entitled to all accumulated leave plus current accrued leave up to the date of separation.

SEC. 7. The date of a discharge of an employee who is involuntarily separated from the service other than for cause due to his own misconduct shall be fixed to permit the allowance of all accumulated leave and current accrued leave.

SEC. 8. Leave shall be granted at such time or times as may be deemed to be in the public interest.

SEC. 9. Annual leave shall not accrue during a period of leave without pay when such absence is continuous for 30 days or more in any calendar year.

SEC. 10. Leave without pay shall not be granted until all accumulated leave and current accrued leave allowable under these regulations is exhausted.

SEC. 11. Employees shall be charged with annual leave only for absence on their work days, Sundays, legal holidays, and holidays declared by executive order and non-work days established by administrative order in accordance with law occurring within a period of annual leave shall not be charged as annual leave. Persons employed on the basis of a 5 day work week, whose duties require service on Saturday or Sunday, shall be charged a full day's annual leave for absence on any Saturday or Sunday they are required to work.

SEC. 12. The minimum charge for annual leave shall be 15 minutes. Annual leave granted for less than one day shall be charged in the ratio that the amount of annual leave granted bears to the number of work hours of the regular work day prevailing in the agency concerned. For the purposes of this section, Saturdays and part holidays shall not be considered regular work days, except as may be required under section 11 hereof.

SEC. 13. Annual leave shall not be granted with pay at the beginning of a calendar year immediately following a period of absence in a non-pay status in the preceding year unless and until there shall have been a return to duty, at which time the leave may be retroactively granted. Leave without pay under any other circumstances may not later be converted into annual leave.

SEC. 14. Temporary employees shall be granted  $2\frac{1}{2}$  days leave for each month of service beginning January 1, 1936. For leave purposes, persons who are appointed for definite periods of time not exceeding 6 months shall be considered temporary employees.

SEC. 15. Temporary employees who subsequently receive permanent or probational appointments in the same department without break in service shall be entitled to annual leave at the rate of  $2\frac{1}{2}$  days per month to the date of permanent appointment and thereafter at the rate of  $2\frac{1}{6}$  days per month. Of temporary employees, only those who subsequently accept permanent appointments without break in service may be credited with accumulated leave earned prior to January 1, 1936.

SEC. 16. Nothing in these regulations shall be construed to prevent the continuance of any leave differential existing prior to January 1, 1936, for the benefit of employees of the Federal Government stationed without the continental limits of the United States.

SEC. 17. The annual leave authorized by these regulations shall, except as to temporary employees, be recorded and administered on a calendar-year basis.

SEC. 18. The heads or governing bodies of the various governmental agencies to which this Executive Order applies shall be responsible for the proper administration of these regulations insofar as they pertain to the granting of annual leave to employees under their respective jurisdiction; and they may, within the limits authorized by law, issue such regulations as are not inconsistent with these regulations.

EXECUTIVE ORDER 7410

PRESCRIBING REGULATIONS RELATING TO  
SICK LEAVE OF GOVERNMENT EMPLOYEES

By virtue of and pursuant to the authority vested in me by section 7 of the act of March 14, 1936, entitled "An Act to standardize sick leave and extend it to all civilian employees" (Public No. 472, 74th Congress), I hereby prescribe the following regulations which shall apply to all civilian officers and employees (hereinafter referred to as "employee" or "employees") of the United States, the District of Columbia and all corporations falling within the provisions of section 6 of the said act except those hereinafter excluded under Part II of these regulations.

PART I—GENERAL PROVISIONS

SEC. 1. Sick leave with pay shall be granted to employees when they are incapacitated for the performance of their duties by sickness, injury, or pregnancy and confinement, or when some member of the immediate family of the employee is afflicted with a contagious disease and requires the care and attendance of the employee, or when, through exposure to contagious disease, the presence of the employee at his post of duty would jeopardize the health of others.

SEC. 2. Except as provided in section 3 hereof employees shall be entitled to sick leave at the rate of  $1\frac{1}{4}$  days a month, and if such leave is not used it shall accumulate: *Provided*, That the total accumulation shall not exceed 90 days. Sick leave accruing during any month of service shall be available at any time during the month.

SEC. 3. In cases of serious disability or ailments, and when the exigencies of the situation so require, sick leave may be advanced not in excess of 30 days in addition to the unused sick leave that has accumulated to the credit of employees: *Provided*, That such advances shall not be made to any employee more than 3 times during any one calendar year; that every case of advanced leave shall be supported by the certificate of a registered practicing physician or other

practitioner; that the total of such advances shall not exceed at any time 30 days beyond the accumulated sick leave; and that such advances shall be charged against sick leave subsequently accumulating.

SEC. 4. When an employee applies for sick leave in excess of the amount accumulated to his credit and the circumstances do not justify such an advance, the excess leave applied for, if granted and used, shall be charged against any unused annual leave to which the employee is entitled, or, if there is no unused annual leave, the excess shall be charged as leave without pay, and such leave shall not thereafter be converted into either sick or annual leave subsequently accumulating.

SEC. 5. Sick leave shall not be advanced in an amount that would exceed the total that would accumulate during the period from the date of the advance to the termination of a limited appointment (not temporary in character) or one expiring on a specified date.

SEC. 6. Advance sick leave may be granted irrespective of whether the employee has to his credit unused annual leave.

SEC. 7. Sick leave shall not be granted for slight illness or indisposition not incapacitating the employee for the performance of his regular duties, or for absence for the purpose of being treated professionally by a dentist or oculist in his office; but sick leave may be granted for detention at home or in a hospital by illness or disability due to causes as to which a dentist or oculist is qualified to certify.

SEC. 8. Employees transferred or reappointed without break in service from one permanent position to another permanent position within the same or a different governmental agency shall be credited with accumulated sick leave and charged with sick leave previously advanced in excess of that accumulated at the time of transfer.

SEC. 9. Sick leave shall not accumulate during a period of leave without pay when such period is continuous for 30 days or more in any calendar year.

SEC. 10. In the case of voluntary separation or removal for cause of an employee to whom sick leave has been advanced in an amount in excess of that accumulated, the employee shall refund the amount paid him for the period of such excess, or deduction therefor shall be made from any salary due him or

from any deductions in the retirement fund to his credit. This provision shall not apply in cases of death, retirement for age or disability, reduction of force, or when an employee who is not eligible for retirement is unable to return to duty because of disability, evidence of which shall be supported by an acceptable certificate from a registered practicing physician or other practitioner.

SEC. 11. Sundays, holidays and non-work days within a period of sick leave shall be charged as sick leave, except when immediately preceding or following a period of sick leave, if the employee was in a pay status immediately prior to or following such Sundays, holidays, or non-work days. For such days as per diem and per hour employees would not be in a pay status, no sick leave shall be charged.

SEC. 12. The minimum charge of absence on account of sickness, except on Saturdays or on other days where 4 hours constitute a full work day, shall be  $\frac{1}{2}$  day; additional fractions authorized on the same day shall be charged in multiples of one hour. On Saturdays, or other days where 4 hours constitute a full work day, 2 hours or less sick leave shall be charged as  $\frac{1}{2}$  day and more than 2 hours shall be charged proportionately.

SEC. 13. Notification of absence on account of sickness shall be given as soon as possible on the first day of absence. If such notification is not made in accordance with this regulation, such absence may be charged to annual leave or leave without pay. Application for sick leave shall be filed within two days after return to duty.

SEC. 14. Application for sick leave for a period in excess of 3 days shall be supported by the certificate of a registered practicing physician or other practitioner, except that in remote localities where such certificate cannot reasonably be obtained, the applicant's signed statement as to the nature of the illness and the reason why a certificate is not furnished, may be accepted. For periods of 3 days or less, up to an accumulation of 12 days in any one calendar year, the applicant's signed statement on a prescribed form may be accepted.

SEC. 15. When sickness continuing for more than 5 days occurs within a period of annual leave, the period of illness may, upon presentation of the certificate of a registered practicing physician or other practitioner, be charged as sick leave and the charge against annual leave granted

reduced accordingly. No such charge shall be made for illness lasting for not more than 5 days. Application for such substitution of sick leave for annual leave shall be made within 2 days after the expiration of the annual-leave period.

SEC. 16. Sick leave may not be granted for a period immediately following a period of absence in a non-pay status, unless and until there has been a return to actual duty, nor may such leave without pay be converted into sick leave.

SEC. 17. Temporary employees shall be entitled to  $1\frac{1}{4}$  days of sick leave for each month of service, but shall not be entitled to an advance of sick leave. Sick leave accumulated during temporary appointment shall be credited to an employee who receives a permanent appointment in the same governmental agency without break in service but shall not be transferable elsewhere under any circumstances. For sick leave purposes, those who are appointed for definite periods of time not exceeding 6 months will be considered temporary employees.

SEC. 18. In the case of an employee who was not entitled to sick leave under prior law, but who is now entitled thereto, sick leave as accumulated may be substituted for leave without pay or annual leave taken because of illness between January 1 and March 14, 1936.

SEC. 19. Sick leave taken in excess of  $1\frac{1}{4}$  days a month during the period between January 1 and March 14, 1936, shall be charged against sick leave subsequently accumulating.

SEC. 20. Nothing in these regulations shall be construed to prevent the continuance of any sick leave differential existing prior to January 1, 1936, for the benefit of employees of the Federal Government stationed without the continental limits of the United States.

SEC. 21. The heads or governing bodies of the various governmental agencies to which this order applies shall be responsible for the proper administration of these regulations insofar as they pertain to the granting of sick leave to employees under their respective jurisdictions; and they may, within the limits authorized by law, issue such regulations as are not inconsistent with these regulations.

#### PART II—EMPLOYEES EXCEPTED

SEC. 22. These regulations shall not apply to:

(a) Teachers and librarians of the public schools of the District of Columbia;

(b) Officers and members of the police and fire departments of the District of Columbia, other than civilian personnel;

(c) Officers and employees of the Panama Canal and Panama Railroad on the Isthmus of Panama;

(d) Temporary employees engaged on construction work at hourly rates;

(e) The Postmaster General and officers and employees in or under the Post Office Department except those serving in the departmental service and in the Mail Equipment Shops;

(f) Persons paid security or prevailing wages from funds allotted by the Works Progress Administration on a state, municipal or other public but non-federal project or on a federal project: *Provided*, that sick leave shall be granted in accordance with these regulations to employees in the central office of the Works Progress Administration in the District of Columbia and at district and local headquarters, and to other employees in administrative or clerical positions who receive other than security or prevailing wages as prescribed in Executive Order No. 7046 of May 20, 1935;

(g) Employees not required to be continuously employed during regular tour of duty, such as: (1) employees who are paid only when actually employed; (2) per diem or per hour employees engaged in an emergency who may be employed for more than one 7- or 8-hour shift within 24 hours during the emergency; (3) part-time or intermittent employees; (4) persons engaged under contract; (5) employees engaged temporarily for less than a month on a piece-price basis; (6) employees who are paid at hourly rates but who are not engaged on construction work, such as mechanics, skilled laborers and others engaged in many services on maintenance, repair, clean-up work, and the like, where employment is more or less intermittent and not on a regular or continuous basis; and (7) employees paid on a fee basis, such as physicians, and surgeons, and other consultants.

## EXECUTIVE ORDER 7438

[Exemption of George S. Rice from compulsory retirement for age.]

## EXECUTIVE ORDER 7439

## AMENDMENT OF ARTICLE XXVIII OF THE CONSULAR REGULATIONS

By virtue of and pursuant to the authority vested in me by section 1752 of the Revised Statutes (U.S.C., title 22, sec. 132), it is ordered that Article XXVIII

of the Consular Regulations be, and it is hereby, amended as follows:

1. The centered title preceding section 595 is changed to "Commercial reporting and reporting for other departments and independent establishments of the Government".

2. Section 595 is amended to read:

"595. *Object and general character.* The main object in view in the preparation of reports should be to supply accurate information for the use of the Government and American business concerns.

"Consular officers should take care that information given in reports is presented accurately and fully, and that facts or figures are not misconstrued in support of their individual theories or opinions. They should not, on the other hand, be mere transmitters of objective data. In addition to setting forth plainly and impartially statistics and positive information, the reporting officer should furnish, in distinct paragraphs, an analytical interpretation of the material presented, and, when appropriate, a full statement of his personal deductions and opinions.

"Data must be obtained, as far as possible, from official sources, and the origin must in all cases be clearly indicated. When quotations are given, they should be carefully designated as such with the proper quotation marks, in order that they may not be confused with individual views or conclusions by the writer. In those portions of reports which are intended for publication, reference to political or controversial matters should be omitted, and particular care should be exercised to avoid unfavorable comments or criticism upon the government, people, or institutions of the country.

"It is a part of a consular officer's duty to transmit promptly to the Department of State commercial and other information of a political or controversial nature whenever it appears that the interests of the United States, or of American commerce, may be served thereby; but such communications should be in the form of separate despatches or special sections of reports conspicuously marked 'Confidential', to indicate that they are intended for the information of the Government alone."

3. Section 597 is amended to read:

"597. *Annual report on commerce and industry.* As soon as possible after the close of each calendar year, every officer in charge of a consular office is required

to submit, in accordance with the procedure established for his office, a report on the development of commerce and industry in his district during the previous year."

4. Section 597(a) is amended to read:

"597A. *Current economic and commercial reports.* In order that the Department may be kept informed throughout the year upon the economic developments that may be of interest to the American business public, concise, timely reports upon the commerce, finance, and industry of each consular district should be prepared as developments occur. These reports will be used for the information of the Department of State and by the Bureau of Foreign and Domestic Commerce of the Department of Commerce in the preparation of its reviews of various countries and geographical units."

5. Section 598 is prescribed as follows:

"598. *Reports on transportation.* Consular officers should submit for the use of the Department of State and other interested departments and establishments of the Government, reports regarding transportation, terminal facilities, and coordination of the various forms of transportation."

6. Section 600 is amended to read:

"600. *Voluntary reports.* Consular officers are expected to report on their own initiative concerning all matters arising in their districts of a kind to be of use to American business concerns or to the various departments and independent establishments of the Government. In respect to many subjects it will not suffice to report accomplished facts, but officers should study the probable course of development in order that it may be pointed out in time to be of use."

7. Section 602 is amended to read:

"602. *Information regarding foreign firms.* There shall be maintained in each consular office a list or file of the principal commercial and industrial firms in the consular district, and this information shall be furnished the Secretary of State as he may direct. Brief special lists of foreign firms interested in specific classes of business (sec. 603C) and World Trade Directory reports on individual firms shall be prepared in accordance with specific directions from the Department."

8. The title of section 603(f) is changed to "Transmission of correspondence".

9. The title of section 603(h) is changed to "Consular officers not to act as agents".

10. The words "as usual" in the seventh line of section 603(j) are deleted.

11. Section 603(k) is amended to read:

"603K. *Arbitration of disputes.* Consular officers are not authorized to act as arbitrators in trade disputes. They may, however, submit with the usual waiver of responsibility the names of individuals considered best suited to act as arbitrators in the event that arbitration seems feasible.

"*Surveys.* Consular officers are sometimes asked to appoint boards of survey to examine and report on the condition of American merchandise imported into foreign countries of which complaint has been made by the importers. A consular officer has no statutory authority in this respect, and the findings of such a board would be without conclusive effect in the United States. Nevertheless, if the local law does not forbid, consular officers should accede to requests of this character, using their best efforts and judgment to find impartial experts competent to perform the work in hand. The findings of the board may be forwarded by the consular officer, through the Department of State, to the exporter in the United States, together with any comments he may consider appropriate. Oaths of the surveyors to their findings are unnecessary, but may be administered when requested by the person calling for the survey, a fee of \$2 (item 33 of the tariff of fees) being charged."

12. The numbers of sections 603(a) to 603(m), inclusive, are changed to 603A, 603B, etc.

##### REGULATIONS GOVERNING THE AUTHENTICATION OF CERTIFIED COPIES OF FOREIGN PUBLIC RECORDS, THE MANNER OF EXECUTING AND RETURNING COMMISSIONS BY CONSULAR AND DIPLOMATIC OFFICERS IN CRIMINAL CASES, AND SCHEDULES OF FEES AND COMPENSATION ALLOWABLE IN SUCH CASES

By virtue of and pursuant to the authority vested in me by the act approved June 20, 1936, entitled "An Act Relating to the admissibility in evidence of certain writings and records made in the regular course of business" (Public No.

734, 74th Cong.), and by section 1752 of the Revised Statutes (U.S.C., title 22, sec. 132), I hereby prescribe the following regulations governing the authentication of certified copies of documents of record or on file in a public office of a foreign country or a political subdivision thereof, the manner in which consular or diplomatic officers shall execute and return commissions issued in criminal cases under the provisions of the said act of June 20, 1936, and schedules of fees and compensation allowable in such cases.

Section 482A of the Consular Regulations is prescribed as follows:

"482A. *Certification of foreign public documents.* Any consular officer of the United States is authorized to authenticate a certified copy of any document of record or on file in a public office of the foreign country in which he resides, or of a political subdivision thereof, by a certificate under the seal of his office certifying that such document has been certified by the lawful custodian of such document. (Sec. 6, act of June 20, 1936.)"

Section 489 of the Consular Regulations is amended to read as follows:

#### "CIVIL CASES

"489. *Commission to take testimony in civil cases.* When a court in the United States appoints a consular officer commissioner to take testimony in a foreign country for the use of that court, the commission usually is accompanied by interrogatories and full instructions which the consular officer must carefully follow. The consular officer acts both in his official consular capacity and as an officer of the court which issues the commission. (22 U.S.C. §§ 98.131.)

"The charges in such cases are official and must be in strict accordance with the Tariff of United States Consular Fees. (22 U.S.C. § 127.) When it is necessary to insure payment of such fees, the consular officer is authorized to retain the papers committed to him in connection with such service until the prescribed fees, for which he is responsible to the Government, have been paid. (22 U.S.C. § 93.)"

Sections 489A to 489T, inclusive, of the Consular Regulations are prescribed as follows:

#### "CRIMINAL CASES

"489A. *Purposes of and compliance with commission.* Any book, paper, statement, record, account, writing, or other document, or any portion thereof, of

whatever character and in whatever form, as well as any copy thereof equally with the original, which is not in the United States (hereinafter referred to as a foreign document) shall, when duly certified as provided in section 489P, be admissible in evidence in any criminal action or proceeding in any court of the United States if the court shall find, from all the testimony taken with respect to such foreign document pursuant to a commission executed as hereinafter provided, that such document (or the original thereof in case such document is a copy) was made in the regular course of any business and that it was the regular course of such business to make such document. The term "business" shall include business, profession, occupation, and calling of every kind. (Secs. 1-2, act of June 20, 1936.)

"For the purpose of determining whether any foreign documents sought to be used in any criminal action or proceeding in any court of the United States are genuine, and whether the requirements above set forth are satisfied with respect to any such document (or the original thereof in case such document is a copy), the court may issue a commission to take the testimony of any witness in a foreign country either on oral or written interrogatories, or on interrogatories partly oral and partly written. (Sec. 3(a), act of June 20, 1936.)

"When the court shall issue a commission addressed to a consular officer (hereinafter referred to as the commissioner) for the purposes aforesaid, the commissioner shall thoroughly acquaint himself with the powers vested in him by virtue of the commission and with the instructions contained therein, and, in executing and returning such commission shall be governed by such instructions and by these regulations. Specific instructions contained in such a commission as to the manner of executing and returning that commission shall be followed although they are not in accord with the general directions contained in these regulations. (Sec. 4, act of June 20, 1936.)

"489B. *Disqualification of commissioner.* Any commissioner who is interested in the outcome of the action or proceeding in connection with which the commission issued, or who has participated in the prosecution of such action or proceeding, whether by investigations, preparation of evidence, or otherwise, or who directly or indirectly bears to any

party to such action or proceeding such a relation by blood or otherwise as would warrant a presumption of bias or prejudice in favor of or against such party, may be disqualified from executing the commission upon his own motion. Upon receipt of a commission, the commissioner shall forthwith determine whether he has reason to believe that he is subject to disqualification for any of the reasons above stated. If he so determines, he shall forthwith communicate his motion to disqualify himself, together with the grounds upon which he bases such motion, directly to the clerk of the court from which the commission issued. Upon receipt of notice from the clerk that his motion has been allowed, he shall forthwith forward the commission under seal to the consular officer named in the commission, or in the notice, as alternate commissioner. Upon receipt of notice that his motion has been disallowed, he shall proceed to execute and return the commission as if his motion had not been made. (Sec. 3(b), act of June 20, 1936.)

"489C. *Selection of attorneys.* Any party to the action or proceeding who has selected an attorney to represent him at the execution of a commission may communicate such selection, or may communicate a list of attorneys with his order of preference stated, to the commissioner, and the commissioner shall attempt, on behalf of such party, to obtain the services of such attorney or one of such attorneys, upon such terms as are prescribed by the party. At the request of any party to the action or proceeding, the Department of State shall submit a list of reputable attorneys in the locality where the commission is to be executed, together with a brief statement of their respective qualifications. (Sec. 3(a), act of June 20, 1936.)

"489D. *Request for attendance of witnesses or for records.* The commissioner shall, at the request of any party to the action or proceeding, request witnesses, whose testimony is sought, to appear before him, or request designated persons to supply to him, or to the party making the request, records or other documents (sec. 489A) in their hands, or copies thereof.

"489E. *Examination in presence of commissioner; recess.* The commissioner shall be present throughout the examination of witnesses, but may recess the examination for such times and reasons as he may deem proper.

"489F. *Oath of interpreter or translator.* If the services of an interpreter are needed, the commissioner may act as such, or if he so desires, or if any party or his attorney so requests, he shall employ one qualified to act in that capacity. (Sec. 4, act of June 20, 1936.) The commissioner shall administer to any interpreter so employed an oath substantially in the following form, or in an equivalent form used in the country where the commission is executed:

"You do solemnly swear that you know the English and ----- languages and that you will truly and impartially interpret the oath and interrogatories to be administered to -----, a witness now to be examined, out of the English into the ----- language, and that you will truly and impartially interpret the answers of the said ----- thereto out of the ----- language into the English language. So help you God.

"The commissioner may, when necessary, likewise act as, or employ, a translator and shall administer to a translator so employed an oath in form similar to that prescribed above.

"489G. *Transcription of testimony and oath of stenographer.* The commissioner shall determine from each witness whether such witness wishes to answer interrogatories put to him orally or personally to reduce his answers to writing in English. If the witness elects to answer orally, the commissioner may himself reduce the answers to writing, either by pen and ink, typewriter, or shorthand notes later to be transcribed into typewriting. If he so desires, or if any party or his attorney so requests, the commissioner shall employ a stenographer who shall reduce the answers to writing, either by pen and ink, typewriter, or shorthand notes later to be transcribed into typewriting. (Sec. 4, act of June 20, 1936.) The commissioner shall administer to any stenographer so employed an oath substantially in the following form, or in an equivalent form used in the country where the commission is executed:

"You do solemnly swear that you will truly and impartially reduce to writing (or take and transcribe) the testimony of -----, a witness now to be examined. So help you God.

"489H. *Oath of witness.* The commissioner shall administer to each witness before examination an oath substantially in the following form, or in an equivalent

form used in the country where the commission is executed:

"You do solemnly swear that you will tell the truth, the whole truth, and nothing but the truth, in answer to the several interrogatories and cross-interrogatories now to be put to you. So help you God. (Sec. 4, act of June 20, 1936.)

"489I. *Affirmations.* If any interpreter (or translator), stenographer, or witness objects to being sworn, the commissioner shall substitute for the oath an affirmation substantially in the following form, or in an equivalent form used in the country where the commission is executed:

"You do solemnly, sincerely, and truly declare and affirm, under the pains and penalty for perjury, that \* \* \* (here substitute proper wording from appropriate oath, omitting the words 'so help you God'). (1 U.S.C. § 1.)

"489J. *Examination as to personal knowledge.* The commissioner may at any time during the examination of a witness propound such inquiries as may be necessary to satisfy himself that the witness is, or is not, testifying of his personal knowledge of the subject matter of the examination. The commissioner shall have noted in the transcript of testimony the fact that the witness at a particular time referred to notes, papers, or other documents, and the commissioner's opinion as to whether the witness was using such notes, papers, or other documents to refresh his memory or for the sake of testifying to matters not then of his personal knowledge. The commissioner shall have noted in the transcript of testimony that the witness conferred with counsel before answering any interrogatory, and shall request the witness not to leave his presence during the examination. Failure to comply with the commissioner's request shall be noted in the transcript. (Sec. 4, act of June 20, 1936.)

"489K. *Written interrogatories.* Where the examination is conducted upon written interrogatories, the interrogatories shall not be repeated in the transcript but an appropriate reference to each interrogatory shall be inserted preceding the answer of the witness. The interrogatories shall be put to the witness by the commissioner separately and in order, and the answer to each interrogatory shall be recorded. All of the written interrogatories shall be put to the witness even though, at some point during the

examination, the witness disclaims further knowledge of the subject.

"489L. *Oral interrogatories.* Where the examination is conducted upon oral interrogatories, the direct examination (by the counsel representing the party on whose application the commission issued) shall be first completed, without interruption except in the form of an objection by opposing counsel. Cross-examination by opposing counsel under similar conditions may then be conducted and may be followed by re-direct and re-cross examinations until the examination is completed. The commissioner shall endeavor to restrain colloquies between counsel or attempts on the part of counsel to intimidate or mislead witnesses.

"489M. *Written and oral interrogatories.* When counsel for all of the parties attend the examination of any witness, and the examination of the witness is upon written interrogatories, the commissioner shall, all counsel having consented thereto, permit oral examination of the witness following the close of the examination upon written interrogatories. The oral examination shall be conducted in the same manner and order as if not preceded by an examination upon written interrogatories. (Sec. 4, act of June 20, 1936.)

"489N. *Objections.* When counsel objects to an interrogatory, answer, or other matter for any reason, the commissioner shall have noted in the transcript only the objection and the reasons stated therefor. Colloquies between counsel shall not be included in the transcript. The commissioner shall not pass upon any objection made, but shall request the witness to answer every interrogatory even though an objection is made to it. Refusal of any witness to answer an interrogatory put to him shall be noted in the transcript together with the reason, if any, given by the witness for his refusal.

"489O. *Transcripts.* The transcript shall be prepared in question-and-answer form; never in narrative form. It shall be securely attached to the document or documents to which the testimony contained therein pertains. The transcript shall then be read to or by the witness in the presence of the commissioner, and any corrections which the witness desires to make in his testimony shall be noted in the transcript. The witness shall then be requested to subscribe each page of the transcript and of the

document or documents, and to initial in the margin each correction in the transcript made at his request. (Sec. 4, act of June 20, 1936.)

"489P. *Commissioner's return.* The caption of the commissioner's return shall be in the precise form used in the commission. The return shall state the names of the witnesses examined; the name of the interpreter (or translator), if any was employed; the name of the stenographer, if any was employed; the name or names of counsel present at the examination; that the commissioner was not subject to disqualification under the provisions of section 3(b) of the act of June 20, 1936; that the commissioner has carefully conformed to the instructions in the commission and to these regulations; that, on the basis of all the testimony taken before him, each document pertaining to which testimony was taken is, or is not, in his opinion, genuine (sec. 489A); and such other facts as he may deem necessary to satisfy the court that he has faithfully executed its commission. The return shall be signed by the commissioner and he shall affix thereto the seal of his office. If the commission does not accurately set forth the name or title of the commissioner he shall make a notation to that effect in the return after his signature, and he shall also sign the return according to the designation in the commission. (Sec. 5, act of June 20, 1936.)

"489Q. *Executed commission returned to court.* The transcripts of testimony, documents, and return of the commissioner shall be securely attached to the commission, wrapped, and transmitted by mail to the clerk of the court from which the commission issued in the same manner in which the commissioner prepares and transmits his official despatches to the Government. (Sec. 5, act of June 20, 1936.)

"489R. *Consular fees and expenses.* (a) *Fees.* The Tariff of United States Consular Fees is applicable to services rendered under the act of June 20, 1936, and these regulations, except that when the consular officer acts as interpreter or translator he shall make no charge for such services as interpreter or translator. The fees shall be paid by the party or parties who applied for the commission unless the commission is accompanied by an order of court that all fees, compensation, and other expenses authorized by these regulations are chargeable to the United States under section 7(b) of

the act of June 20, 1936. (Sec. 7(a), act of June 20, 1936.)

“(b) *Expenses.* Actual and necessary expenses incurred by a consular officer in connection with the execution of a commission issued under the provisions of the act of June 20, 1936, and these regulations, including compensation paid to a stenographer, shall be paid by the same party or parties to whom consular fees are chargeable under subdivision (a) of this section.

“When travel is performed by the consular officer in connection with the execution of such a commission, travel and *per diem* expenses shall be paid in accordance with the Standardized Government Travel Regulations and the Department's supplement thereto.

“489S. *Compensation allowable.* (a) *Witnesses.* Each witness whose testimony is obtained shall be entitled to receive compensation at the rate of \$5 a day for each day of attendance, plus 5 cents a mile for going from his place of residence or business to the place of examination, and returning, by the shortest feasible route. When, however, it is necessary to procure the attendance of a witness on behalf of the United States or an indigent party, an officer or agent of the United States may negotiate with the witness to pay compensation at such higher rate as may be approved by the Attorney General, plus the mileage allowance stated above. The compensation and mileage of each witness shall be paid by the party, or parties, applying for the commission unless the commission is accompanied by an order of court that all fees, compensation, and other expenses authorized by these regulations are chargeable to the United States under section 7(b) of the act of June 20, 1936. (Secs. 7-8, act of June 20, 1936.)

“(b) *Counsel.* Each counsel who represents a party to the action or proceeding in the examination before the commissioner shall receive compensation for each day of attendance at a rate of not less than \$5 a day and not more than \$25 a day, as agreed between him and the party whom he represents, plus such actual and necessary expenses as may be allowed by the commissioner upon verified statements filed with him. If the commission is issued on application of the United States, the compensation and expenses of counsel representing each party are chargeable to the United States. If the commission is issued on application of any other party, the compensa-

tion and expenses of counsel shall be paid by the party whom such counsel represents, unless the commission is accompanied by an order of court that all fees, compensation, and other expenses authorized by these regulations are chargeable to the United States under section 7(b) of the act of June 20, 1936. (Secs. 7-8, act of June 20, 1936.)

“(c) *Interpreters and translators.* Each interpreter and translator employed by the commissioner under these regulations shall receive an allowance of \$5 a day, plus 5 cents a mile for going from his place of residence or business to the place of examination, and returning, by the shortest feasible route. The compensation and mileage of interpreters and translators shall be chargeable to the United States. (Secs. 7-8, act of June 20, 1936.)

“489T. *Payment of fees, compensation, and expenses.* Witnesses, counsel, interpreters, and translators shall be paid, in accordance with section 489S, by the commissioner at the conclusion of their services. Other expenses authorized by these regulations shall be paid by the commissioner as they are incurred.

“*When chargeable to the United States.* When it appears that the commission was issued on application of the United States or when the commission is accompanied by an order of court that all fees, compensation, and other expenses authorized by these regulations are chargeable to the United States under section 7(b) of the act of June 20, 1936, the commissioner shall execute the commission without charge for his services as commissioner in connection therewith. He shall pay witnesses, counsel, interpreter, or translator, and other expenses authorized by these regulations from the proceeds of a separate draft which he shall be authorized to draw on the Secretary of State, and he shall forthwith render a separate detailed account of such payments, supported by properly receipted vouchers, to the Department of State. The Department of State shall be reimbursed for the amount of such payments by the Department of Justice.

“*When chargeable to other parties.* Whenever fees, compensation, and other expenses authorized by these regulations are chargeable to any party other than the United States, the commissioner shall be instructed by the Department of State to undertake the execution of the commission only if such party deposits with

the Department of State, in advance, an amount, to be set by the court, apparently adequate to defray all fees, compensation, and other expenses authorized by these regulations. If the amount of the deposit is later found to be insufficient, the commissioner shall so notify the Department of State and shall retain the commission and other papers until he is notified by the Department that a sufficient amount has been deposited. If the amount of the deposit exceeds the aggregate amount of fees, compensation, and other expenses authorized by these regulations, the Department of State shall return the excess to the party, or parties, entitled thereto.

"The commissioner shall pay witness, counsel, interpreter, translator, and other expenses authorized by these regulations from the proceeds of a separate draft which he shall be authorized to draw on the Secretary of State, and he shall forthwith render a separate detailed account of such payments, supported by properly receipted vouchers, to the Department of State."

Chapter XIII of the Instructions to Diplomatic Officers of the United States is hereby amended by adding after section 17 the following sections:

"**XIII-18. Commission to take testimony.** Whenever a court issues a commission to take testimony for use in determining the admissibility in evidence of certain writings and records made in the regular course of business, under the provisions of the act of Congress approved June 20, 1936 (Public No. 734, 74th Cong.), and finds that a consular officer of the United States is not conveniently located with respect to the place where the testimony of witnesses is to be taken, or that the appropriate consular officer is disqualified under section 3(b) of the said act to execute the commission, it shall in such case be executed by any diplomatic officer to whom the commission is addressed. In the execution of such a commission, the diplomatic officer shall conform to the procedure prescribed for consular officers and shall collect fees and pay compensation and expenses in accordance with sections 489A to 489T of the Consular Regulations of the United States. (Sec. 3(c), act of June 20, 1936.)

## AUTHORIZING THE ALASKA RAILROAD TO ENGAGE IN OCEAN-GOING AND COASTWISE TRANSPORTATION

By virtue of and pursuant to the authority vested in me as President of the United States, and by section 1 of the act entitled "An Act To authorize the President of the United States to locate, construct, and operate railroads in the Territory of Alaska, and for other purposes", approved March 12, 1914 (38 Stat. 305), and by the act entitled "An Act Making appropriations for the De-

partment of the Interior for the fiscal year ending June 30, 1937, and for other purposes", approved June 22, 1936 (Public No. 741, 74th Congress), authorizing the Alaska Railroad to operate and maintain "ocean-going or coastwise vessels by ownership, charter, or arrangement with other branches of the Government service, for the purpose of providing additional facilities for the transportation of freight passengers, or mail, when deemed necessary, for the benefit and development of industries and travel affecting territory tributary to the Alaskan Railroad", and in view of the fact that the present interruption to ocean-going and coastwise transportation to and from the Territory of Alaska has seriously interfered with the operation and maintenance of the Alaska Railroad and with the development of industries and travel affecting territory tributary to the Alaska Railroad by causing a shortage of food supplies and other necessary commodities in the Territory, the Alaska Railroad is hereby authorized and directed to make use of such ocean-going or coastwise vessels as may be made available to it by agreement or arrangement with other branches of the Government service, to charter ocean-going or coastwise vessels and to perform any and all acts necessary for the operation of such chartered or Government-owned vessels for transporting passengers and freight to and from the Territory, for the purpose of providing necessary transportation facilities during the present interruption of shipping.

The Alaska Railroad shall continue to engage in coastwise and ocean-going transportation as herein authorized for such period as the Secretary of the Interior may deem necessary.

It is further directed that present commercial passenger and freight charges shall be maintained by the Alaska Railroad in connection with its operation of this additional service.

2. The last sentence of section 6 of chapter IV of the Instructions to Diplomatic Officers is amended to read:

"He shall stand at salute, facing the ship, during the firing of the gun salute."

3. Section 1 of chapter XVII of the Instructions to Diplomatic Officers is amended to read:

##### "XVII-1. Office supplies

"In general, office supplies should be obtained only from the Department, although in emergencies diplomatic officers are permitted to make purchases locally.

"Requisitions for supplies should be made on the Department's printed form and should describe the articles called for by schedule number, as well as by name, and the quantities desired should be stated in figures, as prescribed by the schedule, and in the order indicated therein. The quantity of supplies on hand in the office at the time requisition is made should always be stated in the column and on the form provided for the purpose. If less than an original package is desired the quantity should be stated in fractions thereof.

"Requisitions should be carefully drawn with due regard to economy, and should cover so far as possible a supply for one year.

"Articles not mentioned on the schedule which may be considered necessary should be added at the end of the requisition."

##### CONSULAR REGULATIONS

4. Sections 48, 49, and 50 of the Consular Regulations are revoked and new sections 48, 49, and 50 are prescribed as follows:

"48. *Exequatur.* Upon the assignment of a Foreign Service officer as a consul general, consul, or vice consul, or upon the assignment of a clerical vice consul, his assignment commission or commission to a post is forwarded to the Ameri-

can diplomatic representative accredited to the government within whose jurisdiction the office is situated. At the same time the diplomatic representative is instructed to comply with the procedure which is customary in the particular country with respect to obtaining official recognition. Certain governments prefer to be merely notified of the assignment when the officer assigned is not in charge of a consular office. The officer's commission, together with the exequatur, if one is issued, is forwarded to the officer at the post where he is assigned.

"49. *Procuring exequatur when no diplomatic representative.* If there is no diplomatic representative of the United States stationed in the country, the commission of the consular officer may be sent in accordance with some prearranged plan to a diplomatic representative of the United States or a consular officer of the United States in another country with instructions to apply to the proper authorities for an exequatur.

"50. *Entry upon duties without exequatur.* An officer shall, when so directed by the Department of State, enter upon the discharge of his duties without an exequatur on receiving permission from the proper authorities to act in his official capacity."

5. Sections 51 to 54, inclusive, are revoked.

6. Section 56 is amended to read:

"56. *Notice of arrival at post.* After the arrival of an officer at his post, he will inform the mission of the United States, if there is one accredited to the government of the country in which the consular office is situated. An officer within the jurisdiction of a consulate general will give similar information to that office."

7. Sections 109, 110, and 111 are revoked and new sections 109 and 110 prescribed as follows:

"109. *Classification of visits of American naval vessels to foreign ports.* The term 'visits of courtesy' is used to designate visits of a more or less formal nature of naval vessels to ports in foreign countries in which there is an exchange of official entertainment. 'Informal visits' are those in which formalities are restricted to the usual salutes and customary calls, with no official entertainment by the government concerned. Unless specifically designated as visits of courtesy, all visits of United States naval vessels are to be regarded as informal visits.

"110. *Official calls between naval officers and consular officers.* If the commanding officer of a naval vessel of the United States which visits a foreign port where there is a consular officer is a flag officer or commodore, he receives the first visit from the consular officer regardless of the latter's rank; and if the commanding officer is of the rank of captain, he makes the first visit to a consul general and receives the first visit from other consular officers. A commanding officer below the rank of captain makes the first visit to a consul general or to a consular officer in charge of a consulate.

"When the consular officer is to make the first visit, the commanding officer sends a boat ashore with an officer on board to call on the consular officer and tender him a passage to the ship at such time as he may select. It is the duty of the consular officer to accept the invitation to visit the commander within 24 hours, and to tender to him his official services.

"When the commanding officer makes the first visit to a consular officer, it is the duty of the consular officer to return the visit within 24 hours."

8. Section 110A is renumbered 111.

9. The last sentence of section 182 is amended to read as follows:

"Vessels which are wholly owned by citizens of the United States but not regularly documented under the laws of the United States are not exempt from the payment of fees for services rendered by American consular officers."

10. The last three paragraphs of section 243 are revoked and new paragraphs prescribed as follows:

"(a) *General.* Whenever a seaman is discharged by a consular officer, the master shall provide such seaman so discharged with employment on a vessel agreed to by the seaman, or shall provide him with one month's extra wages, if it shall be shown to the satisfaction of the consular officer that such seaman was not discharged on account of neglect of duty, incompetency, voluntary consent, or injury incurred on the vessel. (46 U.S.C. § 683.)

"(b) *Voyage contrary to agreement, vessel unseaworthy or badly provisioned, or cruel treatment.* Whenever on the discharge of a seaman in a foreign country by a consular officer on his complaint that the voyage is continued contrary to agreement, or that the vessel is badly provisioned or unseaworthy, or against

the officers for cruel treatment, and after proper inquiry into the matter the consular officer has satisfied himself of the truth and justice of such complaint, he shall require the master to pay such seaman one month's wages over and above the wages due at the time of discharge, and to provide him with adequate employment on board some other vessel, or to provide him with passage on some other vessel bound to the port from which the seaman was originally shipped, or to the most convenient port of entry in the United States, or to a port agreed to by the seaman. (46 U.S.C. § 685.)

"(c) *Vessels sent to sea unsuitably provided.* When the report of inspectors appointed by the consular officer to make an examination as to whether a vessel is in a suitable condition to go to sea, contains the statement that in their opinion the vessel was sent to sea unsuitably provided in any important or essential particular, by neglect or design, and the consular officer approves of such finding, he shall discharge such of the seamen as request to be discharged, and shall require the payment by the master of one month's wages for each seaman over and above the wages then due, or sufficient money for the return of such of the crew as desire to be discharged to the nearest and most convenient port of the United States, or by furnishing the seamen who so desire to be discharged with employment on a ship agreed to by them. But if in the opinion of the inspectors the defects or deficiencies found to exist have been the result of mistake or accident, and could not, in the exercise of ordinary care, have been known and provided against before the sailing of the vessel, and the master shall in a reasonable time remove or remedy the causes of complaint, then the crew shall remain and discharge their duty. This section does not apply to fishing or whaling vessels or yachts. (46 U.S.C. § 658.)

"(d) *Improper discharge within a month.* See section 232 (46 U.S.C. § 594).

"(e) With regard to the extra wages of seamen shipped 'by the lay', see section 244, and of seamen shipped on undocumented vessels, section 245."

11. Sections 244 to 248, inclusive, are amended to read:

"244. *Shipment 'by the lay'.* When seamen have been shipped on board American vessels without the rate of their wages being specified on the shipping articles, as on board certain fishing or

whaling vessels where they are shipped 'by the lay', upon their discharge at a foreign port under circumstances entitling them to extra wages, such wages shall be paid at the usual rate at the time and port of shipment for the voyage. (See also section 268.)

"245. *Undocumented vessels.* Persons having the status of American seamen when shipped on undocumented American or foreign-built vessels which are wholly owned by citizens of the United States, are to be regarded in the same light, as regards the collection of extra wages, as seamen on regularly documented vessels. Consular officers will not, however, exact extra wages when such vessels are sold abroad. (See section 252, 46 U.S.C. § 684.)

"246. *Restrictions in seamen's contracts.* A master of a vessel is forbidden to make a contract with a seaman which provides for the waiver or remission of the extra wages upon his discharge at a foreign port in cases in which he would be otherwise entitled to such wages. In all engagements of seamen the statutes of the United States regarding such wages must be deemed and taken to be a part of the seaman's contract. (46 U.S.C. § 600.)

"247. *No waiver or remission of extra wages is legal.* Although ordinarily any person may waive a benefit to which he is entitled by law, he cannot by such waiver affect the rights of third persons or contravene the policy of a statute. Extra wages are allowed to a seaman to prevent him from becoming a public charge and to provide a means for his relief and for his return home. A seaman cannot, therefore, by his own act defeat the public policy upon which the statutes are based. As section 246 specifically provides that a seaman cannot expressly waive his right to extra wages in the shipping contract, consular officers are instructed to exact such wages in all cases where the law requires them to be paid, without any remission or deduction of the indebtedness of the seaman to the vessel, especially as the statute (46 U.S.C. § 683) makes consular officers accountable to the United States for the full amount if they neglect to require payment.

"248. *Foreign seamen.* A seaman who is a foreigner and who is shipped in a foreign port and discharged in a foreign port is not entitled to extra wages upon discharge. (Fed. Case No. 16002.)"

12. Section 260, subdivision (1) is amended to read:

"(1) Merchant seamen who are citizens of the United States and who, at the time of applying for relief, are by habit and intent bona fide members of the American merchant marine, although their last service may not have been in an American vessel."

13. Section 270 is hereby amended to read:

"270. *Express authorization essential prior to relief of naval seamen.* Seamen of the naval vessels of the United States left under the care of consular officers in consequence of sickness, injuries, or other causes, are not entitled to the relief provided by law for seamen of the merchant service; and a consular officer should not incur expenses in their behalf unless expressly requested or authorized to do so by a commanding officer. Such relief should be extended when the naval officer furnishes adequate funds at the time to meet necessary expenses or gives such written authorization as will secure to the consular officer reimbursement from the Navy Department for outlays made."

14. Sections 321 to 331, inclusive, are revoked and new sections prescribed as follows:

"321. *Protection of wrecks and stranded vessels.* Consular officers, in cases where vessels of the United States are stranded on the coast in their consular districts, respectively, are required, so far as the laws of the country permit, to take proper measures as well for saving such vessels, their cargoes and appurtenances, as for storing and securing the effects and merchandise saved, and for taking inventories thereof; and the merchandise and effects saved, with the inventories, must, after deducting therefrom the expenses, be delivered to the owner or owners. No consular officer is permitted to take possession of any such goods, wares, merchandise, or other property when the master, owner, or consignee thereof is present or capable of taking possession. (46 U.S.C. § 721.)

"If in such a case salvage is claimed and is allowed by a competent tribunal, the consular officer may receive the remainder of the effects or the proceeds thereof if the tribunal shall permit them to be delivered to him. A full report with recommendations as to the disposition of the effects or proceeds should be submitted to the Department of State which will give necessary directions as to their

disposition. No consular fees are chargeable for such services.

"322. *Disposition of wrecks and their cargoes brought into consular district.* All vessels, parts of vessels, and any portion of their cargoes, belonging to citizens of the United States, saved and brought into the consular jurisdiction after being wrecked, or in consequence of any disaster at sea, are to be proceeded with in the same manner as if the vessel had stranded within the consular jurisdiction.

"323. *Laws and regulations of foreign countries concerning wrecked property.* A consular officer at a seaport should ascertain the provisions of local laws or regulations with regard to property wrecked within his jurisdiction and should observe them. A consular officer should not interfere with the legal function of the proper magistrate or officer, but he may request permission as the consular representative of the absent master or owner, or, if the master or owner is present, as an official adviser, to assist at the taking of the inventory, and at the sale, and in all other proceedings in relation to the property. It is the duty of the consular officer to protect the interests of the American owner, and if his reasonable requests are not complied with, to take the necessary evidence of the facts in the case and transmit it to the Department of State. This section does not authorize or contemplate the surrender of any rights established by treaty. The provisions of section 337 concerning such rights should be followed.

"324. *Wrecks to be reported.* When any American vessel is wrecked or lost within his jurisdiction, the consular officer should submit a report by telegraph to the Department of State stating briefly the name of the vessel, its owner and home port, the voyage on which it was bound, and the circumstances attending the disaster. This telegraphic report should also contain information concerning the safety of the passengers and crew, as required by section 458 of these regulations, and should be followed promptly by a full report by mail giving details. The report by mail should state whether the papers of the vessel have been saved. If there is an agent of the American underwriters in his jurisdiction the consular officer shall cooperate with him. (Sec. 336.)

"325. *Disposition of unclaimed property.* So far as may be permitted by treaty, the laws of the country or estab-

lished usage, or in the absence of any legal impediment, any effects, whether wrecked, abandoned, or otherwise unclaimed, belonging to a citizen of the United States and found within the jurisdiction of the consular officer are to be handled in accordance with the directions given in Article XXIII for the disposition of personal estates of deceased citizens.

*"326. Proceedings may be instituted.* A consular officer may file a claim in admiralty proceedings for the recovery of property in behalf of American citizens when he has reasonable grounds to believe that the shipwrecked vessel or its cargo is American-owned. Before taking such action a telegraphic report should be made to the Department with a statement as to whether any expenditures will be involved in filing the claim or in its disallowance, and specific authority for filing the claim obtained. As restitution cannot be decreed without specific proof of the proprietary interest, immediate steps should be taken to obtain such evidence. (10 Wheaton 67; Fed. Case No. 8474.)

*"327. Report of rescue of American seamen or citizens.* Whenever a consular officer shall receive authentic information that the master or crew of any vessel, American or foreign, has rescued seamen or citizens of the United States from shipwreck or other catastrophe at sea, he shall without delay transmit to the Department of State a full statement of the facts, including the name, flag, and home port of the rescuing vessel, and the name and address of its owner. The report should state the names of the passengers or crew who have died or are unaccounted for, and the names of the survivors and what action has been taken concerning them. (Secs. 324, 329, 458.) The consular officer should include in his report the names and addresses of officers or members of the crew of the rescuing vessel who have especially distinguished themselves and should give full and precise details regarding the rescue and their part in it so that the hazard incurred and the degree of merit shown may be evaluated.

*"328. Rewards to masters or crews of foreign vessels.* Provision is made in the annual appropriation act of the Department of State for expenses incurred in the acknowledgment of the services of masters and crews of foreign vessels in rescuing American seamen or citizens from shipwreck or other catastrophe at

sea. Such acknowledgments usually are made in the name of the President by the Department of State upon recommendations contained in the report (sec. 327) of the consular officer.

"However, if in the judgment of the consular officer after investigating the facts and circumstances of the rescue, the master and rescuing boat's crew of the foreign vessel, or any of them, are deserving of immediate reward, he is authorized to pay to such master and members of the crew, or any of them, without previous reference of the matter to the Department of State, a sum of money ranging from \$5 to \$25, according to the rank and merit of the recipient, and to include such payment in his monthly accounts supported by appropriate vouchers. (Form No. 170.) The consular officer should inform the Department immediately of his action in making such payments and copies of his reports transmitted in compliance with section 327 should accompany the accounts.

"In making the recommendations and rewards for saving of life, it is expected that consular officers will exercise due diligence and sound discretion. Humane action is deemed deserving of recognition as well as heroic action (although in a less degree), and sacrifice of business interests as well as disregard of personal peril. Volunteer efforts should be rated higher than compulsory action under the orders of a superior.

*"329. Assistance to Americans from wrecked or lost vessels.* Consular officers will promptly render such assistance as may be in their power to their countrymen from wrecked or lost vessels, and institute whenever it is practicable energetic proceedings for the protection of their property, and, if necessary, will apply to local authorities for assistance; but they may not incur any expense therefor in the expectation that it will be defrayed by the Department of State. The appropriation for the relief and protection of American seamen in foreign countries is not available for any purpose except the relief of persons who are actually 'seamen'. However, in making the telegraphic reports required by sections 324 and 458, consular officers may indicate the nature and estimated cost of the emergency relief required under the special circumstances of serious cases, stating the name and address of any person or organization to which this in-

formation should be communicated for the benefit of distressed persons.

"330. *Papers to be preserved.* In case a vessel registered under the laws of the United States is lost or taken by an enemy, burned, or broken up, or otherwise prevented from returning to the port to which it may belong, the certificate, if preserved, shall be delivered up within eight days after the arrival of the master or person having the charge or command of such vessel within any district of the United States, to the collector of such district. (46 U.S.C. § 23.)

"The master or person having charge or command of the vessel is primarily responsible for the care and surrender, where necessary, of the ship's papers. However, consular officers are responsible for aiding in the collection and preservation of papers and documents relating to the passengers or to the vessel or its cargo, and for the delivery thereof to the proper persons or to their representatives, or in the event of death or nonappearance of such persons, for transmission to the Department of State.

"Whenever the ship's papers or any part of them have been delivered to or otherwise come into the possession of a consular officer in circumstances not requiring their return to the vessel or its officers, a receipt therefor should be given the master and the documents sent to the Department of State for transmission to the Department of Commerce as soon as they are no longer required by the consular officer for the performance of consular functions.

"331. *Sale of wreck.* A certificate of registry shall be solely used by the vessel for which it is granted, and shall not be sold, lent, or otherwise disposed of, to any person whomsoever; and if any foreigner or any person for the use and benefit of such foreigner, shall purchase or otherwise become entitled to the whole or any part or share of, or interest in a wrecked vessel registered under the laws of the United States when such vessel shall be at any foreign port or place, or at sea, then the master or person having the charge or command thereof shall, within eight days after his arrival within any district of the United States deliver up the certificate to the collector of such district. (46 U.S.C. § 23.)

"If the purchaser is a citizen of the United States the whole register should be delivered to the new master or to the person having the charge or command of such vessel and a new register ob-

tained therefor, pursuant to section 35, title 46, Code of Laws of the United States."

15. Section 385 is amended by the addition of a new paragraph as follows:

"(f) The General Accounting Office shall act as conservator of such part of these estates as may be received at the Treasury, and for their protection the Secretary of the Treasury may order such effects to be sold as may consist of jewelry or other articles which have heretofore or may hereafter be received at the Treasury, and pay the expenses of such sale out of the proceeds, provided application for these effects shall not have been made by the legal claimant within two years after their receipt. The General Accounting Office is authorized to indorse all bills of exchange, promissory notes, and other evidences of indebtedness due to such estates, and to take such steps as may be necessary for their collection. The proceeds of such sales, together with such other moneys as may be collected by it, shall be deposited into the Treasury in trust for the legal claimant, and be reported to the Secretary of State. (22 U.S.C. § 75.)"

16. Section 390 is amended by the deletion of the last sentence thereof.

17. Section 395 is amended to read:

"395. *What inventory includes.* The inventory should cover all the personal effects of the decedent that have come into the consular officer's hands, including account books, personal letters, all evidences of debt whether due or payable in the country of his decease or elsewhere, letters of credit, and other things which may or may not be assets in the consular officers hands for the payment of debts. Nothing, on the other hand, should be included in the inventory which is not in the consular officer's possession. The correspondence files and record books of the deceased are to be listed on the inventory and carefully described, the number of pages in each book being mentioned; and the consular officer will place a certificate, signed by himself at the beginning and at the end of each record book, in such a manner as to prevent any addition being made thereto."

18. Section 398 is amended to read:

"398. *Collection of debts.* In collecting debts due the decedent, the consular officer should collect those due from persons or concerns only in the country in which the decedent died. If necessary, he may request the assistance of other

consular officers in making such collections. Debts so collected should, of course, be regarded as a part of the decedent's estate."

19. Section 399 is amended to read:

"399. *Payment of debts.* The decedent's debts should be paid out of the cash resources of the estate in the consular officer's hands, namely: the money among the effects, the proceeds of the sale of perishable property, and the money paid by the decedent's debtors only in the country where the decedent died. If these funds are insufficient, the consular officer may sell at auction, after proper advertisement, as much of the remaining personal property as may be required to meet the demands, taking care to sell first the articles which are most marketable and at the same time least likely to be desired by the family of the deceased for preservation.

"A claim for damages for a wrongful act of the decedent is not a debt which the consular officer may pay unless it has been reduced to judgment. (18 Pick. 36.)"

20. Section 401 is amended to read:

"401. *Remission of residue of estate.* One year after the death of the decedent or as soon thereafter as possible, the consular officer is required to convert into money the residue of the estate left after paying the local debts and to send such money to the Department of State for transmission through the General Accounting Office to the Treasury of the United States to be held in trust for the legal representative. The articles mentioned in the preceding section and remaining unsold should be sent along with the unused assets, to be delivered to the legal representative of the deceased. (Sec. 385*d*.)"

21. Section 402 is amended to read:

"402. *Delivery to legal representative.* If at any time before transmission of the residue of the estate to the Department of State for delivery to the General Accounting Office, the legal representative of the deceased demands the effects in the hands of the consular officer, the latter shall deliver them up, the prescribed fees being paid, and shall cease his proceedings. The consular officer is required to be at all times ready to deliver the effects and papers of a deceased citizen of the United States to the person who presents satisfactory evidence of his legal right to receive them as representative of the deceased owner."

22. Sections 404, 405, and 406 are amended to read, respectively:

"404. *Account of receipts and expenditures.* The consular officer is required to keep a regular account between himself and the estate of the deceased, in which he shall enter to his own debit all the moneys and effects that come into his hands, and to his credit all the payments he makes, and, finally, the remainder that he may deliver over to the legal representative or remit to the Department of State for delivery to the General Accounting Office so as to close the account. A copy of this account shall be delivered to the representative of the deceased and two copies transmitted to the Department.

"405. *Final settlement and account.*

As soon as an estate shall be finally settled so far as the consular officer is concerned, he shall give notice thereof to the Department of State, transmitting at the same time an itemized statement of the receipts and expenditures on account of the estate, and showing the amount in money or the effects which have been delivered to the representative of the deceased or are to be sent to the General Accounting Office, as the case may be.

"406. *Outgoing officer to close account of effects.* In case of transfer of office, the effects of deceased citizens which have been in the consular officer's hands more than one year and which should have been remitted, shall be remitted and accounted for by the outgoing officer, and not turned over to his successor. (Sec. 68.)"

23. Section 410 is amended to read:

"410. *Fees for taking into possession and settling estates.* A consular officer shall collect the appropriate fee (fee no. 12 of the Tariff of United States Consular Fees) for every personal estate of a deceased American (except an American seaman) coming into his possession, and shall account for the fee in his monthly return of fees next following the collection. This fee shall in all cases have priority over other obligations of the estate, and a consular officer who waives collection of the fee shall be liable to the Government for the amount thereof."

24. Section 452 is amended to read:

"452. *Uniforms forbidden.* No person in the diplomatic service of the United States shall wear any uniform or official costume not previously authorized by Congress. (22 U.S.C. § 39.) Consular

officers are not authorized by law to wear any uniform, and the prohibition imposed by statute on diplomatic officers is extended to consular officers."

25. Section 457A is prescribed as follows:

"457A. Consular officers are expected to protect in every way possible the interests of American citizens, but they are not expected to accept private property (other than estates of deceased Americans) for storage, safekeeping, or transmission, as they do not have facilities for storing and safeguarding such property and can assume no responsibility therefor. In any emergency in which an officer in his discretion considers it advisable to accede to a request that he accept private property, the owner should be required to sign a statement to the effect that the property is deposited at his own request, at his own risk, and without any responsibility therefor on the part of the Government of the United States or its officers."

26. The Tariff of United States Consular Fees prescribed by section 533 of the Consular Regulations is amended as follows:

(a) The first sentence of the second paragraph is amended to read:

"The fees in this tariff are not prescribed for vessels registered, enrolled, licensed, or provisionally registered under the laws of the United States, or for American seamen, because they are exempted by law from the payment of consular fees (22 U.S.C. § 89)."

(b) Item 14 of the tariff is amended to read:

"14. Bill of health, in duplicate (or in triplicate, if necessary) ----- \$5.00."

#### EXECUTIVE ORDER 7548

ENFORCEMENT OF THE CONVENTION FOR SAFETY OF LIFE AT SEA, 1929

WHEREAS under Article I of the Convention for Safety of Life at Sea, signed

at London on May 31, 1929, ratified by the United States of America, and proclaimed by the President on September 30, 1936 (Treaty Series No. 910), the Government of the United States of America, together with the Governments of the other countries which have become parties to the Convention, undertakes to give effect to the provisions of the Convention, to promulgate all regulations and to take all other steps which may be necessary to give it full and complete effect; and

WHEREAS it is expedient and necessary, in order that the Government of the United States of America may give full and complete effect to the said Convention, that several departments and agencies of the executive branch of the said Government exercise functions and perform duties thereunder; and

WHEREAS the following arrangement with reference to the administration of matters affecting radio was approved by the Federal Communications Commission on September 29, 1936, and concurred in by the Secretary of Commerce on October 12, 1936:

"By reason of ratifying the Convention the United States accepted certain obligations with respect to matters which, under the statutes fixing the powers and duties of the Department and the Commission, are subjects of separate jurisdiction. The Convention is self-executing, at least in large part, and a problem as to the division of duties and responsibilities in the matter of administering the Convention arises in the absence of specific legislation by Congress.

"The Convention provides for the issuance of three classes of certificates, i.e., Safety Certificates, Safety Radiotelegraph Certificates and Exemption Certificates. It is recognized that the issuance of each one of these classes of certificates involves determination on the part of both the Commission and the Department of Commerce. In view of this fact, it would appear that, legally, they might be issued by either agency, or jointly, based on separate determinations. In the interest of economy and in order to serve the convenience of the Government and the public, it has been agreed that provision is to be made for the issuance of all certificates through the Department of Commerce.

"However, the decision of the Commission in all matters affecting the use of radio on board ships subject to the Safety Convention will be final and binding, in so far as the Executive

branch of the Government is concerned. In the event of hearings or legal proceedings involving radio installations, hearings are to be conducted by and in accordance with the Rules and Regulations of the Commission, and the Commission is to assume and have responsibility for the defense of its orders and rulings before the Courts and also for prosecutions resulting from violations of the radio provisions of the Convention. The Commission will make the necessary radio inspections, on application to be made to it by the ship owner or other person responsible for the operation of the vessel. Upon approval by the Commission of the radio installation or approval by the Commission of a request for exemption, the appropriate certificate will be issued by the Department of Commerce.

"The Department of Commerce is to inspect for and finally decide all matters arising under the Convention except those relating to radio installations.

"In the event that any question arises with regard to a matter affecting the stability or navigability of the vessel and which also affects the determination of whether a certificate shall be issued under the radio provisions of the Convention, the Commission shall first ascertain from the Department of Commerce whether it approves and its decision with respect thereto shall be final. As an example, the Department of Commerce shall decide whether the location of the radio station on board ship complies with the Convention.

"It is, of course, recognized that cases will arise in which the respective jurisdiction of the Commission and the Department cannot readily be determined, and the foregoing agreement shall serve as a guide in dealing with these cases as they arise."

NOW, THEREFORE, by virtue of and pursuant to the authority vested in me as President of the United States of America, I hereby confirm the said arrangement, and direct the Department of State, the Department of Commerce (Bureau of Marine Inspection and Navigation), the Treasury Department (Coast Guard), the Department of Agriculture (Weather Bureau), and the Federal Communications Commission, respectively, in relation to the fulfillment of the obligations undertaken by the Government of the United States of America under the said Convention for Safety of Life at Sea, and subject to the

aforesaid arrangement, to exercise the functions and perform the duties therein prescribed and undertaken which appertain to the functions and duties which they severally are now directed or authorized by law to perform.

**EXECUTIVE ORDER 7577**

**AMENDING THE INSTRUCTIONS TO DIPLOMATIC OFFICERS AND THE CONSULAR REGULATIONS**

By virtue of and pursuant to the authority vested in me by section 1752 of the Revised Statutes (U.S.C., title 22, sec. 132), it is ordered that section XV-4 of the Instructions to Diplomatic Officers and section 451 of the Consular Regulations be, and they are hereby, amended to read as follows:

*"Presents and testimonials.*—No diplomatic or consular officer shall ask or accept for himself or any other person, any present, emolument, office, or title of any kind from any king, prince, or foreign state. (U.S. Const., Art. I, sec. 9, cl. 8, U.S.C., title 22, § 126.) Any present, decoration, order, or testimonial in acknowledgement of services rendered to the citizens or governments of foreign states, or other thing, which shall be conferred on or presented by any foreign government to any officer of the United States, shall be tendered through the Department of State, and not to the individual in person, but such present, decoration, or other thing shall not be delivered by the Department of State unless so authorized by act of Congress. (5 U.S.C., § 115.)

"Thorough consideration was given by the Committee on Foreign Affairs of the House of Representatives in 1934 to the question whether the Congress should consent to the acceptance of presents, decorations, orders, medals, testimonials, or other things. It resulted in the enactment of the joint resolution approved June 27, 1934 (48 Stat. 1267), which authorized only certain *retired* officers and employees therein named to accept such decorations, orders, medals, or presents as had been tendered to them by foreign governments. Hence it appears to be the settled policy of the Congress to decline to authorize the acceptance by civilian officers of the Government in active service of presents, decorations, medals, orders, testimonials, or other things, when presented to or conferred on such officers by any king, prince, or foreign state. Furthermore, it is contrary to the policy of the Government to tender or to award presents, decorations, medals, orders, testimonials, or other things to representatives of foreign governments. In view of the attitude of the Congress and the policy of the Government, American diplomatic and consular officers are

hereby *prohibited* from accepting in *any circumstances* any present, decoration, medal, order, testimonial, or *other thing* that may be tendered to them by any foreign king, prince, or foreign state."

SEC. 2. On and after the first day of October, 1937, no person in the Virgin Islands shall import, manufacture, produce, compound, sell, deal in, dispense, prescribe, administer, give away, or acquire marihuana unless he shall have complied with the provisions of the said Act in the manner provided for in this Order and regulations issued pursuant thereto.

At the time of such registry and on or before the first day of July annually thereafter, every person in the Virgin Islands who imports, manufactures, produces, compounds, sells, deals in, dispenses, prescribes, administers, or gives away marihuana shall

The price of the order form as sold by the Commissioner of Finance of the Virgin Islands under section 6(c) of the Act shall be two cents for the original and one copy. The Commissioner of Finance shall furnish appropriate stamps to represent the payment of the transfer tax levied by section 7 of the said Act. Such stamps shall be provided by the Commissioner of Internal Revenue of the Treasury Department of the United States upon requisition.

SEC. 5. The Governor of the Virgin Islands may prescribe such regulations as may be necessary to carry into full force and effect the provisions of the said Act and this Order. In prescribing such regulations, the regulations prescribed by the Commissioners of Narcotics and Internal Revenue and approved by the Secretary of the Treasury of the United States shall be followed in so far as they can be made applicable to conditions in the Virgin Islands.

SEC. 6. The Governor of the Virgin Islands and any persons acting under his supervision or direction shall have the right to make such inspection and take such action as may be necessary to enforce the provisions of the said Act under this Order.

#### AMENDING THE INSTRUCTIONS TO DIPLOMATIC OFFICERS AND THE CONSULAR REGULATIONS

By virtue of and pursuant to the authority vested in me by section 1752 of the Revised Statutes (22 U.S.C. § 132), it is ordered that the Instructions to Diplomatic Officers and the Consular Regulations be, and they are hereby, amended as follows:

1. Section XV-8 of the Instructions to Diplomatic Officers is prescribed as follows:

*"Condolences, congratulations, felicitations, etc.* When communicating condolences, congratulations, felicitations, etc., diplomatic officers will be governed by the rules on the subject established by the Department of State from time to time."

2. ARTICLE XII of the Consular Regulations is amended to read as follows:

#### SHIPMENT OF SEAMEN

189. *Shipment of seamen in foreign ports.* (a) Every master of a merchant vessel of the United States who engages any seaman at a place out of the United States, in which there is a consular officer shall, before carrying such seaman to sea,

procure the sanction of such consular officer, and shall engage seamen in his presence; and the rules governing the engagement of seamen before a shipping commissioner in the United States shall apply to such engagements made before a consular officer; and upon every such engagement the consular officer shall endorse upon the articles of agreement his sanction thereof, and an attestation to the effect that they have been signed in his presence and otherwise duly made [form no. 16]. (46 U.S.C. § 570.)

Every master who engages any seaman in any place in which there is a consular officer, otherwise than as required by the preceding paragraph, shall incur a penalty of not more than \$100, for which penalty the vessel shall be held liable. (46 U.S.C. § 571.)

All shipments of seamen made contrary to the provisions of any act of Congress shall be void; and any seaman so shipped may leave the service at any time, and shall be entitled to recover the highest rate of wages of the port from which the seaman was shipped, or the sum agreed to be given him at his shipment. (46 U.S.C. § 578.) The provisions of this paragraph are not applicable to contracts whereby fishermen ship for a share in the catch. (25 Fed. Rep. 856; 46 U.S.C. §§ 531, 544.)

(b) *Shipments on provisionally registered or undocumented American-owned vessels.* Vessels granted provisional certificates of registry (sec. 342) are subject to the laws of the United States regarding shipment, discharge, relief, and transportation of seamen. Such vessels are not subject to the laws of the United States relating to officers, inspection, and measurement until they arrive in ports of the United States. (46 U.S.C. § 12.)

In the case of undocumented American-owned vessels abroad, incapable of proceeding to the United States (sec. 343), the crews are usually made up of men who are not American citizens or American seamen. Seamen of this class when not serving under a contract made in the United States are not regarded as within the jurisdiction of the consular officer as to their shipment or discharge. Seamen engaging on such vessels who are American citizens, and foreigners who have acquired and maintained the status of American seamen are to be shipped and discharged before the consular officer in the same manner as seamen on regularly documented vessels,

(c) *Shipments at ports where no consular officer or at sea.* Where seamen are shipped at ports where there is no consular officer or at sea, report is made to the consular officer at the first port at which the vessel arrives and the seamen are then formally shipped before such officer, who will endorse the shipping articles and crew list as required (form no. 16), and indicate carefully in such endorsement the date when wages commenced prior to the date of formal shipment before the consular officer.

(d) *Shipments not required to be made before consular officer.* The shipment of seamen on vessels engaged in the trade between the United States and the Dominion of Canada, or Newfoundland, or the West Indies, or the Republic of Mexico, is not required to be made before a consular officer (46 U.S.C. §§ 563–564); nor are seamen on fishing vessels or on enrolled or licensed yachts required to be shipped before such officers. Upon request, however, seamen on vessels of the United States engaged in any trade may be shipped before a consular officer.

190. *Obligation to fill vacancies in crew.* In case of desertion or casualty resulting in the loss of one or more of the seamen, the master must ship, if obtainable, a number equal to the number of those whose services he has been deprived of by desertion or casualty, who must be of the same or higher grade or rating with those whose places they fill, and report the same to the United States consul at the first port at which he shall arrive. This section shall not apply to fishing or whaling vessels or yachts. (46 U.S.C. § 569.)

191. *Voyage or term for which seamen may be shipped.* Every master of a vessel in the foreign trade may engage any seaman at any port out of the United States, in the manner provided by law, to serve for one or more round trips from and to the port of departure, or for a definite time, whatever the destination, and the master of a vessel clearing from a port of the United States with one or more seamen engaged in a foreign port as herein provided shall not be required to reship in a port of the United States the seamen so engaged, or to give bond to produce said seamen before a boarding officer on the return of said vessel to the United States. (46 U.S.C. § 573.) However, upon his next departure from an American port the master must, in accordance with law, have in his crew the required proportion of American citi-

zens. (46 U.S.C. Supp. §§ 672a, 1132.) If occasion demands, those requirements should be called to the attention of the master.

192. *Seamen must understand contract.* A consular officer will take care that each engagement of a seaman is signed by the seaman in his presence or in the presence of some duly authorized employee of the consular office, and that all the terms of the contract and the exact nature of the work for which the seaman is engaged are understood by him. A seaman is not bound by a clause in the contract which was not read to him or explained to him. (15 Fed. Rep. 621; 38 Fed. Rep. 258.)

193. *Seamen to produce documents.* Before signing articles of agreement, every seaman shall produce a continuous discharge book or a certificate of identification if he possesses one, as well as his license or certificate of service, in order that the serial numbers may be entered in the shipping articles. Seamen who do not possess a continuous discharge book or certificate of identification may be employed at a foreign port or place, in which case they shall be furnished a continuous discharge book or a certificate of identification at the first port of entry in the United States or its territories at which the vessel arrives after such seamen are so employed. (2 F.R. 703, 707.)

194. *Shipping articles.* Every American vessel bound on a foreign voyage is required to obtain from the collector of customs of the district from which clearance is made a true and certified copy of the shipping articles, containing the names of the crew, which shall be written in a uniform hand, without erasures or interlineations. The shipping articles (articles of agreement) are deemed to contain all the conditions of the contract with the crew as to their service, pay, voyage, and all other things, and shall be produced by the master, and laid before any consular officer of the United States, whenever he may deem their contents necessary to enable him to discharge the duties imposed upon him by law toward any mariner applying to him for his aid or assistance. All interlineations, erasures, or writing in a hand different from that in which such duplicates were originally made, shall be deemed fraudulent alterations, working no change in such papers, unless satisfactorily explained in a manner consistent with innocent purposes and the pro-

visions of law which guard the rights of mariners. (46 U.S.C. § 676.)

Shipping articles (Commerce forms 705 and 705A) are made out in triplicate. One of the copies is retained by the shipping commissioner, and the original and a copy given to the master who shall enter therein any changes made in the crew during the voyage. In case of the paying off of any members of the crew during the voyage, they shall be required to sign the mutual release on both the original and the duplicate of the articles whether discharged before a shipping commissioner in an American port or before an American consul in a foreign port. At the completion of the voyage, when the crew is paid off, the mutual release on both the original and the duplicate of the articles must be signed by all members of the crew; and the original copy, which must contain a complete record of the entries made in all continuous discharge books during the voyage and the entries made in all certificates of discharge (Commerce form 718-A) issued during the voyage to seamen holding certificates of identification, shall be forwarded to the Bureau of Marine Inspection and Navigation, Department of Commerce, Washington, D.C. The duplicate copy shall be retained by the shipping commissioner. (2 F.R. 707.)

The shipping articles, the evidence of the seaman's contract, are construed with great liberality and most favorably to the seaman. A seaman may show by parol that untrue statements were made to induce him to sign and that the voyage and time of service described in the articles were different from the voyage and time of service described to him before he signed. (Fed. Cas. 3530, 10667.) Shipping articles cannot lawfully provide forfeiture of wages in excess of that provided by statute. (27 Fed. Rep. 567.)

*Additions to shipping articles.* Consular officers will be careful to enter the shipment of seamen on the original and copy of the articles until the space is exhausted; and whenever it becomes necessary to use additional sheets, they should be firmly attached in duplicate to the articles in such manner that the new sheets cannot be separated from the articles without discovery or mutilation.

*New articles.* When it is necessary to grant new articles to a vessel, the crew of which was named in articles then closed, the consular officer shall transmit to the Bureau of Marine Inspection and

Navigation, Department of Commerce, Washington, D.C., the properly completed original of the articles then closed, as well as the certificate under his hand and seal (form no. 21), specifying the seamen to whose discharge he has consented, and also those who have died, absconded, or been forcibly impressed into other service, and he shall retain the properly completed duplicate of the same articles. (See sec. 201.)

195. *Status of shipping agents.* No undue facilities are to be granted to any shipping agent to the exclusion of others of good reputation. The master is entitled, in the absence of controlling local regulations, to employ any agent he may see fit to obtain seamen for shipment on his vessel. The consular officer has no authority to interfere, nor to confer upon any shipping agent privileges which are not conceded to others. He is also without authority to designate such an agent as specially employed by the consular office, or to permit any agent to use a title, such as "American shipping agent" or "United States shipping agent", indicative of a special relation to the consular office. Although it is expected that a consular officer will inform himself as to the reputation of such agents, and will at the request of a master recommend such as he believes to be efficient and trustworthy, he is forbidden to insist upon the employment of any particular agent. Any instance of such partiality or favoritism which shall be proved to the satisfaction of the Department of State will incur its marked disapproval.

3. ARTICLE XIII of the Consular Regulations is amended to read as follows:

#### DISCHARGE OF SEAMEN

199. *Definitions.* (a) *American seamen.* For the purposes of these regulations the terms "American seamen" and "seamen or mariners of the United States" are synonymous. The following are to be regarded as American seamen within the meaning of the laws relating to the discharge, wages, and extra wages of seamen:

(1) Seamen who are citizens of the United States, shipped in an American vessel, whether in a port of the United States or in a foreign port.

(2) Seamen who are aliens, shipped in an American vessel, in a port of the United States. (See also sec. 264.)

Except as otherwise noted in these regulations, American seamen engaged on fishing or whaling vessels or yachts

are considered to have the same rights and to be under the same obligations as seamen on merchant vessels of the United States. (Secs. 189-190; 46 U.S.C. §§ 531, 544.)

A master of an American vessel is a seaman within the intent of the laws relating to discharge, wages, extra wages, relief, and transportation. (11 Op. Att. Gen. 458; 3 Sumn. 209.) In case of destitution abroad, he is entitled to the same relief and transportation as other American seamen.

The principles which are maintained by this Government in regard to the protection as distinguished from the relief of seamen, are well settled. It is held that the circumstance that the vessel is American is evidence that the seamen on board are also American, and that in every regularly documented merchant vessel, the crew will find their protection in the flag that covers them. (140 U.S. 453.)

When a seaman has been shipped in a port of the United States, a statement in the articles or in the seaman's continuous discharge book or certificate of identification that he is an American citizen is prima-facie evidence for the purposes of relief and protection that the seaman is, by birth or naturalization, a citizen. (10 C. Cls. 454.)

(b) *Crew.* The crew of a vessel—the ship's company—in a general sense, comprises all persons who, in pursuance of some contract or arrangement with the owner or master, are on board the same, aiding in the navigation thereof. (49 Fed. Rep. 287.) Every person having the command of any vessel belonging to any citizen of the United States shall be deemed to be the "master" thereof; and every person (apprentices excepted) who shall be employed or engaged to serve in any capacity on board the same shall be deemed and taken to be a "seaman". (46 U.S.C. § 713.)

200. *Authority of consular officers to discharge seamen.* A consular officer is authorized to discharge a seaman upon the application of the master of any vessel or upon the application of any seaman for his own discharge, if it appears to such officer that the seaman has completed his shipping agreement or is entitled to his discharge under any act of Congress or according to the general principles or usages of maritime law as recognized in the United States. (46 U.S.C. § 682.)

201. *Obligation of master to procure discharge by consular officer; penalty for not returning member of crew.* The master of every vessel bound on a foreign voyage or engaged in the whale fishery is required by law to exhibit the certified copy of the crew list to the first boarding officer at the first port in the United States at which he shall arrive on his return, and also to produce the persons named in the crew list. For each failure to produce any person on the certified copy of the crew list the master and owner of the vessel are severally liable to a penalty of \$400. However, the penalty is not incurred for failure to produce any person named in the crew list who has been discharged in a foreign country with the written consent of a consular officer, certified under his hand and official seal, to be produced to the collector with the other persons composing the crew, nor on account of any such person dying, absconding, or being forcibly impressed into other service, of which satisfactory proof shall also be exhibited to the collector of the port. (46 U.S.C. § 677.) The master cannot lawfully discharge a seaman in a foreign port without the intervention of the consular officer; and it is not material in such case that the discharge is made with the seaman's consent or that he has misconducted himself, or is not a citizen of the United States. (7 Op. Att. Gen. 349.) (See also sec. 218.)

Whoever, being master or commander of a vessel of the United States, while abroad, maliciously and without justifiable cause forces any officer or seaman of his vessel on shore in order to leave him behind in any foreign port or place, or refuses to bring home again all such officers and seamen of such vessel whom he carried out with him, as are in a condition to return and willing to return, when he is ready to proceed on his homeward voyage, shall be fined not more than \$500, or imprisoned not more than six months, or both. (18 U.S.C. § 486.)

202. *Cases in which seamen may be discharged.* The usual cases in which American seamen are discharged in a foreign port by consular officers, under the provisions of statute and the principles of maritime law, may be stated as follows:

(1) For misconduct of the seaman. (36 Fed. Rep. 442.) (See also secs. 204, 205.)

(2) On the sale of an American vessel abroad. (46 U.S.C. § 684.) (See also secs. 251, 252.)

(3) When the seaman has completed his shipping agreement. (46 U.S.C. §§ 682, 684.)

(4) Upon the complaint of the seaman that the voyage is continued contrary to agreement and the consular officer is satisfied that the voyage has been designedly and unnecessarily prolonged in violation of the article of shipment. (46 U.S.C. § 685.) (See also sec. 243b.)

(5) For cruel and unusual treatment. (46 U.S.C. §§ 703, 712.) (See also secs. 205, 243b.)

(6) After a report by inspectors that the vessel was sent to sea unsuitably provided in any important or essential particular, by neglect or design, and the consular officer approves such finding, and the crew, or any of them, request a discharge. However, if the inspectors report that, in their opinion, the difficulties or deficiencies found to exist have been the result of mistake or accident, and could not, in the exercise of ordinary care, have been known and provided against before the sailing of the vessel, and the master shall in a reasonable time remove or remedy the causes of complaint, the crew shall then remain and discharge their duty. (46 U.S.C. § 658.) (See also sec. 243c.)

(7) On account of illness or injury incapacitating the seaman for service. (46 U.S.C. § 683.) (See also sec. 207.)

(8) By mutual consent of master and seaman. (46 U.S.C. § 683.) (See also sec. 243a.)

(9) When the seaman is arrested and awaits trial for offense against local laws abroad or is imprisoned for such an offense, or is held as a witness; when also he is sent to the United States as a prisoner or witness.

(10) When a seaman is transferred to another vessel in a foreign port, or when he is promoted to be an officer of the vessel, or when an officer is disgraced to the grade of seaman, or when any member of the crew is disgraced. (9 Fed. Rep. 222; 290 Fed. Rep. 806.)

(12) When the master is superseded by the majority owners and a new master appointed (46 U.S.C. § 227), or when he is removed by the consular officer. This clause does not refer to the crew, who are not entitled to be discharged when the master is thus superseded or removed. (See sec. 208.)

(13) When the master fails to comply with the following provision of law:

"In all merchant vessels of the United States of more than one hundred tons gross, excepting those navigating rivers, harbors, lakes (other than Great Lakes), bays, sounds, bayous, and canals, exclusively, the licensed officers and sailors, coal passers, firemen, oilers, and water tenders shall, while at sea, be divided into at least three watches, which shall be kept on duty successively for the performance of ordinary work incident to the sailing and management of the vessel. The seamen shall not be shipped to work alternately in the fireroom and on deck, nor shall those shipped for deck duty be required to work in the fireroom, or vice versa; nor shall any licensed officer or seamen in the deck or engine department be required to work more than eight hours in one day; but these provisions shall not limit either the authority of the master or other officer or the obedience of the seamen when in the judgment of the master or other officer the whole or any part of the crew are needed for maneuvering, shifting berth, mooring, or unmooring, the vessel or the performance of work necessary for the safety of the vessel, her passengers, crew, and cargo, or for the saving of life aboard other vessels in jeopardy, or when in port or at sea, from requiring the whole or any part of the crew to participate in the performance of fire, lifeboat, or other drills. While such vessel is in a safe harbor no seaman shall be required to do any unnecessary work on Sundays or the following-named days: New Year's Day, the Fourth of July, Labor Day, Thanksgiving Day, and Christmas Day, but this shall not prevent the dispatch of a vessel on regular schedule or when ready to proceed on her voyage. And at all times while such vessel is in a safe harbor, eight hours, inclusive of the anchor watch, shall constitute a day's work. Whenever the master of any vessel shall fail to comply with this section and the regulation issued thereunder, the owner shall be liable to a penalty not to exceed \$500, and the seamen shall be entitled to discharge from such vessel and to receive the wages earned. But this section shall not apply to vessels engaged in salvage operations: Provided, That in all tugs and barges subject to this section when engaged on a voyage of less than six hundred miles, the licensed officers and members of crews other than coal pass-

ers, firemen, oilers, and water tenders may, while at sea, be divided into not less than two watches, but nothing in this proviso shall be construed as repealing any part of section 4463 of the Revised Statutes." (46 U.S.C. Supp. § 673.)

203. *Records regarding discharge.* Upon the discharge of any seaman in a foreign port, the master shall make the proper entries in the continuous discharge book and on the ship's articles [sec. 194], and such entries shall be attested to by the consular officer. If the seaman possesses a certificate of identification the master of the vessel shall issue to the seaman a certificate of discharge on Commerce form 718-A and make the required entries therein which shall be attested by the consular officer. If the seaman has lost his continuous discharge book or certificate of identification, the master shall furnish him with a temporary certificate of discharge, Commerce form 719-A, attested to by the consular officer and note this fact on the articles. (2 F.R. 706.)

Consular form no. 17, certificate of discharge of seamen to be attached to crew list and shipping articles, shall be executed by the consular officer and fastened securely to the crew list and shipping articles.

204. *Discharge without consent of seamen.* It is the general policy of the laws of the United States to discountenance the discharge of seamen in a foreign port. (Fed. Cas. 5244, 10262.)

When the application for the discharge of a seaman is made by the master, it is the duty of the consular officer to inquire carefully into the facts and circumstances, and to satisfy himself that good and substantial reasons exist for a discharge before granting the application. (59 Fed. Rep. 790; 299 Fed. Rep. 977.)

A seaman is not to be discharged for slight or venial offenses, nor for a single offense, unless of a very aggravated character. If the seaman is charged with insubordination, it should satisfactorily appear that he is incorrigibly disobedient and will not submit to his duty, and that he persists in such conduct. Gross dishonesty, habitual drunkenness, and a disposition to instigate broils and quarrels to the destruction of the discipline of the crew have been held to be sufficient ground for discharge. But it is otherwise if the offense is temporary, and if the offender is repentant and is willing to change his conduct and return

to duty. (Fed. Cas. 3234, 6955; 22 Fed. Rep. 927; 36 Fed. Rep. 442.)

205. *Discharge for misconduct or incompetence.* Generally, the grounds on which a seaman may be discharged, when insubordination or bad conduct is alleged, are such as amount to a disqualification and show him to be an unsafe or unfit man to have on board a vessel. (Fed. Cas. 13117.) The consular officer must be satisfied that the officer or seaman is incompetent to perform the work he has contracted to do, or that he has been guilty of such acts of insubordination as to make him dangerous to a man of ordinary firmness, or that his habitual misconduct (such as drunkenness, for instance) amounts to unfitness for duty, or, if an officer, that he has been guilty of habitual cruelty. Except for good reasons and in extraordinary circumstances, seamen should not be discharged at a foreign port when the vessel is homeward bound.

206. *Discharge for cruel or unusual treatment.* In all cases where complaint is made by a seaman of cruel or unusual treatment, the consular officer shall inquire into the facts and upon his being satisfied as to the truth and justice of the complaint, he may discharge the seaman and shall require the master to pay to such seaman one month's wages over and above the wages due at the time of discharge, and to provide him with adequate employment on board some other vessel, or provide him with a passage on board some other vessel bound to the port from which the seaman was originally shipped, or to the most convenient port of entry in the United States, or to a port agreed to by the seaman. (46 U.S.C. § 685.) The officer discharging said seaman shall enter upon the ship's articles, crew list, and official log, the cause of such discharge and the particulars in which the cruel or unusual treatment consisted and subscribe his name thereto officially. He shall read the entry made in the official log to the master, and the master's reply thereto, if any, shall likewise be entered and subscribed in the same manner. (46 U.S.C. § 703.)

In all cases where a seaman has been charged with desertion and the circumstances claimed by the master to establish the desertion are later found to be the result of cruel or unusual treatment of the seaman, the consular officer should take action as directed in the preceding paragraph. If such action is not possible, he should supply the facts in the case to

the consular officer at the next port at which the vessel is scheduled to arrive and to the Department for transmission through the Department of Commerce to the shipping commissioner. The rights of the seaman are not dependent upon the fact he has deserted, but upon the treatment he has received. (Sec. 294.)

207. *Discharge for illness or injury.* Whenever a seaman is discharged on account of illness or injury incapacitating him for service, the expenses of his maintenance and return to the United States shall be paid from the fund for the maintenance and transportation of destitute American seamen. At the discretion of the Secretary of Commerce, and under such regulations as he may prescribe, if any seaman incapacitated for service by injury or illness is on board a vessel so situated that a prompt discharge requiring a personal appearance of the master of the vessel before an American consular officer is impracticable, such seaman may be sent to a consular officer who shall care for him and defray the cost of his maintenance and transportation. (46 U.S.C. § 683.)

208. *Change or removal of master. (a) By owners.* Any person or body corporate having more than one-half ownership of any vessel shall have the same power to remove a master, who is also part owner of such vessel, as such majority owners have to remove a master who is not an owner. This provision does not apply where there is a valid written agreement subsisting, by virtue of which the master would be entitled to possession. (46 U.S.C. § 227.) Consular officers are occasionally called upon to assist in the removal of a master under this statute. They will not hesitate to lend their services under such circumstances, but it is desirable for their own protection that they should satisfy themselves that the parties applying to them are duly authorized for the purpose. It is advisable, also, if there is time to do so, to refer the case to the Department of State for instructions.

(b) *By consular officer.* The removal of a master, without prior authorization of the owners of the vessel as prescribed by the preceding paragraph, should not be effected except where the emergency is so great that action must be taken before such authorization can be procured by telegraph. If the master is seriously ill or is disabled by a permanent injury, the consular officer may remove him, although any action in this regard should

ordinarily be undertaken with the consent of the master or of the owners. Other instances which may call for the removal of the master and the appointment of another to complete the voyage include the insanity of the master, his gross incompetency endangering the lives of the passengers or crew, his misconduct or collusion with others to the serious injury of the owners or insurers, or when he has been guilty of flagrant abuse of passengers or crew. However, the grave responsibility attaching to the exercise of this extreme power will suggest to consular officers that any final action should be taken only after careful deliberation and for good and sufficient cause, and, insofar as possible, after receiving authorization either directly from the owners of the vessel or a majority thereof or their agents, or through the Department of State. Any action that may be taken by consular officers in connection with the removal of masters of vessels should be reported promptly and fully to the Department of State.

4. Sections 58, 196 to 198, inclusive, 209 to 217, inclusive, and 254 of the Consular Regulations are canceled.

any gas liberated from petroleum in the process of refining.

SECTION 6. The term "pipe line" shall include every line of pipe, however constructed and regardless of length, and all receiving, storage and delivery tanks and facilities used in the operation thereof, by which petroleum or any petroleum product is transported, regardless of whether or not such line of pipe is owned, in whole or in part, by the person producing, refining, processing, manufacturing, purchasing, cleansing, or marketing such petroleum or such petroleum product, or by any or all such persons jointly, or by any other person or combination of persons, except that the term "pipe line" shall not include any line from a well to lease storage, or any line used in actual plant operations, and not used in the receipt or delivery of petroleum or petroleum products. The terms "pipe line system" and "gathering system" are included within the term "pipe line".

SECTION 7. The term "transporting agency" shall include railroads, pipe lines, gathering systems, tankers, barges, trucks, or any other means of conveyance used for transporting petroleum or petroleum products.

SECTION 8. The term "storer" shall include every person who places petroleum or any petroleum product in any receptacle and keeps the same in any such receptacle for any period of time longer than is usually required in the ordinary conduct of business to move the same currently into the channels of trade and commerce; but excluding the ordinary working stocks of refiners and transporters by pipe line.

SECTION 9. The term "petroleum" when used singly and separate and apart from "product" shall include petroleum in its crude form, and the terms "product (or products) of petroleum" or "petroleum product (or products)" shall include any article produced or derived in whole or in part from petroleum or any product thereof by refining, processing, manufacturing or otherwise. Whenever natural gas is produced in conjunction or coincidentally with petroleum, such natural gas and all products derived therefrom shall be considered petroleum products. The terms "oil", "crude oil", and "crude petroleum" shall be considered synonymous with petroleum in these regulations.

SECTION 10. The term "barrel of petroleum" means 42 United States gallons

of petroleum measured and calculated to net or gross quantities in accordance with the regulations of the State authorities in force at the point of production, or in the absence of such regulations, measured and calculated in the manner generally in use in the industry at such point of production. The term "barrel" as used otherwise in these regulations shall mean 42 United States gallons of the article referred to.

SECTION 11. The term "contraband oil" means petroleum which, or any constituent part of which, was produced, transported, or withdrawn from storage in excess of the amounts permitted to be produced, transported, or withdrawn from storage under the laws of a State or under any regulation or order prescribed thereunder by any board, commission, officer, or other duly authorized agency of such State, or any of the products of such petroleum.

SECTION 12. The term "interstate commerce" means commerce between any point in a State and any point outside thereof, or between points within the same State but through any place outside thereof, or from any place in the United States to a foreign country, but only in so far as such commerce takes place within the United States.

#### *Regulation II*

The Secretary of the Interior shall, whenever the facts in any area render it necessary or appropriate for the enforcement of the provisions of said Act, designate such area (hereinafter sometimes referred to as "designated area") and shall establish a Board or Boards to issue certificates of clearance in accordance with the provisions of said Act. He shall establish such further regulations as may be necessary or appropriate in order to enforce the provisions of the said Act in any such area.

#### *Regulation III*

No person shall ship or transport in interstate commerce from any designated area petroleum or petroleum products unless a certificate of clearance covering such petroleum or petroleum products has been issued in conformity with the provisions of this Order.

No person shall ship or transport from any designated area petroleum or petroleum products not covered by a certificate of clearance if such petroleum or petroleum products are commingled with petroleum or petroleum products all or

part of which are to be shipped or transported in interstate commerce.

Whenever petroleum or petroleum products shall be shipped or transported from any designated area without a certificate of clearance first having been issued therefor, no person shall ship, re-ship or transport in or divert into interstate commerce such petroleum or petroleum products, in whole or in part, or any petroleum or petroleum products commingled therewith unless a certificate of clearance covering such petroleum or petroleum products has been issued therefor.

The provisions of this Order shall apply to petroleum and petroleum products transported in interstate commerce in railroad engine tenders, in fuel or other tanks of automotive vehicles, or in vessels of all kinds whether as part of the cargoes or for consumption.

The certificates of clearance hereinabove referred to shall be known as "Tenders".

#### *Regulation IV*

Each Board established in accordance with Regulation II, hereinafter referred to as "Boards", shall consist of one or more persons who shall be appointed from time to time by the Secretary of the Interior and who shall serve at his pleasure. Whenever any Board consists of more than one person, such Board may designate one or more of its members to act for the Board. Each Board is charged with the duty of hearing and investigating all applications for Tenders prescribed by this Order and of determining as a matter of fact whether the petroleum and petroleum products for which a Tender is requested do or do not constitute contraband oil. In the case of applications for Tenders covering petroleum or petroleum products not produced, refined, processed or manufactured on the date application is made, each Board is charged with the duty of determining whether or not facts have been presented showing that the petroleum or petroleum products to be transported will or will not constitute contraband oil as above defined if the terms of the application are fulfilled. Each Board is further charged with the duty of approving such applications for Tenders if it finds that the petroleum or petroleum products are not or will not constitute contraband oil. No Tender shall be approved until application for approval has been presented on a form approved

by the Secretary of the Interior, nor unless the reports hereinafter required have been made and are in order, nor until complete information has been furnished by the applicant enabling the Board to calculate and ascertain the true facts concerning the petroleum or petroleum products covered by the application. Denial of any such Tender shall be by order of the Board, and only after reasonable opportunity for hearing.

Production of books and records of the applicant relative to an application for a Tender may be required by any Board for inspection before approval thereof, and any Board may require the submission of specific information relative to an application in the form of sworn statements or otherwise, and may itself or through its agents examine any properties and facilities which it deems may afford information necessary to pass upon an application.

Each Board is authorized to make regulations governing its procedure. The members of each Board shall have power to administer oaths or affirmations. No Tender shall be approved except after hearing held not less than twelve hours subsequent to the filing of the application therefor and after notice has been given by posting a brief description of the application on a bulletin board at or near the place of hearing. Each Board is authorized, in cases of emergency, to waive any of the formal requirements of this Order, provided that the substance thereof is maintained, and provided that public notice of such waiver be given and be recorded at the next succeeding hearing held by the Board.

#### *Regulation V*

An application for approval of a Tender may be made to a Board where the ultimate destination of the movement of petroleum or petroleum products is unknown at the time of application, and application for approval of a Tender may further be made at the option of the applicant, even though the immediate movement of the petroleum or petroleum products is intrastate, if the applicant contemplates that in the future such petroleum or petroleum products, or products derived from such petroleum or petroleum products will be moved in interstate or foreign commerce.

#### *Regulation VI*

Where application is made for approval of a Tender covering petroleum

commingled with petroleum which is not shown to have been produced, transported or withdrawn from storage within the amounts permitted by State law, or regulations or orders prescribed thereunder, such Tender shall not be approved, nor shall a Tender covering any product of such commingled petroleum be approved; and where application is made for approval of a Tender covering any petroleum product commingled with a petroleum product derived from petroleum which is not shown to have been produced, transported or withdrawn from storage within the amounts permitted by State law, or regulations or orders prescribed thereunder, or commingled with petroleum which is not shown to have been so produced, transported or withdrawn from storage, such Tender shall not be approved.

#### *Regulation VII*

Any person transporting petroleum or any petroleum product covered by a Tender shall endorse on the back of such Tender a sworn return showing the quantity of petroleum or petroleum products actually transported, using the form on the reverse side of the copies designated "Tender Original" and "Tender Return" for this purpose and shall deliver in person or by mail the copy designated "Tender Return" to the Board issuing the Tender. Said delivery in the case of pipe lines shall be made within ten days, and in the case of other transporting agencies, within two days after the date of the last shipment made under said Tender, or within the same periods of time after the expiration of the Tender, whichever event first occurs. Said return shall be signed and sworn to by a duly authorized agent of the pipe line or other transporting agency.

#### *Regulation VIII*

The first transporting agency, other than a pipe line, transporting petroleum or petroleum products from any designated area in interstate commerce shall stamp on the shipping papers the following: "This shipment is covered by Tender No. \_\_\_\_\_, issued by \_\_\_\_\_ on the \_\_\_\_ day of \_\_\_\_\_, 19\_\_" (the number, the title of the Board and the date shall be filled in to identify the Tender). Pipe lines shall, in lieu of such stamp on the shipping papers, notify the consignee in writing within three days after the date of delivery to such consignee of the date, the title of the Board, the number

of the Tender and the amount and kind of petroleum or petroleum products delivered thereunder. No person transporting petroleum or any petroleum product shall receive any more of the commodity than is covered by the Tender, and no such person shall receive any different commodity than is described therein.

#### *Regulation IX*

Every transporting agency, other than a pipe line, transporting petroleum or any petroleum product from any designated area to a destination within the same State, which petroleum or petroleum product is not covered by a Tender, shall stamp on the shipping papers a notation that the petroleum or petroleum product was transported from the designated area and that said petroleum or petroleum product and any petroleum or petroleum product commingled therewith may not be shipped, reshipped or transported in or diverted into interstate commerce unless an approved Tender shall first be obtained. Such notation shall appear on the shipping papers covering every subsequent shipment of such petroleum or petroleum product within the State. Every pipe line transporting petroleum or any petroleum product from any designated area to a destination within the same State, which petroleum or petroleum product is not covered by a Tender, shall notify in writing the consignee at or before the time of delivery to him that said petroleum or petroleum product was transported from the designated area, and that said petroleum or petroleum product and any petroleum or petroleum product commingled therewith may not be shipped, reshipped or transported in or diverted into interstate commerce unless an approved Tender shall first be obtained.

#### *Regulation X*

All persons producing, refining, processing, manufacturing, transporting, withdrawing from storage or otherwise handling petroleum or any petroleum product in any designated area shall permit any person or persons authorized by me or by any Board to enter upon their properties, plants and facilities, and to examine all the books and records kept or required to be kept in accordance with this Order, and all other books, papers, records, vouchers, run-tickets, bills of lading, way bills, charges, memoranda or other documents which are used by them in connection with produc-

ing, refining, processing, manufacturing, transporting, withdrawing from storage or otherwise handling petroleum or any petroleum product, and to inspect such plants, facilities and properties, and to gauge tanks, and to examine wells, pipe lines, gathering systems, flow lines, pipe connections, storage tanks, loading racks, separators, pumps, meters or other measuring devices, and any other equipment or instruments.

#### *Regulation XI*

Every producer and refiner in any designated area shall accurately gauge and measure all petroleum and petroleum products before any part thereof leaves his possession or control. No means or device which prevents or hinders such accurate measurement shall be used. Complete and accurate records of all such measurements shall be kept up to date and preserved, and shall be open to the inspection of any person authorized by me or by any Board.

#### EXECUTIVE ORDER 7758

##### CONSTITUTING DESIGNATED AREA, AND ESTABLISHING FEDERAL TENDER BOARD NO. 1

By virtue of and pursuant to the authority vested in me by the Act of Congress entitled "An Act To regulate interstate and foreign commerce in petroleum and its products by prohibiting the shipment in such commerce of petroleum and its products produced in violation of State law, and for other purposes", approved February 22, 1935, (49 Stat. 30), as amended by the Act of June 14, 1937, (Public No. 145—75th Congress, 1st Session), hereinafter referred to as said Act, and the Executive Order of the President of the United States, No. 6979, of February 28, 1935, and Executive Order No. 7756, this date promulgated; and

WHEREAS, when, by Executive Order No. 6980-C approved March 1, 1935, I designated the area known as the East Texas Field and appointed Federal Tender Board No. 1 for the purpose of issuing certificates of clearance for said Field and administering the regulations prescribed under said Act, I found that large quantities of contraband oil were originating in and being shipped and transported in interstate commerce from said Field; that actual production of petroleum in said Field was in excess of the amounts permitted to be produced under the Laws of the State of Texas and under the regulations and orders prescribed thereunder by the Railroad Commission of Texas, a substantial part of which moved in interstate commerce; that large quantities of contraband oil, a substantial part of which was available immediately for interstate transportation, were actually situated in said Field; and that various devices and operations had been and were being used in said Field to obstruct the enforcement of the Conservation Laws of the State of Texas and the orders thereunder of the Railroad Commission of Texas, all of which resulted in conditions which were wasteful and conducive to a decreased ultimate recovery of oil from said Field; and

WHEREAS, I find the operations of said Board in said Field have assisted materially in the enforcement of the Conservation Laws of the State of Texas and the orders thereunder of the Railroad Commission of Texas, have prevented the movement of contraband oil from said Field in interstate commerce, and have aided materially in the establishment of conditions which will result in a material increase in the ultimate recovery of petroleum from said Field, the benefit of which will accrue to the interest of the public, the State of Texas, and the United States of America; and

WHEREAS, I find that the potential production of petroleum in said East Texas Field continues to be and is at this time greatly in excess of the production currently permitted by the Conservation Laws of the State of Texas and the orders thereunder of the Railroad Commission of Texas; that the actual production of petroleum in said East Texas Field is approximately fourteen per cent of the total actual production of petroleum in the United States and is equal approximately to the aggregate production of the States of Kansas, Louisiana and New Mexico; that the estimated reserve of recoverable petroleum in said Field comprises approximately one-fourth of the estimated reserves of recoverable petroleum from all of the presently known fields of the United States; that there are in said Field more than 22,000 oil wells, a substantial proportion of which are capable of producing at this time quantities of petroleum greatly in excess of the amounts currently allowed to be produced by the Conservation Laws of the State of Texas and the orders thereunder of the Railroad Commission of Texas; that there is in said Field equipment, including numerous refineries, reclamation plants, casinghead gasoline plants, gathering systems, storage facilities, field and trunk pipe lines, loading racks, railroads, and tank trucks, which would make possible the immediate shipment in interstate commerce of quantities of petroleum and petroleum products greatly in excess of the quantity of petroleum currently allowed to be produced by the Conservation Laws of the State of Texas and the orders thereunder of the Railroad Commission of Texas; that such production in violation of said State Laws and orders would result in a material loss and wasteful use of the reservoir energy in said Field and in a substantial decrease in the amount

of petroleum ultimately to be recovered from said Field, to the detriment of the public, the State of Texas and the United States of America; that there is actually situated in said Field at this time large quantities of contraband oil, a substantial part of which is available immediately for transportation in interstate and foreign commerce; and that bypasses and other devices and operations that have been used to obstruct the enforcement of the Conservation Laws of the State of Texas and the orders thereunder of the Railroad Commission of Texas could again be used immediately in the violation of said State Laws and Orders; and

WHEREAS, I found that it was necessary and appropriate for the enforcement of the provisions of said Act to require certificates of clearance for petroleum and petroleum products moving or to be moved in interstate commerce from said East Texas Field and to establish a Board for the issuance of such certificates, I now find that it is necessary and appropriate to continue to require certificates of clearance for petroleum and petroleum products moving or to be moved in interstate commerce from said East Texas Field and to continue to maintain a Board for the issuance of such certificates;

NOW, THEREFORE, it is ordered:

#### Article I

That part of the State of Texas included within the Counties of Gregg, Upshur, Smith, Rusk, and that part of Cherokee County covered by the Miguel de los Santos Coy, Pratt and Wesley Dikes Surveys (to be known as the East Texas Field) is hereby constituted a designated area within the meaning of Regulation II of Executive Order No. 7757, and the regulations prescribed by said Order shall apply to all petroleum and petroleum products in or from said area and to all persons producing, refining, processing, manufacturing, storing, shipping or transporting petroleum or petroleum products in or from said area.

#### Article II

I hereby establish a Board to be known as Federal Tender Board No. 1, for the purpose of issuing certificates of clearance for such area under said Act and administering the regulations prescribed under said Act. Such Board shall consist of one or more persons who shall be appointed by the Secretary of the In-

terior and shall serve at his pleasure. The principal office of Federal Tender Board No. 1 shall be located at Kilgore, Texas.

#### Article III

Applications to Federal Tender Board No. 1 for certificates of clearance, supporting affidavits for said applications, and returns relative thereto shall be made on forms in accordance with instructions prescribed and approved by the Secretary of the Interior and appearing thereon.

#### Article IV

Monthly reports by refineries, reclamation plants, casinghead gasoline plants, pipe lines and producers operating in the East Texas Field shall be made on forms in accordance with instructions prescribed and approved by the Secretary of the Interior and appearing thereon.

#### Article V

The operation of this order shall be immediately effective.

Approved, prescribed and promulgated this 6th day of October, 1937.

#### AMENDMENT OF EXECUTIVE ORDER NO. 6928 OF DECEMBER 24, 1934, AS AMENDED

By virtue of and pursuant to the authority vested in me by the act of March 26, 1934, ch. 87, 48 Stat. 466, as amended by the act of August 14, 1937, Public No. 287—75th Congress, paragraphs (d) and (e) of section 3 of Executive Order No. 6928 of December 24, 1934, as amended by Executive Order No. 7312 of March 9, 1936, prescribing regulations for payment of losses sustained by officers, enlisted men, and employees of the United States in foreign countries on account of appreciation of foreign currencies in their relation to the American dollar, are hereby amended to read as follows:

“(d) In case of a foreign country in which the loss cannot be calculated on the basis of conversion into the currency of that country but, in consequence of local law or regulation, is required to be calculated on the basis of the appreciation in relation to the dollar of a noncirculating monetary unit in which prices of commodities and services are quoted but not payable—the dollar itself being used in payment therefor—the loss is authorized to be computed on that basis. In case the currency in circulation in a particular province or distinct portion of a foreign country is different from the currency in circulation elsewhere in that country, for which a basic rate is herein prescribed, the exchange losses for such portion of the country may nevertheless be computed upon the basic rate prescribed for the country as a whole.

“(e) In case of employees employed in or on assignment or detail to posts in countries having local laws and regulations preventing or limiting, subsequent to April 1, 1934, conversion of local currency into foreign exchange, their net salary and net allowances while they are at their post of duty in such country may be converted in a country other than that in which they are stationed and the losses so sustained since April 1, 1934,

or hereafter sustained thereon, shall be reimbursed, but in no case in an amount greater than would have been reimbursable had the net salary and net allowances been converted at the post of duty: *Provided*, that if in any country having such laws and regulations, the rate at which foreign currencies may be exchanged into the local currency is fixed on the basis of the currency of a third country, the appreciation loss on net salary and net allowances, regardless of conversion, may be reimbursed in an amount that would have been reimbursable had net salary and net allowances been converted in the third country the currency of which is used as the basis for the rate at which foreign currencies may be exchanged into the currency of the country in which stationed."

The foregoing amendment of section 3(d) shall be effective as of July 1, 1933, and the amendment of section 3(e) shall be effective as of February 1, 1936.

##### DOCUMENTS REQUIRED OF BONA FIDE ALIEN SEAMEN ENTERING THE UNITED STATES

By virtue of and pursuant to the authority vested in me by the act of May 22, 1918, 40 Stat. 559, as extended by the act of March 2, 1921, 41 Stat. 1205, 1217, I hereby prescribe the following regulations governing the entry of alien seamen into the United States:

##### I

Seamen whose occupational status as such is found to be bona fide, entering the ports of the United States solely in the pursuit of their calling as seamen, may be admitted temporarily in the discretion of the Secretary of Labor and under regulations prescribed by the Secretary without passports or visas if arriving in the United States under the following circumstances:

(a) Seamen who were members of the crew of an American vessel which has been sold and delivered abroad, when the contract of employment provides for the return of the crew or the laws of the United States provide for their return to an American port.

(b) Seamen returned to the United States in accordance with the terms of the articles of outward voyage.

(c) Shipwrecked or cast-away seamen rescued by or transferred to a vessel bound to an American port.

(d) Seamen who are American consular passengers, or are repatriated without expense to the United States Government following and in accordance with the terms of their discharge in a foreign port before an American consular officer, but who, for any reason, cannot be considered as serving as seamen on the vessel on which they arrive at an American port.

(e) Seamen arriving in the United States, sent forward by the owners to join a foreign vessel as members of the crew.

##### II

Masters of maritime vessels (except government vessels and such other vessels as the Secretary of State, in his discretion, may indicate) of all nationalities sailing for a port of the United States must submit for visa a list of all the alien members of the vessel's crew to the American consular officer at the port from which the vessel commences its voyage. If there is no consular officer stationed at that port, but there is one stationed at a nearby place to whom the list may be submitted by mail for visa without delay of the vessel's departure, the list must be so submitted for visa. If there is no consular officer stationed nearby the list must be submitted for visa at the first port of call where a consular officer is stationed but if the vessel does not call at any such port then no visa of the crew list will be required. The visa of a shipping commissioner in the Canal Zone shall be equivalent to the visa of an American consular officer, but consular agents are not authorized to visa crew lists. The visaed crew list must be delivered to the immigration authorities at the vessel's first port of call in the United States.

Alien seamen whose names are not on a visaed crew list when a visaed crew list is required of the vessel on which they arrive at a port of the United States shall not be allowed to land without the permission of the Secretary of State, except that for such seamen arriving at a port in the Virgin Islands the Governor thereof is authorized to grant such permission.

As used in this order, the term "United States" shall include the Territories of Alaska and Hawaii, the District of Columbia, Puerto Rico, and the Virgin Islands.

The Secretary of State and the Secretary of Labor are hereby authorized to make such additional rules and regula-

tions, not inconsistent with this order, as may be deemed necessary for carrying out the provisions of this order and the statutes mentioned therein.

This order shall take effect immediately and shall supersede Executive Order No. 6722 of May 26, 1934, entitled "Documents Required of Bona Fide Alien Seamen Entering the United States."

#### *Part II. General Provisions*

SEC. 2. Permanent employees who have been employed continuously for one year or more and who do not contemplate leaving the service during the current calendar year shall be entitled to current annual leave with pay at any time during such calendar year not in excess of 26 days. In addition to current annual leave such employees may be granted accumulated leave not to exceed 60 days.

SEC. 3. Leave shall be granted at such time or times as may be deemed to be in the public interest.

SEC. 4. (a) Unaccrued leave shall be granted only with the express understanding that if such leave is not later earned during the calendar year, deductions will be made for the unearned portion from any salary due the employee, or from any deductions in the retirement fund to the credit of the employee.

(b) In cases of separations where employees are indebted to the Government for advanced annual leave such indebtedness shall be charged against the employee on the basis of the salary rate obtaining during the period of advanced annual leave and on the basis of one day's pay for each day of absence, exclusive of Sundays and holidays. Absences for fractional parts of a day will be charged proportionately. This provision shall not apply in cases of death, retirement for age or disability, reduction of force, or when an employee who is not eligible for retirement is unable to return to duty because of disability, evidence of which shall be supported by an acceptable certificate from a registered practicing physician or other practitioner.

SEC. 5. Employees, other than temporary, entering the service by original appointment or by reinstatement shall be entitled to annual leave with pay accruing at the rate of  $2\frac{1}{6}$  days for each month of service rendered until the completion of one year's service. Emergency and indefinite employees shall be entitled to annual leave with pay accruing at the rate of  $2\frac{1}{6}$  days per month for each month of service, and may in addition thereto be granted accumulated leave.

SEC. 6. An employee transferred or reappointed without break in service from one permanent position to another permanent position within the same or a different governmental agency shall at

the time of the transfer be credited with such accumulated and current accrued leave as may be due him, or charged with any unaccrued leave which may have been advanced. "Break in service" means separation from the service for a period of one or more work days.

SEC. 7. An employee voluntarily separated from the service without prejudice during any calendar year shall be entitled to all of his accumulated leave plus his current accrued leave to and including the date of separation.

SEC. 8. An employee who is involuntarily separated from the service other than for cause due to his own misconduct shall be entitled to all of his accumulated leave and current accrued leave, and the date of his discharge shall be fixed so as to permit him to take such leave. The date of discharge of an employee separated from the service for cause due to his own misconduct may, within the discretion of the administrative office concerned, be fixed so as to permit the allowance of all or any part of accumulated leave and current accrued leave.

SEC. 9. Leave without pay shall not be granted until all accumulated leave and current accrued leave allowable under these regulations is exhausted, except that employees injured in line of duty may take leave without pay, if desired, covering their absence due to such injury instead of covering such time by annual leave; and during absence because of such injury and while being paid by the Employees' Compensation Commission, employees shall continue to earn leave, which shall, however, be granted only in the event of their return to actual duty.

SEC. 10. Annual leave shall accrue to an employee while in a leave-with-pay status. Except as provided in section 9 hereof, annual leave shall not accrue to an employee while in a non-pay status due to leave without pay or furlough when the duration of such non-pay status in any calendar year aggregates 30 days or more: *Provided*, that when the duration of such non-pay status is in excess of 30 days in any calendar year, such excess shall affect the accrual of annual leave only when it aggregates 10 days, and likewise for each aggregate period of 10 days thereafter.

SEC. 11. Except in the case of temporary employees, Sundays and holidays occurring within a period of annual leave shall not be charged as annual

leave: *Provided*, that in the case of employees whose terms or conditions of employment require that they regularly work on a Sunday or a holiday and be off duty on another day of the week in lieu thereof, the Sunday or holiday occurring within a period of annual leave shall be charged as annual leave and the lieu day shall not be so charged. The word "holidays" as used herein means all days declared or recognized by Federal statute as holidays, all days specifically declared holidays by Executive Order, and all days on which the departments and establishments are closed by Executive Order, but does not include non-work days established by administrative order, or days on which, by Executive Order or administrative order, certain classes of employees are merely excused from work.

Sec. 12. The minimum charge for annual leave shall be 15 minutes, and additional leave shall be charged in like multiples. Annual leave granted for less than one day shall be charged in the ratio that the amount of annual leave granted bears to the number of work hours of the regular work day prevailing in the agency concerned. For the purposes of this section, Saturdays and part holidays shall not be considered regular work days, except as may be required under section 11 hereof.

Sec. 13. Annual leave shall not be granted with pay at the beginning of a calendar year immediately following a period of absence in a non-pay status in the preceding year unless and until there is a return to duty, at which time leave may be retroactively granted. Leave without pay under any other circumstances may not later be converted into annual leave.

Sec. 14. Temporary employees shall be granted  $2\frac{1}{2}$  days leave for each full month of service, and Sundays and holidays occurring within a period of annual leave shall be charged as annual leave. After the first month of service such leave may be credited at the beginning of the month in which it accrues.

Sec. 15. Temporary employees who subsequently receive permanent or probational appointments in the same department without break in service shall be entitled to  $2\frac{1}{2}$  days annual leave for each full month of service to the date of permanent appointment and thereafter at the rate of  $2\frac{1}{6}$  days per month.

Sec. 16. Nothing in these regulations shall be construed to prevent the con-

tinuance of any leave differential existing prior to January 1, 1936, for the benefit of employees of the Federal Government stationed without the continental limits of the United States. However, any department may, if it so desires, apply these regulations to employees stationed without the continental limits of the United States, subject to the continuance of such leave differential.

Sec. 17. The annual leave authorized by these regulations shall, except as to temporary employees, be recorded and administered on a calendar-year basis.

Sec. 18. The heads or governing bodies of the various governmental agencies to which this Executive Order applies shall be responsible for the proper administration of these regulations in so far as they pertain to the granting of annual leave to employees under their respective jurisdictions; and they may, within the limits authorized by law, issue such regulations as are not inconsistent with these regulations.

#### *Part III. Employees Excepted*

Sec. 19. These regulations shall not apply to:

(a) Teachers and Librarians of the public schools of the District of Columbia.

(b) Officers and employees of the Panama Canal and Panama Railroad on the Isthmus of Panama.

(c) Temporary employees engaged on construction work at hourly rates.

(d) The Postmaster General and officers and employees in or under the Post Office Department, except those serving in the departmental service and in the Mail Equipment Shops.

(e) Persons paid security or prevailing wages from funds allocated by the Works Progress Administration on state, municipal, or other public but non-Federal projects, or on a Federal project: *Provided*, that annual leave shall be granted in accordance with these regulations to employees in the central office of the Works Progress Administration in the District of Columbia and at district and local headquarters, and to other employees in administrative or clerical positions who receive other than security or prevailing wages, as prescribed in Executive Orders.

(f) Employees not required to be continuously employed during regular tour of duty, such as: (1) per diem or per hour employees engaged in an emergency who may be employed for more

than one 7- or 8-hour shift within 24 hours during the emergency; (2) part-time or intermittent employees; (3) persons engaged under contract; (4) employees engaged temporarily for less than a month on a piece-price basis; (5) employees who are paid at hourly rates but who are not engaged on construction work, such as mechanics, skilled laborers, and others engaged in various services on maintenance, repair, clean-up work, etc., where employment is more or less intermittent and not on a regular and continuous basis; and (6) employees paid on a fee basis, such as physicians, surgeons, and other consultants.

*Part IV. Ratification: Revocation:  
Effective Date*

SEC. 20. All temporary regulations issued by the heads of the various departments and independent establishments under authority of Executive Order No. 7321 of March 21, 1936, are hereby ratified. All such temporary regulations and all other regulations relating to the granting of annual leave are hereby revoked in so far as they are inconsistent with these regulations.

SEC. 21. This order shall be effective as of January 1, 1938, and shall, as of that date, supersede Executive Order No. 7409 of July 9, 1936, prescribing regulations relating to annual leave of government employees.

SEC. 22. This order shall be published in the *FEDERAL REGISTER*.

THE WHITE HOUSE,  
March 21, 1938.

**EXECUTIVE ORDER 7846**

**PRESCRIBING REGULATIONS RELATING TO  
SICK LEAVE OF GOVERNMENT EMPLOYEES**

By virtue of and pursuant to the authority vested in me by section 7 of the act of March 14, 1936, entitled "An Act to standardize sick leave and extend it to all civilian employees" (49 Stat. 1162), I hereby prescribe the following regulations governing the granting of sick leave to civilian officers and employees of the United States, the District of Columbia, and all corporations included within the provision of section 6 of the said act, except as provided in PART III hereof:

*Part I. Definitions*

SEC. 1. As used in these regulations "employee" and "employees" shall include:

(a) Officer and officers, respectively.

(b) Permanent employees—those appointed without limitation as to length of service or for definite periods in excess of six months.

(c) Temporary employees—those appointed for definite periods of time not exceeding six months.

(d) Emergency employees—those whose compensation is paid from emergency funds and whose tenure of appointment is limited to the period for which the emergency funds are available.

(e) Indefinite employees—those appointed for the "duration of the job" and those who, although paid only when actually employed, are continuously employed or required to be available for duty for a period of not less than one month, as distinguished from part-time or intermittent employees.

*Part II. General Provisions*

SEC. 2. Sick leave with pay shall be granted to employees when they are incapacitated for the performance of their duties by sickness, injury, or pregnancy and confinement, or when some member of the immediate family of the employee is afflicted with a contagious disease and requires the care and attendance of the employee, or when, through exposure to contagious disease, the presence of the employee at his post of duty would jeopardize the health of others.

SEC. 3. Except as provided in section 4 hereof, employees shall be entitled to sick leave at the rate of 1¼ days a month, and if such leave is not used it shall accumulate: *Provided*, that the total accumulation shall not exceed 90 days. Sick leave accruing during any month of service shall be available at any time during the month.

SEC. 4. In cases of serious disability or ailments, and when the exigencies of the situation so require, sick leave may be advanced not in excess of 30 days in addition to the unused sick leave that has accumulated to the credit of the employee: *Provided*, that temporary employees shall not be entitled to an advance of sick leave: *And provided further*, that no advances of sick leave shall be made to any employee unless the absence from duty on account of illness is

for a period, or periods, of not less than 5 consecutive days, except that advanced leave in a less amount may be granted to supplement accrued leave to cover a continuous absence of 5 days or more; that every case of advanced leave shall be supported by a certificate of a registered practicing physician or other practitioner; that the total of such advances shall not at any time exceed 30 days in excess of the accumulated sick leave; and that such advances shall be charged against sick leave subsequently accumulating.

SEC. 5. When an employee applies for sick leave in excess of the amount accumulated to his credit and the circumstances do not justify such an advance, the excess leave applied for, if granted and used, shall be charged against any unused annual leave to which the employee is entitled, or, if there is no unused annual leave, the excess shall be charged as leave without pay, and such excess leave, however charged, shall not thereafter be converted into either sick or annual leave subsequently accumulating.

SEC. 6. Sick leave shall not be advanced in an amount that would exceed the total that would accumulate during the period from the date of the advance to the termination of a limited appointment (not temporary in character) or one expiring on a specified date.

SEC. 7. Advanced sick leave may be granted irrespective of whether the employee has to his credit unused annual leave.

SEC. 8. Sick leave shall not be granted for slight illness or indisposition not incapacitating the employee for the performance of his regular duties, or for absence for the purpose of being treated professionally by a dentist or oculist in his office; but sick leave may be granted for detention at home or in a hospital by illness or disability due to causes as to which a dentist or oculist is qualified to certify.

SEC. 9. An employee transferred or reappointed without break in service from one permanent position to another permanent position within the same or a different governmental agency shall be credited with accumulated sick leave and charged with sick leave previously advanced in excess of that accumulated at the time of transfer. "Break in service" means separation from the service for a period of one or more work days.

SEC. 10. Sick leave shall accrue to an employee while in a leave-with-pay status. Sick leave shall not accumulate to an employee while in a non-pay status due to leave without pay or furlough when the duration of such non-pay status in any calendar year aggregates 30 days or more: *Provided*, that when the duration of such non-pay status is in excess of 30 days in any calendar year, such excess shall affect the accumulation of sick leave only when it aggregates 10 days, and likewise for each aggregate period of 10 days thereafter. Sick leave shall not accrue during any period of suspension for disciplinary reasons.

SEC. 11. In the case of voluntary separation or removal for cause of an employee to whom sick leave has been advanced in an amount in excess of that accumulated, the employee shall refund the amount paid him for the period of such excess, or deduction therefor shall be made from any salary due him or from any deductions in the retirement fund to his credit. Such indebtedness shall be charged against the employee on the basis of the salary rate obtaining during the period of advanced sick leave, and on the basis of one day's pay for each day of absence, inclusive of Sundays and holidays. Absences for fractional parts of a day will be charged proportionately. Refund shall not be required in cases of death, retirement for age or disability, reduction of force, or when an employee who is not eligible for retirement is unable to return to duty because of disability, which shall be evidenced by an acceptable certificate from a registered practicing physician or other practitioner.

SEC. 12. Sundays, holidays, and non-work days within a period of sick leave shall be charged as sick leave, except when immediately preceding or following a period of sick leave, if the employee shall have been in a pay status immediately prior to or following such Sundays, holidays, or non-work days.

SEC. 13. The minimum charge for absence on account of sickness, except on Saturdays or on other days on which 4 hours constitute a full work day, shall be  $\frac{1}{2}$  day; and additional fractions authorized on the same day shall be charged in multiples of  $\frac{1}{2}$  hour. On Saturdays, or other days on which 4 hours constitute a full work day, absences on account of illness shall be charged as follows: For 2 hours or less— $\frac{1}{2}$  day; for more than 2 hours and not more than 3

hours— $\frac{3}{4}$  of a day; for more than 3 hours—a full day.

SEC. 14. Notification of absence on account of sickness shall be given as soon as possible on the first day of absence. If such notification is not made in accordance with this regulation, such absence may be charged to annual leave or leave without pay. Application for sick leave shall be filed within two days after return to duty.

SEC. 15. Application for sick leave for a period in excess of 3 days shall be supported by a certificate of a registered practicing physician or other practitioner, except that in remote localities where such certificate cannot reasonably be obtained, the applicant's signed statement as to the nature of the illness and the reason why a certificate is not furnished, may be accepted. For periods of 3 days or less, the total of which shall not exceed 12 days in any one calendar year, the applicant's signed statement on a prescribed form may be accepted.

SEC. 16. When sickness continuing for more than 5 days occurs within a period of annual leave, the period of illness may, upon presentation of the certificate of a registered practicing physician or other practitioner, be charged as sick leave, and the charge against annual leave reduced accordingly. No such charge against sick leave shall be made for illness which does not last more than 5 days. Application for such substitution of sick leave for annual leave shall be made within 2 days after the expiration of the annual-leave period: *Provided*, that this provision may be waived by the head of the department or agency concerned.

SEC. 17. Sick leave may not be granted for a period immediately following a period of absence in a non-pay status, unless and until there is a return to actual duty, nor may such leave without pay be converted into sick leave.

SEC. 18. Sick leave accumulated during temporary appointment shall be credited to an employee who receives a permanent appointment in the same governmental agency without break in service but shall not be transferable elsewhere under any circumstances.

SEC. 19. In the case of an employee who was not entitled to sick leave under prior law, but who is now entitled thereto, sick leave as accumulated may be substituted for leave without pay or annual leave taken because of illness between January 1 and March 14, 1936.

SEC. 20. Sick leave taken in excess of  $1\frac{1}{4}$  days a month during the period between January 1 and March 14, 1936, shall be charged against sick leave subsequently accumulating.

SEC. 21. Nothing in these regulations shall be construed to prevent the continuance of any sick leave differential existing prior to January 1, 1936, for the benefit of employees of the Federal Government stationed without the continental limits of the United States. However, any department may, if it so desires, apply these regulations to employees stationed without the continental limits of the United States, subject to the continuance of such leave differential.

SEC. 22. The heads or governing bodies of the various governmental agencies to which this order applies shall be responsible for the proper administration of these regulations in so far as they pertain to the granting of sick leave to employees under their respective jurisdictions; and they may, within the limits authorized by law, issue such regulations as are not inconsistent with these regulations.

#### *Part III. Employees Excepted*

SEC. 23. These regulations shall not apply to:

(a) Teachers and librarians of the public schools of the District of Columbia.

(b) Officers and members of the police and fire departments of the District of Columbia, other than civilian personnel.

(c) Officers and employees of the Panama Canal and Panama Railroad on the Isthmus of Panama.

prevailing wages as prescribed in Executive Orders.

(g) Employees not required to be continuously employed during regular tour of duty, such as: (1) Per diem or per hour employees engaged in an emergency who may be employed for more than one 7- or 8-hour shift within 24 hours during the emergency; (2) part-time or intermittent employees; (3) persons engaged under contract; (4) employees engaged temporarily for less than a month on a piece-price basis; (5) employees who are paid at hourly rates but who are not engaged on construction work, such as mechanics, skilled laborers, and others engaged in many services on maintenance, repair, clean-up work, and the like, where employment is more or less intermittent and not on a regular or continuous basis; and (6) employees paid on a fee basis, such as physicians, surgeons, and other consultants.

*Part IV. Ratification: Revocation: Effective Date*

SEC. 24. All temporary regulations issued by the heads of the various departments and independent establishments under authority of Executive Order No. 7321 of March 21, 1936, are hereby ratified. All such temporary regulations and all other regulations relating to the granting of sick leave are hereby revoked in so far as they are inconsistent with these regulations.

#### EXECUTIVE ORDER 7856

##### RULES GOVERNING THE GRANTING AND ISSUING OF PASSPORTS IN THE UNITED STATES

By virtue of and pursuant to the authority vested in me by section 1 of the act of July 3, 1926, 44 Stat. 887 (U.S.C., title 22, sec. 211a), I hereby prescribe the following rules governing the granting and issuing of passports in the United States.

##### Part I—Authority To Issue Passports in the United States

1. Only the Secretary of State may grant and issue passports in the United States. (Sec. 1, act of July 3, 1926, 44

Stat. 887; U.S.C., title 22, sec. 211a; sec. 4078, R.S.)

*Part II—To Whom Passports Are Issued*

2. No passport shall be granted or issued to any other persons than those owing allegiance, whether citizens or not, to the United States. (Sec. 4076, R.S.; act of June 14, 1902, 32 Stat. 386; U.S.C., title 22, sec. 212)

3. Unless a request is made by the parental or other guardian that a passport be denied, passports may be issued to minors upon their own application.

4. Children may execute applications in their own behalf when of sufficient intelligence to understand the statements, and the meaning of the oath of allegiance to the United States, contained in the applications.

5. As a rule, children of 12 years of age or more should be required to execute their own applications for passports.

6. If circumstances warrant, a parent or guardian may execute applications for passports on behalf of minors of any age. The application should be signed thus: "Richard Roe, by John Roe, father." The oath of allegiance to the United States need not be administered.

*Part III—Persons Who May Be Included in One Passport*

7. Only persons who are citizens of, or who owe allegiance to, the United States may be included in a passport of the United States.

8. A passport issued to a husband or wife may include his or her spouse.

9. A passport issued to a parent may include his or her unmarried minor children or stepchildren.

10. A minor brother or sister may be included in the passport of an older brother or sister.

11. A minor grandchild, niece, or nephew of tender years may be included in the passport of the relative when the application therefor is accompanied by a request from the parental or other guardian.

12. Adopted children who are American citizens may be included in a passport issued to the adoptive parents. (See Par. 111)

13. A minor child who will attain majority within two years may be included in a passport issued to a parent under the conditions stated in this Part but such passport shall be limited in validity to the date when such minor child shall attain majority. In the dis-

cretion of the Secretary of State an exception may be made to this paragraph when the minor child will attain majority within a period not exceeding three months prior to the date of the expiration of the usual two-year period for which a passport is issued.

*Part IV—Applications for Passports*

14. Before a passport is issued to any person by or under the authority of the United States such person shall subscribe to and submit a written application duly verified by his oath before a person authorized and empowered to administer oaths, and each application shall contain a true recital of each and every matter of fact which may be required by law, or by any rules authorized by law, to be stated as a prerequisite to the issuance of any such passport. (Act of June 15, 1917, 40 Stat. 227; U.S.C., title 22, sec. 213)

15. The application must be executed in person before a clerk of a Federal court or a State court authorized by the act of June 29, 1906, 34 Stat. 596, to naturalize aliens, or before an Agent of the Department of State within the jurisdiction in which the applicant or the witness to his application resides. However, if, for valid reason, the application is executed before such an official elsewhere, the Secretary of State may in his discretion accept such application.

16. When the application is executed before a clerk of court, the seal of the court must be affixed to the application. When the application is executed before an Agent of the Department of State, the seal of the Agency of the Department of State must be affixed to the application.

17. When an application for a passport is not made at or near the place where the applicant resides, the applicant should give the name and address of a reputable person residing at or near the place of the applicant's residence, to whom the clerk of court, the Agent of the Department of State, or the Department of State itself, may address such inquiry as may be necessary concerning the applicant. When it is necessary to make inquiries by telegraph, the expense thereof shall be borne by the applicant.

*Part V—Names and Titles*

18. The passport application shall contain the full name of the applicant, thus, "John Henry Smith", not "J. H. Smith". A married woman's name should, ordinarily, be written thus: "Mary Elizabeth Doe", not "Mrs. John Doe".

19. An applicant whose name has been changed by order or decree of a court should submit with his application a certified copy of such order or decree. An applicant who has changed his name by the adoption of a new name without formal court procedure, if he resides in a State where a formal court procedure is not necessary, should submit with his application the affidavits of two or more persons to the effect that he uses the new name exclusively, has used it exclusively for a stated period of time, and is known by such name in the community in which he resides.

20. A married woman desiring a passport issued in her maiden name must submit with her application the affidavits of two or more persons to the effect that she uses her maiden name exclusively, has used it exclusively for a stated period of time, and is known by such name in the community in which she resides.

21. If an applicant desires to use a professional name, he must submit affidavits of two or more persons to the effect that the applicant has used the professional name for a stated period of time. A married woman who uses her maiden name for professional purposes must submit affidavits of two or more persons to the effect that she has used such name for professional purposes for a stated period of time. In the case of an applicant using a professional name, his passport will be written thus: "John Henry Jones (professionally known as Thomas Augustus Smith)". In the case of a married woman using her married name, and also her maiden name as a professional name, the passport will be written thus: "Mary Doe (professionally known as Mary Roe)", and an applicant's name in religion or an author's *nom de plume* will be similarly written.

22. The Department of State may, in addition to the evidence required under this Part, require such other evidence as it may deem necessary.

(Sec. 1, act of June 4, 1920, 41 Stat. 750; U.S.C., title 22, sec. 214)

(a) Officers or employees of the United States and Members of their immediate families.

92. In order to be exempt from the payment of the passport fee, an officer or employee of the United States shall submit with his application a written request for a passport from the head of the department or office in which he is employed. The request should set forth the nature of the employment of the applicant, the names of the countries in which he intends to travel, and the official nature of the journey abroad. These conditions shall be applicable to the renewal of a passport to an officer or employee of the United States.

93. An applicant who is a member of the immediate family of an officer or employee of the United States who intends to go abroad on official business, or who is abroad on such business, shall not be required to submit documentary evidence of the official status of the officer or employee of the United States of whose immediate family he is a member if he will refer to the passport application made by such officer or employee

Seamen not traveling as such are not exempt from the payment of the passport fee.

96. Passports shall not be issued to American citizens who are employed or expect to be employed as seamen on foreign vessels unless the necessity for the possession of a passport is established to the satisfaction of the Secretary of State. However, in such case the seaman is not exempt from the payment of the passport fee.

97. A seaman who possesses a seaman's certificate of American citizenship should submit such certificate with his application for a passport. No other document issued to a seaman under laws applicable to seamen shall be required to be surrendered in connection with an application for a passport.

A passport issued upon such application will be valid only for the country in

which the deceased soldier, sailor, or marine is buried and the countries en route.

*Part X—Evidence of Citizenship To Accompany Applications for Passports*

(a) Native citizens.

100. A person born in the United States in a place where official records of birth were kept at the time of his birth must submit with the application a birth certificate under the seal of the official custodian of birth records. A certificate to be acceptable must show the date and place of birth and that the record thereof was made at the time of birth or shortly thereafter. If a birth certificate is not obtainable, that fact should be shown, and the application should be supported by a baptismal certificate or a certified copy of the record of baptism under the seal of the church in which the applicant was baptized, giving the date and place of birth, the date of baptism, and the date on which the record of baptism was made. A baptismal certificate to be acceptable must show that the baptism occurred within a short time after the date of the birth of the applicant as shown in the certificate. If birth and baptismal certificates are not obtainable, an affidavit of the parent or of the physician, nurse, or midwife who attended the birth, or the affidavit of a reputable person having sufficient knowledge to be able to testify as to the place and date of the applicant's birth may be accepted. A person who did not attend the birth but who testifies concerning the place and date of the applicant's birth should state briefly how and through what source the knowledge was acquired.

101. A person born abroad whose father was born in the United States and at the time of the applicant's birth had not ceased to be a citizen of the United States must submit with his application evidence of the father's birth in this country as required in the preceding paragraph.

102. If the applicant comes within the provisions of Paragraph 100 or 101 and has previously been issued a passport, reference to the application upon which such passport was issued will be sufficient, provided there was submitted with such application satisfactory evidence of American citizenship. If the applicant has not previously been issued a passport but his father has been issued such a document, reference to the application

upon which a passport was issued to his father will be sufficient, provided there was submitted with such application satisfactory evidence of the father's American citizenship.

103. A person born abroad after noon, Eastern Standard Time, May 24, 1934, of a mother who was born in the United States and an alien father, must submit with his application evidence of the mother's birth in this country as required by Paragraph 101.

104. A person born abroad after noon, Eastern Standard Time, May 24, 1934, of parents both of whom were born in the United States, must submit with his application evidence of the birth in this country of both of his parents as required by Paragraph 101. If either parent has previously been issued a passport, reference to the application upon which such document was issued will be sufficient as evidence of the citizenship of that parent, provided there was submitted with such application evidence of his American citizenship.

105. A person born abroad who claims American citizenship through the birth abroad of a father who acquired American citizenship at birth must submit evidence of the citizenship of his paternal grandfather and evidence that his father resided in the United States prior to the applicant's birth. If the father has previously been issued a passport, reference to the application upon which such document was issued will be sufficient as evidence of the citizenship of the father, provided there was submitted with such application evidence of his father's American citizenship and it satisfactorily appears from such application that the father had resided in the United States prior to the applicant's birth abroad.

106. A person born abroad after noon, Eastern Standard Time, May 24, 1934, who claims American citizenship through the birth abroad of a mother who acquired American citizenship at birth must submit evidence of the citizenship of his maternal grandfather and evidence that his mother resided in the United States prior to the applicant's birth. If the mother has previously been issued a passport reference to the application upon which such document was issued will be sufficient as evidence of the citizenship of the mother, provided there was submitted with such application evidence of her father's American citizenship and it satisfactorily appears from

such application that the mother had resided in the United States prior to the applicant's birth abroad.

107. A person born abroad who claims citizenship at birth through a parent who was naturalized as a citizen of the United States must submit with his application the parent's certificate of naturalization, unless the applicant or his father has previously been issued a passport upon an application with which was submitted satisfactory evidence of the father's naturalization.

(b) Persons claiming citizenship through naturalization of self or parent.

108. A person naturalized in his own right must submit with his application his certificate of naturalization.

109. The child of a naturalized citizen claiming citizenship through the naturalization of the father or mother must submit the certificate of naturalization of the parent through whom he claims American citizenship, and if the parent was naturalized after noon, Eastern Standard Time, May 24, 1934, he must show that he has resided in the United States as a minor for a period of five years. If both parents have been naturalized, appropriate evidence thereof should be submitted. If the mother resumed American citizenship under section 3 of the act of March 2, 1907, 34 Stat. 1228, or was repatriated under the act of June 25, 1936, ch. 801, 49 Stat. 1917 (U.S.C., title 8, sec. 9a), appropriate evidence of such resumption or repatriation must be submitted with the application.

110. If the applicant comes within the provisions of Paragraph 108 or 109 and has previously been issued a passport, reference to the application upon which such passport was issued will be sufficient, provided there was submitted with such application evidence of his naturalization or the naturalization of the parent through whom he claims citizenship.

(c) An adopted child included in the passport of the foster parent or parents.

111. As the adoption of an alien child by an American citizen does not confer American citizenship upon such child, it is necessary when an adopted minor child is to be included in the passport of the foster parent or parents that the application be accompanied by documentary evidence of the adoption of the child and evidence of the child's American citizenship. When evidence of the citizenship of an adopted child of the nature mentioned in this section cannot be obtained but the custody of the adopted child was obtain-

ed during early infancy from a reputable charitable or other organization, an affidavit may be executed by an official of such organization setting forth, if possible, the date and place of birth in the United States of its former ward, the fact that the child has been legally adopted, the date and manner of adoption, and the name and place of residence of the adoptive parent or parents. Such affidavit should also set forth the basis for the knowledge and belief of the affiant concerning the date and place of birth of the child and the date when the child was placed in the custody of the organization. If the child has not been formally adopted, that fact should be set forth in the affidavit, together with a statement indicating that the child has had a permanent and established place for a definite period of time with the family in whose custody the child has been placed by the organization. The Secretary of State may require the submission of such further information or documents as he may deem necessary to establish the legal or actual custody of the child and its nationality.

(d) Wife included in husband's application.

112. When an application includes the wife of the applicant, evidence of the husband's citizenship only shall be required if the wife was born in the United States, or if alien born was eligible to naturalization under section 1994 of the Revised Statutes of the United States (repealed by section 6 of the act of September 22, 1922, 42 Stat. 1022), provided that in both cases the marriage occurred prior to September 22, 1922, and the applicant was an American citizen at the time of marriage or became a citizen prior to the date mentioned. When the marriage occurred on or after September 22, 1922, evidence of the American citizenship of both the husband and wife must accompany the application.

(e) Husband included in wife's application.

113. When an application includes the husband of the applicant, evidence of the husband's citizenship and not evidence of the wife's citizenship should be submitted if the marriage occurred prior to September 22, 1922. If the marriage occurred on or after September 22, 1922, evidence of the citizenship of the applicant and her husband must accompany the application.

114. The Secretary of State may require such additional evidence of citi-

zenship as in his judgment may be necessary to establish the citizenship of an applicant for a passport.

*Part XI—Evidence of Citizenship To Accompany a Woman's Application for a Passport*

115. The following classes of American-born women must submit evidence of their own citizenship:

(a) One who has never been married.

(b) One who married on or after September 22, 1922.

(c) One who was married to an alien between March 2, 1907, and September 22, 1922, and whose marital status was terminated prior to September 22, 1922. If the marriage was terminated by divorce, the original decree of divorce or a certified copy of the court record thereof must be submitted. If the marriage was terminated by death, a statement to that effect must be made in the application. Prior to September 22, 1922, upon the termination of such a marriage a woman could resume her American citizenship, if abroad, by registering as an American citizen within one year with a Consul of the United States, or by returning to reside in the United States, or, if residing in the United States at the termination of the marital relationship, by continuing to reside therein. (Section 3, act of March 2, 1907, 34 Stat. 1228, repealed by section 7, act of September 22, 1922, 42 Stat. 1022) The manner in which American citizenship was resumed prior to September 22, 1922, must be set forth in the application and supported by appropriate evidence. If necessary, a supplementary statement under oath should be attached to the application.

(d) One who married an alien prior to March 2, 1907, but who did not, subsequent to the marriage, reside permanently abroad.

(e) One who married an alien prior to March 2, 1907, who, as a result of such marriage, acquired the nationality of the country of which her husband was a national, and who, subsequent to the marriage and prior to September 22, 1922, resided permanently abroad. In such case a woman must submit evidence that she resumed or reacquired American citizenship.

116. An American-born woman who was married to an American citizen prior to September 22, 1922, must submit evidence of her husband's citizenship.

117. An American woman who lost American citizenship by marriage to an alien and whose husband became naturalized prior to September 22, 1922, must submit the certificate of naturalization of her husband.

118. The following classes of alien-born women must submit evidence of their own citizenship:

(a) One who has never been married, and who has been naturalized in her own right or through the naturalization of either or both parents, or through the resumption of American citizenship by the mother or by the latter's repatriation.

(b) One who, subsequent to acquiring American citizenship, married an alien prior to September 22, 1922, and who, after the termination of the marital status, resumed American citizenship under section 3 of the act of March 2, 1907, 42 Stat. 1022, or was naturalized in her own right.

(c) One who, subsequent to acquiring American citizenship, married an alien prior to September 22, 1922, and who subsequent to that date was naturalized as an American citizen.

(d) One who was married after September 22, 1922, but whose claim to citizenship is based upon her own naturalization or the naturalization of either or both parents or through the resumption of American citizenship by the mother or by the latter's repatriation as a citizen of the United States.

(e) One who, subsequent to acquiring American citizenship, married an alien ineligible to citizenship on or after September 22, 1922, and prior to March 3, 1931, and who since the latter date has been naturalized as an American citizen.

119. The Secretary of State may require such additional evidence of citizenship as in his judgment may be necessary to establish the citizenship of an applicant for a passport.

*Part XII—A Resident of an Outlying Possession of the United States Who Was Not Born or Naturalized in the United States but who Owes Permanent Allegiance, Whether a Citizen or Not, to the United States*

120. A resident of an outlying possession of the United States who was not born or naturalized in the United States but who owes permanent allegiance, whether a citizen or not, to the United States, who was born in an outlying possession at a place where official records

of birth were kept at the time of his birth, must submit with his application evidence of citizenship of the nature described in Paragraph 100, except that when a proper birth or baptismal certificate cannot be submitted or an affidavit cannot be obtained from a person who attended the birth, the applicant must submit affidavits of two credible persons stating how long they have known the applicant and through what source the knowledge of the date and place of the applicant's birth was acquired.

121. The applicant must submit such additional documentary evidence as may be necessary to show conclusively that he has acquired American nationality under any law of the United States or any treaty to which the United States is a party.

122. An applicant who claims to be a citizen of the Commonwealth of the Philippines must submit such documentary evidence as may be necessary to show conclusively that under the laws of the United States or of the Philippine Islands in effect at the time of the adoption of the Constitution of the Philippines he was a citizen of the Philippine Islands and hence acquired citizenship in the Commonwealth, or that he subsequently, under the Constitution or under the laws subsequently enacted by the legislature of the Commonwealth of the Philippines, acquired citizenship in that Commonwealth.

*Part XIII—Affidavits*

123. Any affidavit which may be required under these rules or shall be submitted in support of an application for a passport or the renewal, extension, or amendment of a passport shall be considered as, and become, a part of the application.

*Part XIV—Additional Regulations*

124. The Secretary of State is authorized in his discretion to refuse to issue a passport, to restrict a passport for use only in certain countries, to restrict it against use in certain countries, to withdraw or cancel a passport already issued, and to withdraw a passport for the purpose of restricting its validity or use in certain countries.

125. Should a person to whom a passport has been issued knowingly use or attempt to use it in violation of the conditions or restrictions contained therein or of the provisions of these rules,

the protection of the United States may be withdrawn from him while he continues to reside abroad.

126. The Secretary of State is authorized to make regulations on the subject of issuing, renewing, extending, amending, restricting, or withdrawing passports additional to these rules and not inconsistent therewith.

127. This order supersedes Executive Order No. 5860 of June 22, 1932, as amended by Executive Order No. 6650 of March 23, 1934, prescribing rules governing the granting and issuing of passports in the United States.

#### LETTER OF NOVEMBER 9, 1936

THE WHITE HOUSE,  
*Washington, November 9, 1936.*

MY DEAR MR. SECRETARY:

Art Metal Works, Inc., having its principal office in Newark, New Jersey, has made complaint asking relief under Section 337, Title III, Part II, of the Tariff

Act of 1930, from unfair methods of competition and unfair acts in the importation and sale of certain cigar lighters.

Upon the facts submitted to me by the United States Tariff Commission, I have reason to believe that the products above mentioned are offered or sought to be offered for entry into the United States in violation of said Section 337. I have not, however, at the present time information sufficient to satisfy me thereof. Pending the completion of an investigation instituted on August 14, 1936 by the Tariff Commission, under said Section 337, for a full presentation of the facts involved, it appears that the continuance of the unfair methods of competition and unfair acts complained of will work a substantial injury in violation of said Section 337 to the industry of petitioner.

By authority of subdivision (f) of Section 337 of said Tariff Act, I therefore request that you forbid entry into the United States of cigar lighters patented in United States Letters Patent Nos. 1986384, 2002845, and Des. 96639.

Imports of such cigar lighters will, of course, be entitled to entry under bond prescribed by you in accordance with Section 337(f) of the Tariff Act of 1930.

Very sincerely yours,

FRANKLIN D ROOSEVELT

The Honorable  
*The Secretary of the Treasury,*  
*Washington, D.C.*

#### LETTER OF FEBRUARY 20, 1937

THE WHITE HOUSE,  
*Washington, February 20, 1937.*

MY DEAR MR. SECRETARY:

By authority of subdivision (f) of section 337 of the Tariff Act of 1930, you were, on November 9, 1936, requested to forbid entry into the United States, except under bond provided for in said section 337(f), of cigar lighters patented in United States Letters Patent Nos. 1986384, 2002845, and Des. 96639. This order was predicated on the recommendation of the Tariff Commission. Since that time the Tariff Commission has conducted a hearing in the investigation, during which hearing it was disclosed that Design Patent No. 96639 is the subject of pending litigation, and that, in ruling on a motion for a preliminary injunction concerning such patent, the United States District Court for the Southern District of New York

denied the motion and expressed the view that the patent did not meet "the test of invention indicated by the more recent authorities."

In view of the serious doubt concerning the validity of such design patent, it does not appear equitable to continue in force that section of the exclusion order predicated upon it. I accordingly modify the above-mentioned exclusion order of November 9, 1936, and request that pending completion of the investigation you continue to forbid entry into the United States of cigar lighters patented in United States Letters Patent Nos. 1986384 and 2002845. Imports of such lighters will, of course, be entitled to entry under bond prescribed by you in accordance with section 337(f) of the Tariff Act of 1930.

Very sincerely yours,

FRANKLIN D ROOSEVELT

The Honorable  
The Secretary of the Treasury,  
Washington, D.C.

LETTER OF JULY 22, 1937

THE WHITE HOUSE,  
*Washington, July 22, 1937.*

MY DEAR MR. SECRETARY:

By authority of subdivision (f) of section 337 of the Tariff Act of 1930, you

were, on November 9, 1936, requested to forbid entry into the United States, except under bond, provided for in said section 337 (f), of cigar lighters patented in United States Letters Patent Nos. 1986384, 2002845, and Des. 96639, pending completion of an investigation by the United States Tariff Commission. This order was predicated on the recommendation of the Tariff Commission following a preliminary inquiry by that Commission. On February 20, 1937, following a hearing and recommendation by the Commission, the order was modified so as not to apply to the design patent.

The Tariff Commission, after an adequate investigation, has reported to me that the existence of unfair methods of competition or unfair acts in the importation or sale of the articles concerned within the meaning of section 337 has not been established. The Commission has also recommended that the temporary exclusion order above referred to be rescinded.

The existence of any such unfair method or act has not been established to my satisfaction. I accordingly request that the temporary order of exclusion, except under bond, promulgated by you on November 16, 1936 (T.D. 48628), as modified by the order promulgated on March 3, 1937 (T.D. 48845) be terminated.

Very sincerely yours,

FRANKLIN D ROOSEVELT

The Secretary of the Treasury,  
Washington, D.C.

LETTER OF DECEMBER 18, 1937

THE WHITE HOUSE,  
Washington, December 18, 1937.

MY DEAR MR. SECRETARY:

With reference to my letter addressed to you on July 3, 1937, concerning the application of duties proclaimed in connection with the trade agreement signed on November 28, 1936, with Costa Rica and all other duties theretofore proclaimed in connection with trade agreements concluded under the authority of the Act to Amend the Tariff Act of 1930, approved June 12, 1934 (48 Stat. 943), as extended by the Joint Resolution approved March 1, 1937 (Public Resolution No. 10, 75th Congress), I hereby direct that the aforesaid duties (with the exception of the duties proclaimed in connection with

the trade agreement signed on August 24, 1934, with Cuba) shall continue to be applied to the products of Italy so long as such duties remain in effect, and this direction is not modified.

The above mentioned letter of July 3, 1937, is modified accordingly, and you will please cause notice of this modification to be published in an early issue of the weekly *Treasury Decisions*.

Very sincerely yours,

FRANKLIN D ROOSEVELT

The Honorable

LETTER OF JANUARY 25, 1938

THE WHITE HOUSE,  
Washington, January 25, 1938.

MY DEAR MR. SECRETARY:

I refer to my letter addressed to you on June 26, 1936, notifying you that I had found as a fact that the treatment of American commerce by the Commonwealth of Australia was discriminatory and directing that the duties proclaimed in connection with the trade agreements concluded under the authority of the Act to amend the Tariff Act of 1930, approved June 12, 1934, should cease to be applied to products of Australia entered for consumption or withdrawn from warehouse for consumption on or after August 1, 1936; and to my letter addressed to you on July 3, 1937, and in particular to the fourth (unnumbered) paragraph of that letter, concerning the application of duties proclaimed in connection with the trade agreement signed on November 28, 1936, with Costa Rica and all other duties theretofore proclaimed in connection with trade agreements concluded under the authority of the Act to amend the Tariff Act of 1930, approved June 12, 1934 (48 Stat. 943), as extended by the Joint Resolution approved March 1, 1937 (Public Resolution No. 10, 75th Congress).

You are hereby notified that I find as a fact that the Commonwealth of Australia no longer applies to American commerce the treatment which caused me to suspend the application of the aforesaid duties to products of that country. I therefore direct that the aforesaid duties (with the exception of the duties proclaimed in connection with the trade agreement signed on August 24, 1934, with Cuba) shall be applied to

products of Australia entered for consumption or withdrawn from warehouse for consumption on or after February 1, 1938.

The above mentioned letter of July 3, 1937, is modified accordingly, and you will please cause notice of this modification to be published in an early issue of the weekly *Treasury Decisions*.

Very sincerely yours,

FRANKLIN D ROOSEVELT

LETTER OF MARCH 15, 1938

THE WHITE HOUSE,  
*Washington, March 15, 1938.*

The Act further provides that the President may suspend the application of the proclaimed duties to articles the growth, produce, or manufacture of any country because of its discriminatory treatment of American commerce or because of other acts or policies which in his opinion tend to defeat the purposes set forth in the Act. Pursuant to these provisions of the Act, I hereby direct that the duties proclaimed on this date in connection with the trade agreement signed on March 7, 1938 with Czechoslovakia, and all other duties heretofore proclaimed in connection with trade agreements (other than the trade agreement with Cuba signed on August 24, 1934 and the trade agreement with Nicaragua signed on March 11, 1936) signed under the authority of the Act shall be applied from the effective date of such duties, or, as the case may be, shall continue to be applied on and from the date of this letter, only to articles the growth, produce, or manufacture of the countries herein-after designated and to such articles, in the case of each country, respectively, for the period indicated in the numbered section below in which such country is designated.

1. In respect of the products of each country designated in this section, the proclaimed duties shall be applied from the effective date of such duties, or, as the case may be, shall continue to be applied on and from the date of this letter, until thirty days from the date on which you are notified by me that the United States has ceased, or on a day certain will cease, to be bound by provisions of a treaty or agreement providing for most-favored-nation treatment in respect of customs duties.

2. In respect of the products of each country designated in this section, the proclaimed duties shall be applied so long as such duties remain in effect and this direction is not modified in respect of such country.
